Political Constructions Defoe Richardson And Sterne In Relation To Hobbes Hume And Burke:

Political Constructions Carol Kay, 2019-05-15 Focussing on three major eighteenth century English novelists Carol Kay explores the connections between institutional politics political philosophy and fiction Drawing from Hobbes s Leviathan a political problematic a complex of interconnected topics Kay offers an alternative to current critical theories that overlook the importance of political institutions in literary analysis She considers Hobbes s though a key to what has been called the growth of political stability in England during this period a consolidation of national authority which was brutal in some respects and a matter of intense controversy *Political Constructions* shows how the fictional creations of Defoe Richardson and Sterne challenge but ultimately support Hobbes s diagnosis of a fundamental human ignorance and competition which require the political solution of consent to authority Although they testified to the potential for social conflict Kay concludes the works of novelists and philosophers helped make England the prototype of the settled state the country that did not have a modern revolution

Making Gender, Culture, and the Self in the Fiction of Samuel Richardson Bonnie Latimer, 2016-05-13 Proposing that Samuel Richardson s novels were crucial for the construction of female individuality in the mid eighteenth century Bonnie Latimer shows that Richardson s heroines are uniquely conceived as individuals who embody the agency and self determination implied by that term In addition to placing Richardson within the context of his own culture recouping for contemporary readers the influence of Grandison on later writers including Maria Edgeworth Sarah Scott and Mary Wollstonecraft is central to her study Latimer argues that Grandison has been unfairly marginalised in favor of *Clarissa* and *Pamela* and suggests that a rigorous rereading of the novel not only provides a basis for reassessing significant aspects of Richardson s fictional oeuvre but also has implications for fresh thinking about the eighteenth century novel Latimer s study is not a specialist study of Grandison but rather a reconsideration of Richardson s novelistic canon that places Grandison at its centre as Richardson s final word on his re envisioning of the gendered self

Laurence Sterne's A Sentimental Journey W. B. Gerard, M-C. Newbould, 2021-03-12 Laurence Sterne s *A Sentimental*

Journey through France and Italy continues to be as widely read and admired as upon its first appearance Deemed more accessible than Sterne's *Life and Opinions of Tristram Shandy Gentleman* and often assigned as a college text *A Sentimental Journey* has received its share of critical attention but unlike *Tristram Shandy* to date it has not been the subject of a dedicated anthology of critical essays This volume fills that gap with fresh perspectives on Sterne's novel that will appeal to students and critics alike Together with an introduction that situates each essay within *A Sentimental Journey's* reception history and a tailpiece detailing the culmination of Sterne's career and his death this volume presents a cohesive approach to this significant text that is simultaneously grounded and revelatory

The Fate of Eloquence in the Age of Hume Adam Potkay, 2018-09-05 This engaging and insightful book explores the fate of eloquence in a period during which it both denoted a living oratorical art and served as a major factor in political thought Seeing Hume's philosophy as a key to the literature of the mid eighteenth century Adam Potkay compares the status of eloquence in Hume's *Essays* and *Natural History of Religion* to its status in novels by Sterne poems by Pope and Gray and Macpherson's *Poems of Ossian* Potkay explains the sense of urgency that the concept of eloquence evoked among eighteenth century British readers for whom it recalled Demosthenes exhorting Athenian citizens to oppose tyranny Revived by Hume and many other writers the concept of eloquence resonated deeply for an audience who perceived its own political community as being in danger of disintegration Potkay also shows how beginning in the realm of literature the fashion of polite style began to eclipse that of political eloquence An ethos suitable both to the family circle and to a public sphere that included women politeness entailed a sublimation of passions a feminine modesty as opposed to masculine display and a style that sought rather to placate or stabilize than to influence the course of events For Potkay the tension between the ideals of ancient eloquence and of modern politeness defined literary and political discourses alike between 1726 and 1770 although politeness eventually gained ascendancy eloquence was never silenced

The Conversational Circle Betty Schellenberg, 2021-10-21 *The Conversational Circle* offers a model for exploring a range of novels that experiment with narrative patterns It makes a compelling case that teleological approaches to novel history that privilege the conflict between the individual and society are quite simply ahistorical Twentieth century historians of the early novel most prominently Ian Watt Mikhail Bakhtin and Terry Castle have canonized fictions that portray the individual in sustained tension with the social environment Such fictions privilege a strongly linear structure Recent reexaminations of the canon however have revealed a number of early novels that do not fit this mold Betty Schellenberg identifies another kind of plot one that focuses on the social group the conversational circle as a model that can affirm traditional values but just as often promotes an alternative sense of community Schellenberg selects a group of mid eighteenth century novels that experiment with this alternative plot structure embodied by the social circle Both satirical and sentimental canonical and non canonical these novels demonstrate a concern that individualistic desire threatened to destabilize society Writing that reflects a circular structure emphasizes conversation and consensus over individualism and

conquest As a discourse that highlights negotiation and harmony conversation privileges the social group over the individual These fictions of the conversation circle include lesser known works by canonical authors Henry Fielding's *Amelia* and Richard's *Sir Charles Grandison* as well as his sequel to *Pamela* long neglected novels by women Sarah Fielding's *David Simple* and its sequel *Volume the Last* and Sarah Scott's *Millenium Hall* and Tobias Smollet's last novel *Humphrey Clinker* Because they do not fit the linear model such works have long been dismissed as ideologically flawed and irrelevant

Revising Women Paula R. Backscheider, 2002-10-21 A collection of essays from feminist critics each of which explores the history of the English novel literature's place in cultural debate and women's studies They begin with the fictions of the late 17th century and end with Maria Edgeworth and Jane Austen *Clarissa, or the History of A Young Lady* Samuel Richardson, 2004-02-05 Pressured by her unscrupulous family to marry a wealthy man she detests the young *Clarissa Harlowe* is tricked into fleeing with the witty and debonair Robert Lovelace and places herself under his protection Lovelace however proves himself to be an untrustworthy rake whose vague promises of marriage are accompanied by unwelcome and increasingly brutal sexual advances And yet *Clarissa* finds his charm alluring her scrupulous sense of virtue tinged with unconfessed desire Told through a complex series of interweaving letters *Clarissa* is a richly ambiguous study of a fatally attracted couple and a work of astonishing power and immediacy A huge success when it first appeared in 1747 and translated into French and German it remains one of the greatest of all European novels *Cultural Readings of Restoration and Eighteenth-Century English Theater* Deborah Payne Fisk, J. Douglas Canfield, 2010-12-01 Ranging in approach from feminist to historicist the eleven essays in this collection share the culturalist premise that the drama of late Stuart and early Georgian England helped to constitute the dominant ideology of the period The contributors varied approaches allow for the reconsideration of libertinism the politics of sexual desire and other classic issues as well as such newer concerns as the social construction of the first English actresses empiricism as an emergent epistemological discourse cultural anxiety about novelty and repetition and shifting tropes of inherent worth By reading well known works in unexpected ways and focusing on less frequently studied dramatists from Sedley Motteux Pix and Behn to Manley Trotter and Shadwell the contributors also test the limits of the canon In addition they suggest that earlier critical perceptions perhaps even more than the innate worth of the plays determined the shape of the canon These essays present a different image of Restoration and eighteenth century theater one that reveals how the drama was a site as important for the negotiation of cultural meaning as were novels and verse satires
