The Paradox of Ukrainian Lviv Tarik Cyril Amar, 2015-12-15 The Paradox of Ukrainian Lviv reveals the local and transnational forces behind the twentieth century transformation of Lviv into a Soviet and Ukrainian urban center Lviv s twentieth century history was marked by violence population changes and fundamental transformation ethnically linguistically and in terms of its residents self perception Against this background Tarik Cyril Amar explains a striking paradox Soviet rule which came to Lviv in ruthless Stalinist shape and lasted for half a century left behind the most Ukrainian version of the city in history In reconstructing this dramatically profound change Amar illuminates the historical background in present day identities and tensions within Ukraine

Management, Organizations, and Paradoxes Malgorzata Rozkwitalska-Welenc, Agnieszka Zakrzewska-Bielawska, Anna Maria Lis, 2025-06-27 Paradoxical tensions are persistently inevitable in today s complex organizational world Therefore managers should perceive them as a lens through which they see organizations and work through them Reconciling paradoxes requires understanding their nature and appraising them It also involves novelty and creativity in implemented tactics Thus to help managers navigate dualities and contradictions in their organizations Management Organizations and Paradoxes presents a comprehensive overview of implementing the paradox theory from a distinct organizational standpoint in the Central and Eastern European CEE context Beyond theoretical foundations it integrates recent research findings and practical insights providing rich knowledge for managing conflicting demands across diverse organizational dimensions In addition it unlocks new insights that can enrich academic discourse and guide practitioners in embracing a paradox mindset It develops less explored areas such as paradox regarding sustainability in clusters or digital and energy transition It also explores paradox in human resource management workplace learning diversity equity and inclusion policy It tests whether paradoxes have regional variation and provides insight from managerial practices in CEE The authors prove that organizations embracing paradox can expand the scope of their opportunities and thrive This monograph can serve as a scholarly guide for managers academics and Ph D students encouraging them to analyze and manage organizations from a paradox angle

Building Democracy and Civil Society East of the Elbe Sven Eliaeson, 2006-04-18 This book explores the idea of civil society and how it is being implemented in Eastern Europe The implosion of the Russian empire fifteen years ago and the new wave of democratization opened a new field of inquiry The wide ranging debate on the transition became focused on a conceptual battle the question of how to define civil society Because totalitarian systems shun self organization real existing civil society barely existed East of the Elbe and the emergence of civil society took unusually complex and puzzling forms which varied with national culture and reflected the

deep historical past of these societies This insightful text relates the concept of civil society and developments in Eastern Europe to wider sociological theories and makes international comparisons where appropriate It discusses particular aspects of civil society and examines the difficulties of establishing civil society It concludes by assessing the problems and prospects for civil society in Eastern Europe going forward *Engendering Slavic Literatures* Pamela Chester, Sibelan Elizabeth S. Forrester, 1996 *Engendering Slavic Literatures* breaks new ground in its investigation of gender and feminist issues in Croatian Polish Russian Serbian and Ukrainian literary texts by both female and male writers Drawing on psychoanalytic approaches film theory and lesbian and gender theory the authors interrogate the received notions of Western gender studies to see which can be usefully applied to nineteenth and twentieth century Slavic literary works Motherhood and the relationships of mothers and daughters the myths of selfhood that shape the autobiographies of Nadezhda Mandelstam Marina Tsvetaeva Lidia Ginzburg and Lev Tolstoy Polish Catholicism and sexuality portrayals of landscape in verbal and visual art and women writers transgressive ventures into male bastions such as the love lyric and prose fiction are among the themes of this important and innovative volume **The East European Economy in Context** David Turnock, 2003-09-02 Since 1989 the former communist countries of Eastern Europe have witnessed a profound and dramatic upheaval The economic coherence of this region formerly maintained through the adoption of the Soviet system of government has fractured In *The East European Economy in Context* Communism and Transition David Turnock examines the transition from communist to free market economies both within and between the states of Eastern Europe As well as containing an informative survey of the impact of communism *The East European Economy in Context* provides Political profiles of individual countries A clear study of the contrasts between northern and balkan groups Summaries of regional variations in the transition process An exploration of the new state structures and resources Discussion of political stability inter ethnic tensions and progress in economic change Limits to Democratic Constitutionalism in Central and Eastern Europe Bogusia Puchalska, 2016-05-06 In this book Bogusia Puchalska develops an original theory of democratic constitutionalism and uses it to support the argument that constitution making and law making in constitutional moments should be politically and not just constitutionally legitimate In doing so she expertly assesses the potential implications of the prospects of democratic consolidation and constitutionalism in Poland after 1989 and asks whether it is likely to be applicable to other transition countries such as Hungary Czech Republic and Slovakia This original and informative book should be read by all curious to understand how the democratic learning and the foundations of grass root constitutionalism might have been damaged in post communist countries Poland George Sanford, 2012-12-06 Poland pioneered the collapse of communism in Eastern Europe Domestic reformism and the negotiated abdication of ruling elites in 1989 have structured the country's politics in the 1990s But the division between the communist and Solidarity camps continues to cause problems for a potential reform coalition aiming to complete modernisation through the restructuring required for EU membership Secular Catholic and

rural urban conflicts and well as the growing regional split between the north west and south east have fragmented political life and the party system Nevertheless Poland has made remarkable steps in the consolidation of democracy and the development of her political system whilst maintaining social stability she is also successfully transcending her historical security dilemma of open western and eastern frontiers and stronger aggressive neighbours by embedding herself in Europe through membership of NATO and the EU Poland is overcoming her historical problems **The Origins of**

Anti-Authoritarianism Nina Witoszek, 2018-10-31 This book discusses the ongoing revolution of dignity in human history as the work of humanist outliers small groups and individuals dedicated to compassionate social emancipation It argues that anti authoritarian revolutions like 1989 s Autumn of the Nations succeeded in large part due to cultural and political innovations springing from such small groups The author explores the often ingenious ways in which these maladapted and liminal outliers forged a cooperative and dialogic mindset among previously resentful and divided communities Their strategies warrant closer scrutiny in the context of the ongoing 21st century revolution of dignity and efforts to re unite an ever more troubled and divided world The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license
