Paul Citroen, Künstler, Lehrer, Sammler Herbert van Rheeden, Monique Feenstra, Paul Roelof Citroen, Bettina Rijkschroeff, 1994 Biografie van de kunstenaar kunstpedagoog en verzamelaar 1896 1983 AMC art book

Sabrina Kamstra, Simon Knepper, Johan Kortenaar, 2003 An art collector who was a patient at the Amsterdam Medical Center once expressed his gratitude with a donation of several works of art the seed for the extraordinary modern art collection that now flourishes at the Amsterdam Medical Center Since it began seriously cultivating its art collection in the 1980s the Center has amassed approximately 5 000 works by Dutch and Dutch resident artists The Amsterdam Medical Center Art Book is an extraordinary showcase of the Center's rich and diverse collection which focuses on Dutch art from the 1950s through the 1970s The book highlights several stunning examples within the collection of such benchmark art movements as CoBrA Mixed Media Art Zero Art and New Figuration Other fascinating pieces featured in the book were created by artists in residence who were allowed to draw from live scenes in the Center's operating theater and maternity ward This volume ultimately presents a fascinating survey of Dutch post war art with over 100 vibrant color illustrations that include works by Eugene Brands Karel Appel Constant Marc Mulders Roy Villevoe and Marlene Dumas *Metropolis*, 2020-12-07 *The Symbolist Roots of Modern Art* Michelle Facos, 2017-07-05 With the words A new manifestation of art was expected necessary inevitable Jean Moré announced the advent of the Symbolist movement in 1886 When Symbolist artists began experimenting in order to invent new visual languages appropriate for representing modern life in all its complexity they set the stage for innovation in twentieth century art Rejecting what they perceived as the superficial descriptive quality of Impressionism Naturalism and Realism Symbolist artists delved beneath the surface to express feelings ideas scientific processes and universal truths By privileging intangible concepts over perceived realities and by asserting their creative autonomy Symbolist artists broke with the past and paved the way for the heterogeneity and penchant for risk taking that characterizes modern art The essays collected here which consider artists from France to Russia and Finland to Greece

argue persuasively that Symbolist approaches to content form and subject helped to shape twentieth century Modernism Well known figures such as Kandinsky Khnopff Matisse and Munch are considered alongside lesser known artists such as Fini Gyzis Koen and Vrubel in order to demonstrate that Symbolist art did not constitute an isolated moment of wild experimentation but rather an inspirational point of departure for twentieth century developments **Dada Culture**

,2016-08-01 How Dada is to break its cultural accommodation and containment today necessitates thinking the historical instances through revised application of critical and theoretical models The volume *Dada Culture Critical Texts on the Avant Garde* moves precisely by this motive bringing together writings which insist upon the continuity of the early twentieth century moment now at the start of the twenty first Engaging the complex and contradictory nature of Dada strategies instanced in the linguistic gaming and performativity of the movement s initial formation and subsequently isolating the specific from the general with essays focusing on Ball Tzara Serner Hausmann Dix Heartfield Schwitters Baader Cravan and the exemplary Duchamp the political philosophy of the avant garde is brought to bear upon our own contemporary struggle through critical theory to comprehend the cultural usefulness relevance validity and effective or otherwise oppositionality of Dada s infamous anti stance The volume is presented in sections that progressively point towards the expanding complexity of the contemporary engagement with Dada as what is often exhaustive historical data is forced to rethink realign and reconfigure itself in response to the analytical rigour and exercise of later twentieth century animal anarchic thought the testing and cultural placement of thoughts upon the virtual and the eventual implications for the once blissfully unproblematic idea of expression From the opening provocative proposition that historically Dada may have been the falsest of all false paths the volume rounds to dispute such condemnation as demarcation continues not only of Dada s embeddedness in western culture but more precisely of the location of Dada culture Ten critical essays by Cornelius Partsch John Wall T J Demos Anna Schaffner Martin I Gaughan Curt Germundson Stephen C Foster Dafydd Jones Joel Freeman and David Cunningham are supplemented by the critical bibliography prepared by Timothy Shipe which documents the past decade of Dada scholarship and in so doing provides a valuable resource for all those engaged in Dada studies today

the present volume wants to be read as a plea for a differentiated description of the many shared aspects and some differences between the avant garde and Neue Sachlichkeit **Blooming Spaces** Anastasiya Lyubas, 2020-11-03 Debora Vogel 1900 1942 wrote in Yiddish unlike anyone else Yiddish her fourth language after Polish Hebrew and German became the central vehicle for her modernist experiments in poetry and prose This ground breaking collection presents the work of a strikingly original yet overlooked author art critic and intellectual and resituates Vogel as an important figure in the constellation of European modernity Vogel s astute observations on art literature and psychology in her essays her bold prose experiments inspired by photography and film and Cubist poetry that both challenges and captivates invite the reader on a journey of discovery into the microcosm of the talented thinker marked by tragic fate and the macrocosm of Jewish history and Poland s turbulent twentieth century **Friedl Dicker-Brandeis** Stefanie Kitzberger, Cosima Rainer, Linda Schädler, 2022-12-19 Bauhaus artist Friedl Dicker Brandeis The work of Friedl Dicker Brandeis 1898 1944 occupies a key position in the broader history of the Austrian avant garde while also deepening our understanding of modernism Her work covers an impressive range of media and genres in the visual and applied arts Influenced by her studies at Vienna s Kunstgewerbeschule which later became the University of Applied Arts Vienna the Itten Private School and the Bauhaus in Weimar she worked as a painter stage designer architect designer in Vienna and Berlin in exile and as a deportee This book explores the heterogeneity of Dicker s work reconstructs her artistic strategies and references to aesthetic and political discourses from the 1920s to the 1940s and documents for the first time her works in the collection of the University of Applied Arts Vienna Portrait of her work and collection catalog dedicated to the artist designer and architect Friedl Dicker Brandeis Essays by Julie M Johnson Robin Rehm Daniela Stoppel and others To accompany an exhibition in Vienna and Zurich awarded as one of the most beautiful books in Austria in 2022 **PhotoSpeak** Gilles Mora, 1998 PhotoSpeak is the first reference to provide satisfying easily accessible information not only about the diverse techniques that have been explored since photography was invented more than 150 years ago but also about the ideas and the influences that have been central to those making and interpreting photographs **The J.
