Policing Citizens Authority And Rights:

Policing Citizens P. A. J. Waddington, 1999 This comparative text serves both as an introduction to contemporary police studies and an intervention into current debates concerning police reform and practice **Policing Citizens** Peter A. J. Waddington, 1998 **Policing Citizens** P.A.J. Waddington, 2002-11 This comparative text serves both as an introduction to contemporary police studies and an intervention into current debates concerning police reform and practice **Policing Non-Citizens** Leanne Weber, 2013-09-11 Criminologists are increasingly turning their attention to the many points of intersection between immigration and crime control This book discusses the detection of unlawful non citizens as a distinct form of policing which is impacting on a growing range of agencies and sections of society It constitutes an important contribution not only to the literature on policing but also to the field of border control studies within criminology Drawing on the work of Clifford Shearing Ian Loader and P A J Waddington it offers new theoretical approaches to the study of police powers and practice **Citizenship and Disadvantaged Groups in Chile** Pablo Marshall, 2018-11-27 Citizenship and Disadvantaged Groups in Chile seeks to overcome an existing void in the literature of Latin American studies addressing the impact of Chile's post dictatorial legal framework on its historically and structurally disadvantaged groups concentrating on the various issues and challenges that affect them Within its eleven chapters it explores the changing social and legal status of LGBTI people the political disenfranchisement and the social exclusion that affects imprisoned individuals the harshness of policing on poor and marginalized communities the deprivation of indigenous peoples of meaningful rights the vulnerability that affects workers as a consequence of the existing model of labor relations the disenfranchisement that affects migrants seeking economic opportunities the denial of citizenship to women involved in the prohibition of abortion the unsatisfactory regulation of sex work the prevalence of domestic violence and the absence of adequate means for disadvantaged groups to institutionalize their political representation This book offers a distinctive contribution focusing on a specific country in the Global South that is presently undergoing a process of economic consolidation while facing many of the problems of traditional and unequal Latin American societies **Lethal Force, the Right to Life and the ECHR** Stephen Skinner, 2019-08-22 In its case law on the use of lethal and potentially lethal force the European Court of Human Rights declares a fundamental connection between the right to life in Article 2 of the European Convention on Human Rights and democratic society This book discusses how that connection can be understood by using narrative theory to explore Article 2 law's specificities and its deeper historical social and political significance Focusing on the domestic policing and law enforcement context the book draws on an extensive analysis of case law from 1995 to 2017 It shows how the connection with democratic society in Article 2's substantive and procedural dimensions underlines the right to life's problematic duality as an expression of a basic value demanding a high level of protection and a contextually limited provision allowing states leeway in the use of force Emphasising the need to identify clear standards in the interpretation and application of the right

to life the book argues that Article 2 law's narrative dimensions bring to light its core purposes and values These are to extract meaning from pain and death ground democratic society's foundational distinction between acceptable force and unacceptable violence and indicate democratic society's essential attributes as a restrained responsible and reflective system

The SAGE Handbook of Global Policing Ben Bradford, Beatrice Jauregui, Ian Loader, Jonny Steinberg, 2016-07-14 The SAGE Handbook of Global Policing examines and critically retraces the field of policing studies by posing and exploring a series of fundamental questions to do with the concept and institutions of policing and their relation to social and political life in today's globalized world The volume is structured in the following four parts Part One Lenses Part Two Social and Political Order Part Three Legacies Part Four Problems and Problematics By bringing new lines of vision and new voices to the social analysis of policing and by clearly demonstrating why policing matters the Handbook will be an essential tool for anyone in the field

The Oxford Handbook of Police and Policing Michael Dean Reisig, Robert J. Kane, 2014 The police are perhaps the most visible representation of government They are charged with what has been characterized as an impossible mandate control and prevent crime keep the peace provide public services and do so within the constraints of democratic principles The police are trusted to use deadly force when it is called for and are allowed access to our homes in cases of emergency In fact police departments are one of the few government agencies that can be mobilized by a simple phone call 24 hours a day 7 days a week They are ubiquitous within our society but their actions are often not well understood

Policing in an Age of Austerity Michael Brogden, Graham Ellison, 2013 In the current context of financial retrenchment on public sector budgets public policing in England and Wales today faces the prospect of dramatic change While the question of role and function has been the bedrock of classical sociological theorizing on police this book grounds such theorising in explicating how British policing has arisen through a schismatic process why it is in a present mess and what it should be doing in the future The central themes of this critical text are An analysis of the congeries of roles and functions that our public police in England and Wales currently undertake and how they got there An examination of the effect of arbitrary reduction in police services including a reading of policing politics in an age of austerity A comparative critique of the British Brand of Policing The development of a normative manifesto for the future of British Policing This book will be essential for reading for students researchers and academics alike in criminology police studies and public and social policy

The Politics of the Police Benjamin Bowling, Robert Reiner, James W. E.
