Julie Rajan, 2009-03-26 The collection of essays *The Avant garde and the Margin* New Territories of the Modernist Avant garde refigures the critical and historical picture of the modernist avant garde by introducing a variety of less commonly discussed geo artistic sites and dynamics The contributors explore the multifaceted relations established between the avant garde centers France Germany England and others and their counterparts in the cultural periphery Greece India Japan Poland Quebec Romania and the former Yugoslavia as well as the unique artistic and literary dialogues which these encounters engendered The primary concern of the anthology is the set of relations established between the center and the margin the redefinition of which was pivotal for the formulation of the modernist avant garde aesthetic project itself While enriching the kaleidoscopic picture of modernism the essays in this collection also offer new methodological approaches to this polychrome cultural image In this way the collection avoids the pitfalls of both the traditional diffusionist Eurocentric model of the world and the more recent over

relativization of the positions of the margin and the center In their stead the anthology proposes a hermeneutics of encounter that is simultaneously spatial and historical aware of its limits but convinced of its own necessity

Abstract Painting in Canada Roald Nasgaard, Art Gallery of Nova Scotia, 2008 In the tradition of the distinguished Douglas McIntyre art program this lavishly illustrated and superbly printed book is a rich readable history of abstract painting in Canada The story begins in the 1920s with the sometimes eccentric but remarkable work rooted in symbolism and theosophy of pioneers such as Kathleen Munn Bertram Brooker and Lawren Harris Two decades later the Automatistes Canada's first truly independent avant garde art movement burst onto the scene in Montreal After the Second World War the urge to abstraction spread across Canada manifesting itself in significant regional movements Vancouver painters retained a British flavour while in Toronto the Painters Eleven looked south to New York Montreal's Plasticiens launched their own razor edged interpretation of the European tradition of geometric abstraction In the sixties and seventies the Prairies were influenced by Clement Greenberg's post painterly abstraction while Halifax became a hub of conceptual art and concrete painting The book continues through the eighties and nineties during which critics largely denounced painting and concludes in the twenty first century with abstract painting alive and well again in the studios of Canada's young artists A monumental tome containing 200 color reproductions it mines a rich vein of art history
