Policy For Land Law And Ethics

**Lynton Keith Caldwell, Kristin Sharon
Shrader-Frechette**

Policy For Land Law And Ethics:

Policy for Land Lynton Keith Caldwell, Kristin Sharon Shrader-Frechette, 1993 In this book two leading scholars a political scientist and an ethical philosopher outline a new national policy for land use and provide the legal political and ethical justifications for their proposed policies **Land Policies in India** Sony Pellissery, Benjamin Davy, Harvey M.

Jacobs, 2017-08-10 This book examines how property rights are linked to socio economic progress and development It also provides a theoretical analysis an economic social analysis of planning case studies of the implementation of planning and regulation instruments practices related to law and planning analysis of case laws in a particular segment The interconnection between property law and planning is a running theme throughout the book The land question has been central to South Asian development on two counts First although the majority of the population relies on agriculture and allied activities their livelihood landholding is highly skewed second urban planning is facing unprecedented challenges due to burgeoning property values as well as gush of migrants to cities seeking livelihood The response to these challenges in the form of laws and policies has been very large compared to the academic attention that is received However the measures emerging from planning and policies have had limited impact on the extent of the problems This paradox calls for serious introspection and academic engagement that this book undertakes The book further deals with the emerging discipline of planning law which determines property value and use and argues that regulatory issues of public policy determine the property valuation and property pricing Great Debates in Land Law David Cowan, Lorna Fox O'Mahony, Neil

Cobb, 2023-04-20 While there are plenty of land law textbooks on the market there is in general an absence of critical texts designed for law students to deepen their understanding of the subject Great Debates in Land Law provides students with the contextual and critical aspects of this exciting topic Each chapter introduces topics for debate such as Is tenancy a property or a personal right and goes on to include features such as boxed discursive notes from the authors important cases and suggestions for further reading The Great Debates series provides engaging and accessible analysis of the more advanced legal concepts For books in the major taught subjects such as land law the series is designed for use by ambitious students alongside a main course textbook For books addressing subjects that are less often taught such as family law the series provides a clear and critical exposition of the key areas of debate By focussing on particular questions and tensions underlying a subject Great Debates titles encourage students to think critically analyse a topic and gain additional insights These skills and the discursive nature of the series with an emphasis on contentious topics are also useful for students when preparing their dissertations **The Land We Share** Eric T. Freyfogle, 2003-08-08 Is private ownership an inviolate right that individuals can wield as they see fit Or is it better understood in more collective terms as an institution that communities reshape over time to promote evolving goals What should it mean to be a private landowner in an age of sprawling growth and declining biological diversity These provocative questions lie at the heart of this perceptive and wide ranging new book

by legal scholar and conservationist Eric Freyfogle Bringing together insights from history law philosophy and ecology Freyfogle undertakes a fascinating inquiry into the ownership of nature leading us behind publicized and contentious disputes over open space regulation wetlands protection and wildlife habitat to reveal the foundations of and changing ideas about private ownership in America Drawing upon ideas from Thomas Jefferson Henry George and Aldo Leopold and interweaving engaging accounts of actual disputes over land use issues Freyfogle develops a powerful vision of what private ownership in America could mean an ownership system fair to owners and taxpayers alike that fosters healthy land and healthy economies

Environmental Ethics and Forestry Peter C. List, 2000 During the past twenty five years North American forestry has received increasingly vigorous scrutiny Critics including the environmentalists environmental scientists representatives of public interest groups and many individual citizens have expressed concerns about forestry s basic assumptions and methods as well as its practical outcomes Criticism has centered on such issues as the exploitation of forests for timber production the reduction and fragmentation of old growth habitats the destruction of biodiversity the degradation of grasslands through grazing practices lack of government attention to recreation facilities silvicultural methods like clearcutting and the use of herbicides and pesticides the exportation of industrial forestry techniques to other parts of the world and the use of public monies to provide services for private resource companies as in the creation of logging roads This rising tide of public scrutiny has led many foresters to suspect that their contract with society to manage forests using their best professional judgment had been undermined Some of these professionals as well as some of their critics have begun to reexamine their old beliefs and to look for new ways of practicing forestry Part of this reflective process has entailed new directions in environmental ethics and environmental philosophy This reader brings together some of the new thinking in this area Here students of the applied environmental and natural resource sciences as well as the interested general reader will discover a rich sampling of writings in environmental ethics and philosophy as they apply to forestry Readings focus on basic ethical systems in forestry and forest management philosophical issues in forestry ethics codes of ethics in forestry and related natural resource sciences such as fisheries science and wildlife biology Aldo Leopold s land ethic in forestry ethical advocacy and whistleblowing in government resource agencies the ethics of new forestry ecoforestry and public debate in forestry as well as ethical issues in global forestry such as the responsibilities of forest corporations environmentalists and individual wood consumers This volume contains materials from the founders of forestry ethics such as Bernhard Fernow Gifford Pinchot John Muir and Aldo Leopold from such organizations as the Society of American Foresters the Wildlife Society the American Fisheries Society Forest Service Employees for Environmental Ethics and the Ecoforesters group in addition to writings by a variety of well known environmental philosophers and foresters including Holmes Rolston Robin Attfield Lawrence Johnson Michael McDonald Paul Wood James E Coufal Raymond Craig Kristin Shrader Frechette Jeff DeBonis Jim L Bowyer Alasdair Gunn Goug Gaigle Alan G McQuillan Stephanie Kaza Alan Dregson Duncan Taylor and

