Policing Change, Changing Police Otwin Marenin, 2018-10-24 First published in 1996 In keeping with the other volumes in the Current Issues in Criminal justice series this anthology is a prime example of joining readability and scholarship Editor Otwin Marenin has thoughtfully commissioned and compiled an excellent group of essays on the role of police in changing societies by a very knowledgeable group of scholars Moreover Marenin has added substantially to the collection through his own insightful contributions *Policing and Political Regime Transformation* Steven

Tremaria, 2024-10-10 This book offers a comprehensive study on the dynamics of policing under contexts of political regime transformation in the interplay between democratization and de democratization through a cross case comparative analysis among Venezuela Bosnia and Herzegovina and Ukraine The central concern lies in working out the intertwining between politics and policing by examining the development trajectories of democratic police reforms under scenarios of democratic stagnation backsliding and autocratic consolidation In particular this book analyzes those changes experienced by the police as an institution their powers and the practices for policing society in the framework of the endeavors for politicization militarization and informalization of policing This analysis is addressed from a macro level actor based approach which accounts for the decisive role of ruling political actors and senior police managers as critical players who influence the decisions and patterns of political regime transformation and policing Therefore this book offers a groundbreaking study of the interrelationship among contemporary processes of de democratization and police counter reform from an actor based perspective **Policing Change, Changing Police** Otwin Marenin, **Policing Across the World** R.I.

Mawby, 2013-04-15 This wide ranging text provides an overview of policing across different societies and considers the issues facing the US and British police in a wider international context The book is designed as a coherent introduction to the police

Civilizing Security Ian Loader, Neil Walker, 2007-04-19 Security has become a defining feature of contemporary public discourse permeating the so called war on terror problems of everyday crime and disorder the reconstruction of weak or failed states and the dramatic renaissance of the private security industry But what does it mean for individuals to be secure and what is the relationship between security and the practices of the modern state In this timely and important book Ian Loader and Neil Walker outline and defend the view that security remains a valuable public good They argue that the state is indispensable to the task of fostering and sustaining liveable political communities in the contemporary world and thus pivotal to the project of civilizing security This is a major contribution by two leading scholars in the field and will be of interest to anyone wishing to deepen their understanding of one the most significant and pressing issues of our times

Democratizing the Police Abroad David H. Bayley, 2001 *Policing Developing Democracies* Mercedes S. Hinton, Tim Newburn, 2008-09-25 Pt 1 Europe pt 2 Asia pt 3 South America pt 4 Africa **Policing Post-Conflict Cities** Alice

Hills, 2013-07-04 How and why does order emerge after conflict What does it mean in the context of the twenty first century

post colonial city From Kabul Kigali and Kinshasa to Baghdad and Basra people abandoned by the state make their own rules With security increasingly ghettoised survival becomes a matter of manipulation and hustling In this book Alice Hills discusses the interface between order and security While analysts and donors emphasise security Hills argues that order is much more meaningful for people s lives Focusing on the police as both providers of order and a measure of its success the book shows that order depends more on what has gone before than on reconstruction efforts and that tension is inevitable as donors attempt to reform brutal local policing Policing Post Conflict Cities provides a powerful critique of the failure of liberal orthodoxy to understand the meaning of order

Challenges of Policing Democracies Dilip Das, Marenin Otwin, 2012-10-12 In this text the editors analyze the diverse situations that police forces operate under and the challenges that they face in different kinds of democracies This cross cultural comparison of various systems highlights the universal observation that police are an anomaly in a democracy and explores how various influences for example large scale social violence a zeal for crime fighting and vulnerability to temptation often find police incapable of behaving in a democratic manner Challenges of Policing Democracies goes beyond just showing the similarities and differences of the policing challenges democratic societies face it also examines the responses and remedies adopted by police in various countries at different levels of democratic achievement and how every society struggles with the challenges of preserving democratic values without sacrificing the effectiveness of policing
