Berggruen Collection Simon De Pury, Musée d'Art et d'Histoire (Geneva), 1988      Paul Klee and His Illness H.

Suter, 2010-02-01 In 1933 Paul Klee's work was branded as Entartete Kunst Degenerate Art by the National Socialists and he was dismissed from his professorial post at the Düsseldorfer Academy of Fine Arts. This led him together with his wife Lily to return to his real home of Bern. Here his avant garde art was not understood and Klee found himself in unasked for isolation. In 1935 Klee started to suffer from a mysterious disease. The symptoms included changes to the skin and problems with the internal organs. In 1940 Paul Klee died but it was only 10 years after his death that the illness was actually given the name scleroderma in a publication about Klee. However the diagnosis remained mere conjecture. Since his adolescence the dermatologist and venereologist Dr Hans Suter has been fascinated by Paul Klee and his art and more than 30 years ago this fascination spurred him to commence research into the illness and its influence on the art of Paul Klee's final years. It was due to Dr Suter's meticulous investigations that Klee's illness could be defined as diffuse systemic sclerosis. In this book the author assembles his findings and describes the rare and complex disease in a clear and comprehensible way. Further he empathetically interprets more than 90 of Klee's late works. The point of view of a dermatologist renders a unique source of information. It provides on one hand new insights into everyday medical practices at the University of Bern in the 1930s which will fascinate doctors and local historians alike. While on the other hand art historians and art lovers will be absorbed by the newly discovered links between Paul Klee's work and his illness.      Exploring Children's Creative Narratives Dorothy

Faulkner, Elizabeth Coates, 2011-04-04 How should we understand children's creativity? This fascinating collection of international research offers fresh perspectives on children's creative processes and the expression of their creative imagination through dramatic play, stories, artwork, dance, music and conversation. Drawing on a range of research evidence from innovative educational initiatives in a wide variety of countries, *Exploring Children's Creative Narratives* develops new theoretical and practical insights that challenge traditional thinking about children's creativity. The chapters written by well respected international contributors offer new conceptual and interpretive frameworks for understanding children's creativity, contest conventional discourses about the origins and nature of creativity, challenge the view that young children's creativity can only be judged in terms of their creative output, explore the significance children themselves attribute to their creative activity, argue the need for a radical reappraisal of the influence of the sociocultural context on children's creative expression, discuss the implications of this research in relation to teacher education and curriculum design. This broad yet coherent compilation of research on creativity in childhood is essential reading for students, researchers and policy makers in early childhood as well as for Early Years professionals with a particular interest in creativity.      **Lost Paradise** Jean

Clair, Montreal Museum of Fine Arts, 1995      **The Blue Rider in the Lenbachhaus, Munich** Armin Zweite, Annegret Hoberg, 1989 This is a collection of work housed in the Lenbachhaus in Munich of the artist's group The Blue Rider which became a symbol of revolution in modern art in the early 20th century. Their preoccupation was with abstraction, the forces

and laws of nature primitive art and the role of colour The work of Vassily Kadinsky Franz Marc and Paul Klee have since become avant garde icons known throughout the world The Lenbachhaus possesses the world s finest collection of works by these artists and this volume brings together some 120 highlights *In Paul Klee's Enchanted Garden* Paul Klee,Michael Baumgartner,Henie-Onstad kunstsenter,Zentrum Paul Klee,2008 For Paul Klee both as an artist and as a teacher nature was an inexhaustible source of inspiration a large part of his oeuvre depicts gardens and parks from reallocations such as the Garden Kingdom of Dessau Worlitz or Hammamet in Tunisia to imaginary sometimes dreamlike and sometimes exotic products of fantasy portraying ominous plant worlds Klee 1879 1940 also paid special attention to plant structure and growth on walks he would often collect flowers evergreens and leaves expertly identifying and storing them in a herbarium With over one hundred and forty color illustrations this publication reveals the multifaceted temperament of Klee s lifelong dialogue with nature His complex approach on the one hand analytically objective and on the other radically subjective is also explored as is his understanding of art as a process of creation similar to nature itself **BOOK JACKET**

**Modern Art on Display** K. Porter Aichele,2016-05-19 Modern Art on Display The Legacies of Six Collectors is structured as a sequence of case studies that pair collectors of modern art with artists they particularly favored Duncan Phillips and Augustus Vincent Tack Albert Barnes and Chaim Soutine Albert Eugene Gallatin and Juan Gris Lillie Bliss and Paul C zanne Etta Cone and Henri Matisse G David Thompson and Paul Klee The case studies are linked by a thematic focus on the integral relationship between the collectors acquired knowledge about the work they amassed and their innovative display models This focus brings a new perspective to the history of collecting and interpreting modern art in America for nearly half a century 1915 1960 By examining the books the collectors themselves read and analyzing archival photographs of their displays the author makes a case for the historical significance of how the collectors presented the art they acquired before their collections were institutionalized The Art of Mechanical Reproduction Tamara Trodd,2015-09-25 The Art of Mechanical Reproduction presents a striking new approach to how traditional art mediums painting sculpture and drawing changed in the twentieth century in response to photography film and other technologies Countering the modernist view that the medium provides advanced art with resistance against technological pressures Tamara Trodd argues that we should view art and its practices as imaginatively responding to the potential that artists glimpsed in mechanical reproduction putting art into dialogue with the commercial cultures of its time The Art of Mechanical Reproduction weaves a rich history of the experimental networks in which artists as diverse as Paul Klee Hans Bellmer Ellsworth Kelly Robert Smithson Gerhard Richter Chris Marker and Tacita Dean have worked and it shows for the first time how extensively technological innovations of the moment have affected their work Original and broad ranging The Art of Mechanical Reproduction challenges some of the most respected and entrenched criticism of the past several decades and allows us to think about these artists anew

**The Artist's Estate** Dr. Loretta Würtenberger,2021-11-24 Andy Warhol bequeathed us the words Death can really make

you look like a star But death per se is not a catalyst for the relevance of an artist What is of crucial importance is the proper management structure for the posthumous preservation and development of an artistic estate The handbook by Loretta W rtenberger presents the possible legal framework appropriate financing models as well as the proper handling of the market museums and academia Her business Fine Art Partners has advised artists and artists estates for many years in their structuring and development of estate concepts as well as in operative questions Based on numerous international examples the author explains the different alternatives for maintaining an artist s estate and makes recommendations on how to ideally handle work archives and mementos following the death of an artist
