Jordan,Paul Klee,1984-01-01 The Description for this book Paul Klee and Cubism will be forthcoming *The Making of Paul Klee's Career, 1914-1920* Otto Karl Werckmeister,1989-07-10 Paul Klee one of the preeminent artists of the twentieth century was associated with all of the major movements of the first half of the century expressionism cubism surrealism and abstraction In this economic and political history O K Werckmeister traces Klee s career as a professional artist concentrating on the years 1914 20 in which Klee rose from obscurity to recognition in the visual culture of the incipient Weimar Republic Werckmeister reveals the degree to which Klee who has been traditionally portrayed as aloof from politics and the vicissitudes of the art market was subject to and interacted with material conditions Drawing on rich documentary evidence records of Klee s sales reviews of his exhibitions the artist s published writings about his art unpublished correspondence as well as contemporary criticism Werckmeister follows Klee s transformation from an idiosyncratic abstract individualist to a metaphysical storyteller to mystical sage Werckmeister argues that this latter image was promoted by a number of influential art critics and dealers acting in cooperation with the artist himself This posture prompted Klee s success first in the war weary modernist art world of 1916 18 and then in the pseudo revolutionary art world of 1919 20 This work is a critical challenge to the myth of Klee s art and to the hagiography of his artistic personality Werckmeister s historical account is sure to be a controversial yet significant contribution to Klee studies one that will change the nature of Klee scholarship for some time to come

The fact that Paul Klee 1879 1940 consistently intertwined the visual and the verbal in his art has long fascinated commentators from Walter Benjamin to Michel Foucault However the questions it prompts have never been satisfactorily answered until now In Paul Klee Annie Bourneuf offers the first full account of the interplay between the visible and the legible in Klee s works from the 1910s and 1920s Bourneuf argues that Klee joined these elements to invite a manner of viewing that would unfold in time a process analogous to reading From his elaborate titles to the small scale he favored to his metaphoric play with materials Klee created forms that hover between the pictorial and the written Through his unique approach he subverted forms of modernist painting that were generally seen to threaten slow contemplative viewing Tracing the fraught relations among seeing reading and imagining in the early twentieth century Bourneuf shows how Klee reconceptualized abstraction at a key moment in its development
