Communicating Environmentally Sustainable Transport The Role of Soft Measures OECD,2004-06-10 Achieving environmentally sustainable transport EST will require widespread acceptance of the need for EST and a mix of measures designed to overcome the barriers to EST This proceedings examines the measures needed **OECD Guidelines towards Environmentally Sustainable Transport** OECD,2002-10-24 This publication presents and explains the OECD Guidelines towards Environmentally Sustainable Transport which have been developed to help governments enable economic development and individual welfare without causing undue health and environmental impacts and depletion of finite resources **ENVIRONMENTALLY Sustainable Transport (EST)** ,2001 **Sustainable Transport** Rodney Tolley,2003-09-10 With a wide range of contributions from America Australia Europe as well as the UK Creating Sustainable Transport sums up many of the lessons learned and how they can be applied in improved planning Non motorized transport planning depends on combining improvements to infrastructure with education The book examines both national strategies and local initiatives in cities around the world including such topics as changes to existing road infrastructure and the integration of cycling and walking with public transport The contributors consider topics such as developing healthier travel habits and ways of promoting cycling and walking as alternatives to the car OECD Environmental Strategy 2004 Review of Progress OECD,2004-04-20 This report assesses the progress that OECD countries have made in implementing objectives set out in an Environmentl Strategy adopted in 2001 as well as in applying the 71 national actions they agreed as part of that Strategy *Advances in Mobility-as-a-Service Systems* Eftihia G. Nathanail,Giannis Adamos,Ioannis Karakikes,2020-11-03

This book gathers together innovative research and practical findings relating to urban mobility transformation. It is especially intended to provide academicians, researchers, practitioners and decision makers with effective strategies and techniques that can support urban mobility in a sustainable way. The chapters which report on contributions presented at the 5th Conference on Sustainable Urban Mobility held virtually on June 17-19, 2020 from Greece cover the thematic areas of social networks and traveler behavior, applications of technologies in transportation and big data analytics, transport infrastructure and traffic management and transportation modeling and impact assessment. Special attention is given to public transport and demand responsive systems, electromobility, micromobility and automated vehicles. The book addresses the challenges of the near future, highlighting the importance of knowledge transfer and it is intended to foster communication among universities, industries and public administration.