Kathleen Dean Moore Author note Peter C List is Professor of Philosophy at Oregon State University where he teaches courses on environmental ethics ethical issues in the natural resource sciences and sustainable forestry He is the author of articles on Aldo Leopold s land ethic and co author of several articles on public attitudes about federal forests and forest management published in the Journal of Forestry and Society and Natural Resources Philosophy and the Natural Environment Robin Attfield,Andrew Belsey,1994-09-30 Leading international environmental philosophers further the debate about the environment and the metaphysical ethical social and international implications Defending Illusions Allan K. Fitzsimmons,1999 Fitzsimmons examines the science philosophy and law of ecosystems management and shows how efforts to make federal protection of ecosystems the centerpiece of national environmental policy are driven by religious veneration of Mother Earth wrapped in a veil of weak science **A Philosopher Looks at the Natural World** Daniel C. Fouke,2021-08-10 This book interweaves the author s personal story and observations of nature with scientific research and philosophical reflection It tells the story of nearly three decades of labor to ecologically restore twenty one acres of ruined land near Dayton Ohio This story and what the author has observed motivate reflection on the human relationship to soil the inner lives of animals the intelligence of plants and human psychology The book advances the case for the intelligence and kinship of all living things an ethic of respect for life and the need to radically rethink how human societies live on Earth Canadian Issues in Environmental Ethics Wesley Cragg,Allan Greenbaum,Alex Wellington,1997-06-10 Is it possible to design a forest policy that satisfies ethical and environmental concerns and is acceptable to business labour and First Nations representatives What is the best path through the tangle of ethical issues surrounding the collapse of the east coast fishery What sort of obligations does a rich nation such as Canada have to satisfy the claims of global environmental justice These are the sorts of issues in applied ethics that are tackled in this collection of essays the vast majority of which have been written especially for this volume It is the first Canadian collection of its kind The book is divided in to sections detailing with such topics as the environment and the economy ethical issues relating to non human animals issues of gender and issues relating to native peoples Most of the authors are philosophers though specialists in geography geology and the social sciences are also among the contributors Frequent reference is made to theoretical ethical concerns but the focus throughout is on applied ethics and a variety of case studies are included Examples include essays on animal rights and the case of native hunters surface mining in Northern Ontario the Quebec arctic and fishing communities in the Maritimes Comparisons are frequently drawn to policies and ethical questions arising in other countries most prominently the United States **Guide to U.S. Environmental Policy** Sally K. Fairfax,Edmund Russell,2014-08-14 Guide to U S Environmental Policy provides the analytical connections showing readers how issues and actions are translated into public policies and persistent institutions for resolving or managing environmental conflict in the U S The guide highlights a complex decision making cycle that requires the cooperation of government business and an informed citizenry to achieve a comprehensive

approach to environmental protection The book s topical operational and relational essays address development of U S environmental policies the federal agencies and public and private organizations that frame and administer environmental policies and the challenges of balancing conservation and preservation against economic development the ongoing debates related to turning environmental concerns into environmental management and the role of the U S in international organizations that facilitate global environmental governance Key Features 30 essays by leading conservationists and scholars in the field investigate the fundamental political social and economic processes and forces driving policy decisions about the protection and future of the environment Essential themes traced through the chapters include natural resource allocation and preservation human health rights of indigenous peoples benefits of recycling economic and other policy areas impacted by responses to green concerns international cooperation and immediate and long term costs associated with environmental policy The essays explore the impact made by key environmental policymakers presidents and politicians as well as the topical issues that have influenced U S environmental public policy from the colonial period to the present day A summary of regulatory agencies for environmental policy a selected bibliography and a thorough index are included This must have reference for political science and public policy students who seek to understand the forces that U S environmental policy is suitable for academic public high school government and professional libraries
