mexicanos en torno a la historia de México Juan A. Ortega y Medina, Eugenia W. Meyer, 1970 **The Power of the Metaphysical Artifact** Obed Frausto, 2023-02-06 In the nineteenth century French and Mexican intellectuals had a common interest in providing a groundwork for educating better citizens in response to social crises There were political and philosophical controversies regarding science and technology in this environment between spiritualists humanists and positivists scientists Power and knowledge were intertwined in these controversies Another objective of the book is to show that controversies can be seen as a dispute between two cultures between those in favor of science and technology and those in favor of philosophy and the humanities Their continuous arguments articulated a third culture based on an intertwining of power and knowledge This articulation had an implicit dimension in which philosophy science and technology had to interact to enrich the political potential of the human experience of thinking They were able to grasp a mix or a synthesis that conceptualized the power of a metaphysical artifact in which philosophy science and technology belong to the same culture where politics helps invite dialogue between different cultural religious and political perspectives **National Narratives in Mexico** Enrique Florescano, 2006 If history is written by the victors then as the rulers of a nation change so too does the history Mexico has had many distinct periods of history demonstrating clearly that the tale changes with the writer In National Narratives in Mexico Enrique Florescano examines each historical vision of Mexico as it was interpreted in its own time revealing the influences of national or ethnic identity culture and evolving concepts of history and national memory Florescano shows how the image of Mexico today is deeply rooted in ideas of past Mexicos ancient Mexico colonial Mexico revolutionary Mexico and how these ideas can be more fully understood by examining Mexico's past historians An awareness of the historians' cultural perspective helps us to understand which types of evidence would be considered valid in constructing a national narrative These considerations are important in modern Mexican historiography as historians begin to question the validity of Mexico's collective memory Enhanced by more than two hundred drawings photographs and maps National Narratives in Mexico offers a new vision of Mexico's turbulent history *A Companion to Global Historical Thought* Prasenjit Duara, Viren Murthy, Andrew Sartori, 2014-01-21 A COMPANION TO GLOBAL HISTORICAL THOUGHT A Companion to Global Historical Thought provides an overview of the development of historical thinking from the earliest times to the present directly addressing issues of historiography in a globalized context Questions concerning the global dissemination of historical writing and the relationship between historiography and other ways of representing the past have

become important not only in the academic study of history but also in public arenas in many countries. With contributions from leading international scholars, the book considers the problem of the global in the multiplicity of traditions of narrating the past in the global dissemination of modern historical writing and of the global as a concept animating historical imaginations. It explores the different intellectual approaches that have shaped the discipline of history and the challenges posed by modernity and globalization while illustrating the shifts in thinking about time and the emergence of historical thought. Complementing *A Companion to Western Historical Thought*, this book places non-Western perspectives on historiography at the center of discussion, helping scholars and students alike make sense of the discipline at the start of the twenty-first century.

Panorama de la sociología contemporánea José Medina Echavarría, 2008. José Medina Echavarría (1903-1977) es uno de los sociólogos más importantes del exilio español en América Latina. En su extensa y variada obra, así como en su labor académica y como funcionario durante casi 25 años en la CEPAL, reflexionó sobre el gran desafío de las ciencias sociales frente a la aceleración histórica derivada de las guerras mundiales, el progreso material, científico y técnico vertiginoso del siglo XX y la contrastante crisis moral y cultural en Occidente. Al conmemorarse el trigésimo aniversario luctuoso de Medina Echavarría y a casi 70 años del exilio español, el Colegio de México publica nuevamente esta obra de 1940, editada por la Casa de España en México. Esta nueva edición incluye un anexo inédito con textos provenientes de su Cátedra de Sociología en la Universidad Central de Madrid en 1934, además de un amplio estudio introductorio en el que se analiza la trayectoria de Medina Echavarría, se compara su ejercicio de reescritura y se argumentan las buenas razones que existen en la sociología iberoamericana para recuperar el legado de este extraordinario intelectual.

Desde el inicio de la evangelización de lo que ahora se conoce como América Latina, el arte en sus diversas manifestaciones fue un medio vital para mostrar el cristianismo a las culturas originarias. Muy pronto los frailes se percataron de que ese medio para que tuviera respuestas no podía ser unilateral: es decir, solo europeo, sino que tenía que incorporar el universo americano. Primero en sus formas, gustos y colores, después con el surgimiento y crecimiento de las ciudades. A mediados del siglo XVI fue incorporando la conciencia de la existencia de una nueva tierra con hombres diferentes a los de España.
