Inclusive Education in African Contexts

Nareadi Phasha,Dikeledi Mahlo,George J. Sefa Dei,2017-04-13 How do we articulate the possibilities limitations and challenges of inclusive schooling and education in African contexts This book insists that inclusive education cannot be taken for granted Inclusion is neither a natural nor a given educational practice It must be struggled for Bringing a critical perspective to inclusive schooling and education is imperative This book adds to current educational debates with an African lens It engages inclusive education from multiple lenses of curriculum content classroom pedagogy and instruction representation culture environment and the socio organization life of schools the pursuit of equity and social justice and the search for educational relevance It is opined that Africa cannot be left behind in rethinking educational inclusion in ways that evoke critical questions of power equity and social difference The question of learner's identity in terms of class gender sexuality disability language ethnicity and race are equally consequential for African schooling and education When inclusion is understood as wholeness of education then how schooling and education engage the complete learner her his body mind soul and spirit as well as the use of local community and Indigenous knowledges in teaching and learning become relevant Inclusion stands the risk of liberal educational agendas that simply tinker or toy with schooling and education and hardly embrace the challenge of educational change What we need is a fundamental structural change that ensures schooling and education embraces difference while grappling with the teaching of Indigeneity decolonization and resistance

Handbook of Research on Inclusive and Accessible Education Maguvhe, Mbulaheni Obert,Mpya, Nwacoye

Gladness,Sadiki, Marubini Christinah,2024-02-16 In the vast expanse of education a pervasive issue remains in the marginalization and lack of visibility of individuals with disabilities Despite a strong desire for inclusivity recent research suggests that fewer than 5% of children with disabilities in 51 countries across sub Saharan Africa and South Asia are enrolled in primary school This exclusion is not solely in enrollment numbers even those who manage to attend face learning environments ill equipped to adapt to their needs leading to further isolation Girls with disabilities in particular endure heightened vulnerability to abuse reflecting a systemic failure to provide an environment that fosters equality dignity and respect for all The Handbook of Research on Inclusive and Accessible Education emerges as an inspiration for change providing a profound solution to the persistent issue of exclusion The book encapsulates a collective effort to reimagine education It advocates for a paradigm shift moving away from the confinement of special schools and towards inclusive

mainstream settings By addressing controversies sharing successes and outlining prospects the book serves as a comprehensive guide for special school governing bodies curriculum advisors university lecturers and all stakeholders committed to reshaping education Teaching and Supporting Children with Special Educational Needs and Disabilities in Primary Schools Jonathan Glazzard, Jane Stokoe, Alison Hughes, Annette Netherwood, Lesley Neve, 2015-03-10 If you are a primary trainee or are training to support children in primary schools this is your guide to working with children with Special Educational Needs and Disabilities SEND We begin by exploring what is meant by SEND in primary schools and go on to cover all you need to know about your statutory responsibilities in school Current legislation and the Code of Conduct are covered to give you lots of information about the content you will be working in The book then examines the range of needs you will encounter in primary schools giving you details information and practical advice This second edition has been fully restructured and updated to include a new section on the key theory relating to SEND Exploring theories and theorist that you will need to know about to fully understand how to support children Also new for this edition is a chapter focusing on the role of the SENCO in the primary school Finally the book includes more practical support to help you in the classroom Checklists to help you to work comprehensively and information about useful resources and outside agencies *Policy, Discourse and Rhetoric* Marie Lall, 2012-09-11 This is not yet another book on New Labour and neoliberalism but the only book which uses policy case study evidence to show the rhetorical nature of the commitment New Labour appeared to have been making to education Unlike other books on that era this one aims to review New Labour s time in government through specific policy texts This book reviews some of the major policy shifts in the education sector analysing selected case study policies in order to articulate dominant discourses in recent policy making which have helped establish a particular hegemony The book s originality lies in its policy analysis and case study base whereby key policy texts across different sectors are dissected using the policy cycle framework allowing for an in depth analysis of the policy discourse as well as a discussion on how the neoliberal agenda was reflected and or promoted Education is often only perceived as limited to policies relating to schools and higher education However the book seeks to demonstrate that education as a sector is a much broader field and therefore the areas covered include key policies in citizenship and youth work widening participation in higher education the place of inclusive education in the curriculum the undergraduate medical curriculum and the effect of the Cox review on creativity In effect the broad selection of sectors demonstrates that New Labour s education policies were not only detrimental in traditional education settings but also affected areas such as medicine and the media which are of importance to those who no longer are affected by what happens in institutions of learning and teaching The book is consequently relevant for a much wider audience beyond the education community *Key Issues in Special Educational Needs, Disability and Inclusion* Alan Hodgkinson, 2023-12-06 This fourth edition has been revised throughout to continue to support students in their learning of special educational needs and disability This essential book provides students with a

critical and up to date view of the sector through key issues and debates to deepen understanding around inclusion New to this edition Revised further reading with videos and podcasts to support learning and research Links to the new Green Paper latest Code of Practice and legislation Extensive updates and revisions to all chapters New case studies reader reflections taking it further and student activities Alan Hodgkinson Professor in the Centre for Cultural and Disability Studies at Liverpool Hope University **Teaching Primary Special Educational Needs** Jonathan Glazzard, Jane Stokoe, Alison Hughes, Annette Netherwood, Lesley Neve, 2010-05-28 Today there is increased emphasis on the coverage of special educational needs in initial teacher training This comprehensive introduction begins by looking at inclusion policy and how barriers to achievement can be removed The SEN Code of Conduct is explained and detailed guidance on Individual Education Plans IEPs is included The book then goes on to give practical advice on the teaching of children with special educational needs in reading speech and language the autistic spectrum and behavioural social and emotional difficulties Finally the book considers the wider context looking at partnerships with parents carers and professionals in other agencies
