Police Community Relations:

Police-community Relations Alan Coffey, Edward Eldefonso, Walter Hartinger, 1971 The purpose of this text is to provide a resource for training police officers in the complexity of community and human relations The text recognizes that law enforcement is faced with the need to develop line officers who are capable of not only enforcing the law but also of participating in the resolution of social problems associated with crime The text approaches social problems from the point of view that police are primarily responsible for enforcing law and only indirectly responsible for the resolution of social problems The authors acknowledge the importance of strengthening police community relationships Such relationships have a direct bearing on the character of life in cities and on a community's ability to maintain stability and solve its problems At the same time a police department's ability to deal with crime depends to a large extent upon its relation with citizens Since a community's attitude toward the police is influenced by the actions of individual officers courteous and tolerant behavior by police officers in their contacts with citizens is essential If law enforcement programs ignore the conditions that motivate the behavior of minority groups especially in cities police officers will continue to act in ways that invite hostility anger and violence The text discusses the effect of social problems on law enforcement equal justice for minority groups social change and community tension implications of group behavior for law enforcement the link between attitudes and prejudices and the police and community and human relations References charts and figures *Police-Community Relations: Bridging the Gap* Wayne L. Davis PH.D., 2015-02-16 This book provides an overview of police community relations First this book examines elderly people and some of their concerns To best serve the public the police must understand the concerns of the public Second this book discusses various criminal theories and their limitations Theories are effective for understanding problems and for solving the problems However every theory has a limitation Third this book discusses ethical systems and police department orientations which are used to judge good police officer behavior Fourth this book discusses communication deviance and dealing with disadvantaged individuals Fifth this book discusses hot spots crime prevention through environmental design community policing and community intervention Finally this book discusses how to estimate the implementation of a police community relations program and provides several examples of how to evaluate a program via academic research *Improving Police/community Relations* Robert Wasserman, Michael Paul Gardner, Alana S. Cohen, 1973 An array of techniques procedures and operational guidelines designed to enable police departments to implement effective community relations projects This handbook is one of a series of prescriptive packages intended to provide criminal justice administrators with both background information and operational guidelines in selected program areas This report represents an effort to identify various police operational and organizational practices specifically aimed at the improvement of police community relations Through site visits personal interviews and a survey of the available literature the author became acquainted with various innovative programs aimed at improving police community relations The general strategy

recommended emphasizes the need for stressing improved community relations in all major police activities. It presents operational guidelines in the areas of policy administration, field operations, training, personnel procedures, and conflict management. The author concludes that the most critical elements in determining success in such a program are a strong administrative commitment and good police community relations practices throughout all major police functions.

Police-community Relations Alvin W. Cohn, Emilio Viano, 1976. A collection of 45 articles dealing with the context of police community relations, the police role, tensions and conflicts, police community interaction, and improvement of police community relations. The articles selected for this anthology tend to support the position that police community relations should not be treated administratively within the police department as a separate unit. Instead, it is suggested that every officer be held accountable for relating with citizens. Among the specific topics addressed in this text are definitions of police community relations, the ways in which police respond to the multitude of demands from the community, standards and goals of policing, and the ways in which the community affects police systems. Also examined are the tensions between police and other criminal justice agencies, police corruption, typical police community relations programs, and police productivity and accountability.

A National Survey of Police and Community Relations National Center on Police and Community Relations, 1967. This report looks at police minority group relations with recommendations for future program improvement. Since unrealistic expectations often accompany police community relations programs, such programs can not be considered the solution to society's ill. At best, they can be expected to ameliorate the distrust and fear between antagonistic groups. Public attitudes about police conduct, the handling of citizens' complaints, police field activities, police training, and internal racial discrimination within police agencies are examined as component social interactions and reactions of police community relations.

Police-community Relations Donald F. Norris, 1973. Study area: Richmond, Va. **Evaluation of Police-community Relations Programs** Lee P. Brown, 1970. **Police-community Relations and the Administration of Justice** Pamela Douglass Mayhall, Thomas Barker, Ronald D. Hunter, 1995. Substantive yet accessible, this overview of police community relations focuses on the importance of and strategies for positive interaction in dealing with the many turbulent issues which affect crime control in America today. The book addresses a challenge that all criminal justice practitioners, police, courts, and corrections must confront: the development and maintenance of meaningful relationships with one another and with the citizens they serve. Topics include police community relations, an overview of public relations and community relations, a contrast of community policing, the public and the police, a consortium of communities, relations within the police organization, police role concept in a changing society, coping with the human experience of being a cop, the communication process, police discretion, and community relations, the media link, special populations, and the police community relations in the context of culture, the dilemmas of dissent and political response, conflict management, and community control, a continuum of participation. For police, courts, corrections, and other criminal justice professionals.
