Policymaking, Politics, and Urban Governance in Chihuahua Victoria Elizabeth Rodríguez, Peter M. Ward, 1992

Colonias and Public Policy in Texas and Mexico Peter M. Ward, 2010-01-01 Today in Texas over 1500 colonias in the counties along the Mexican border are home to some 400 000 people Often lacking basic services such as electricity water and sewerage fire protection policing schools and health care these irregular subdivisions offer the only low cost housing available to the mostly Hispanic working poor This book presents the results of a major study of colonias in three transborder metropolitan areas and uncovers the reasons why colonias are spreading so rapidly Peter Ward compares Texas colonias with their Mexican counterparts many of which have developed into fully integrated working class urban communities He describes how Mexican governments have worked with colonia residents to make physical improvements and upgrade services a model that Texas policymakers can learn from Ward asserts Finally he concludes with a hard hitting checklist of public policy initiatives that need to be considered as colonia housing policy enters its second decade in Texas

Decentralization In Mexico Victoria Rodríguez, 2018-05-04 This book assesses the impact of decentralization on Mexico's intergovernmental relations and examines the constraints upon the devolution of political power from the center to the lower levels of government It also discusses the distribution of power and authority to governments of opposition parties within the context of a more open political space Victoria Rodríguez uncovers a new paradox in the Mexican political system retaining power by giving it away She argues that since the de la Madrid presidency 1982-1988 the Mexican government has embarked upon a major effort of political and administrative decentralization as a means to increase its hold on power That effort continued under Salinas but paradoxically led to further centralization However since Zedillo assumed the presidency it has become increasingly clear that the survival of the ruling party and indeed the viability of his own government require a genuine de facto reduction of centralism

Dismantling the Mexican State? Rob Aitken, Nikki Craske, David E. Stansfield, 2016-07-27 In assessing Carlos Salinas' socio-economic reforms the authors question the extent to which the Mexican state has been radically transformed and possibly dismantled The authors show that the changes which have occurred are uneven limited and reversible Despite the aura of reform it is the degree of continuity which is the most noticeable feature In many respects the Mexican State remains highly authoritarian

Comparative Federalism in the Devolution Era Neil Colman McCabe, 2002-01-01 Comparative Federalism in the Devolution Era offers political scientists and legal scholars a new perspective on the diverse nature and exercise of postmodern federalism

Mexico's New Politics David A. Shirk, 2005 Tracing the key themes and dynamics of a century of political development in Mexico David Shirk explores the evolution of the party that ultimately became the vehicle for Fox's success

Contemporary Mexican Politics Emily Edmonds-Poli, David A. Shirk, 2020-03-10 This comprehensive and engaging text explores contemporary Mexico's

political economic and social development and examines the most important policy issues facing the country today Readers will find this widely praised book continues to be the most current and accessible work available on Mexico's politics and policy

Women's Participation In Mexican Political Life Victoria Rodriguez, 2019-03-13 To date the mainstream literature on Mexican politics has said little about women even though their participation as formal political actors has increased dramatically in the past fifteen years Somewhat surprisingly the political participation of women although well documented in other Latin American countries has been neglected in the case

Governance on the Ground Patricia Louise McCarney, Richard E. Stren, 2003-09-15 Governance on the Ground describes people at a local level working through municipal institutions to take more responsibility for their own lives and environment This study reports what social scientists in eight local networks found when they chose their own subjects for a worldwide comparative study of institutional reform at the local level Governance on the Ground is the culminating product of the Global Urban Research Initiative a major 10 year research effort that created a worldwide network of some 400 social scientists The topics these scholars cover include fiscal innovation infrastructure projects social development housing harbor development and political party participation Material comes from Chile Colombia Mexico Brazil Sudan Zimbabwe South Africa Lebanon Israel Egypt Bangladesh India Vietnam Indonesia Thailand and the Philippines All chapters present governance at a local level in a period characterized by decentralization and democratization when many governments were improving local accountability and transparency and people were actively participating in public forums especially through institutions of civil society Many chapters show the close connection between social science and actual policy formation and implementation in the developing world
