God's Playground A History of Poland Norman Davies, 2005-02-24 This new edition of Norman Davies's classic study of the history of Poland has been revised and fully updated with two new chapters to bring the story to the end of the twentieth century The writing of Polish history like Poland itself has frequently fallen prey to interested parties Professor Norman Davies adopts a sceptical stance towards all existing interpretations and attempts to bring a strong dose of common sense to his theme He presents the most comprehensive survey in English of this frequently maligned and usually misunderstood country

A Concise History of Poland Jerzy Lukowski, Hubert Zawadzki, 2001-09-20 Poland is a country which sporadically hits the headlines of the Anglo Saxon world It has suffered the dubious distinction of being wiped off the political map in 1795 to be resurrected after the First World War only to suffer apparent annihilation during the Second with reduction to satellite status of the Soviet Union only to emerge in the van of resistance to Soviet domination during the 1980s Yet the history of Poland remains comparatively little known This book offers a brief non specialist introduction to Polish history from medieval times to the present day and is the only short history of Poland available in English It concentrates essentially on political development which particularly for the pre nineteenth century period still remains little known to English readers The book also includes much material on relations with Germany Russia the Ukraine Lithuania and other neighbouring states

Elites and Identities in Post-Soviet Space David Lane, 2013-09-13 The dissolution of the communist system led to the creation of new states and the formation of new concepts of citizenship in the post Soviet states of Central and Eastern Europe The formation of national identity also occurred in the context of the process of increasing economic and political globalisation particularly the widening of the European Union to include the central European post socialist and Baltic States Internationally Russia sought to establish a new identity either as a European or as a Eurasian society and had to accommodate the interests of a wider Russian Diaspora in the near abroad This book addresses how domestic elites regional political and economic influenced the formation of national identities and the ways in which citizenship has been defined A second component considers the external dimensions the ways in which foreign elites influenced either directly or indirectly the concept of identity and the interaction with internal elites The essays consider the role of the European Union in attempting to form a European identity Moreover the growing internationalisation of economies privatisation monetary harmonisation dependence on trade also had effects on the kind of national identity sought by the new nation states as well as the defining by them of the other The collection focuses on the interrelations between social identity state and citizenship formation and the role of elites in defining the content of

concepts in different post communist societies This book was originally published as a special issue of Europe Asia Studies

Gokay,2015-12-22 From the hardening grip of Soviet domination under Brezhnev to the collapse of communism and its aftermath Bulent Gokay provides the essential introduction to Eastern Europe in the last quarter of the twentieth century The Soviet invasion of Czechoslovakia in 1968 spelt the end of reformist communism and the tightening of Soviet control throughout Eastern Europe In spite of this several countries within the Soviet Bloc managed to retain varying degrees of independence over the next two decades Focusing on the struggle towards economic and social modernisation in the region and the competing influences of East and West in a dangerous Cold War Bulent Gokay shows how individual circumstances and diverse national characteristics made a uniform application of the Soviet model impossible and charts the growing resistance to domination and the momentous events which finally toppled Soviet power in the region *Multiculturalism in*
