From Near and Far Tyler Stovall, 2022-12 From Near and Far relates the history of modern France from the French Revolution to the present. Noted historian Tyler Stovall considers how the history of France interacts with both the broader history of the world and the local histories of French communities examining the impacts of Karl Marx, Ho Chi Minh, Paul Gauguin and Josephine Baker alongside the rise of haute couture and the contemporary role of hip hop. From Near and Far focuses on the interactions between France and three other parts of the world: Europe, the United States and the French colonial empire. Taking this transnational approach to the history of modern France, Stovall shows how the theme of universalism so central to modern French culture has manifested itself in different ways over the last few centuries. Moreover, it emphasizes the importance of narrative to French history that historians tell the story of a nation and a people by bringing together a multitude of stories and tales that often go well beyond its boundaries. In telling these stories, From Near and Far gives the reader a vision of France both global and local at the same time.

Paul Gauguin Anna Barskaya, 2011-07-01 Paul Gauguin was first a sailor then a successful stockbroker in Paris. In 1874 he began to paint at weekends as a Sunday painter. Nine years later, after a stock market crash, he felt confident of his ability to earn a living for his family by painting and he resigned his position and took up the painter's brush full time. Following the lead of Cézanne, Gauguin painted still lifes from the very beginning of his artistic career. He even owned a still life by Cézanne which is shown in Gauguin's painting Portrait of Marie Lagadu. The year 1891 was crucial for Gauguin. In that year he left France for Tahiti where he stayed till 1893. This stay in Tahiti determined his future life and career. In 1895, after a sojourn in France, he returned there for good. In Tahiti, Gauguin discovered primitive art with its flat forms and violent colours belonging to an untamed nature. With absolute sincerity he transferred them onto his canvas. His paintings from then on reflected this style: a radical simplification of drawing, brilliant pure bright colours, an ornamental type composition and a deliberate flatness of planes. Gauguin termed this style synthetic symbolism.

Revelation of Modernism Albert Boime, 2008 Examines the work of postimpressionist painters Van Gogh, Seurat, Cézanne and Gauguin and how they responded to cultural and spiritual crisis in the avant garde world. Boime reconsiders familiar masterpieces and draws analogies with literary sources and social, personal and political strategies to produce revelations that have eluded most art historians.
