Political History Of South African Cricket No 42 Sport In The Global Society:

Cricket: A Political History of the Global Game, 1945-2017 Stephen Wagg, 2017-11-14 Cricket is an enduring paradox On the one hand it symbolises much that is outmoded imperialism a leisured elite a rural aristocratic Englishness On the other it endures as a global game and does so by skilful adaptation trading partly on its mythic past and partly on its capacity to repackage itself This ambitious new history recounts the politics of cricket around the world since the Second World War examining key cultural and political themes including decolonisation racism gender globalisation corruption and commercialisation Part One looks at the transformation of cricket cultures in the ten territories of the former British Empire in the years immediately after 1945 a time when decolonisation and the search for national identity touched every cricket playing region in the world Part Two focuses on globalisation and the game s evolution as an international sport analysing social change and the Ashes the campaigns for new cricket formats the development of the women s game the new breed of coach the limits to the game s global expansion and the rise of India as the world s leading cricket power Cricket A Political History of the Global Game 1945 2017 is fascinating reading for anybody interested in the contemporary history of sport

Cricket, Capitalism and Class Chris McMillan, 2023-10-06 This ambitious new study argues that not only is the story of cricket inescapably entwined with that of capitalism but that the game provides a unique lens with which to understand the history development exigencies and contradictions of capitalist political economy From the aristocratic capture of the artisan s game to the commodified entertainment of private T20 leagues the story of cricket has been told against the background of capitalism Cricket was the gentlemanly vanguard of the English led British empire which forged the first iteration of international capitalism that was reliant upon a political and commercial partnership between rulers and the ruled and today it speaks to the productive tension between the emergence of the Asian century and the power of American cultural imperialism Reading capitalism as a cultural economic and political system this book explores the relationship between cricket and capitalism and illuminates many of the most important themes in contemporary sport studies such as class race gender globalisation nationalism neoliberalism commodification and migration This is fascinating reading for anybody with an interest in sport history the sociology of sport global political economy political theory or cultural studies The Politics of South African Cricket Jon Gemmell, 2004-03-31 The Politics of South African Cricket analyses the relationship between politics and sport in particular cricket in South Africa South African Cricket embraces an ethos that is symbolic of a wider held belief system and as such has distinctive political connotations in the region Sport in South Africa is certainly influenced by forces beyond the playing field but politics too can be influenced by the social and economic force of sport Focusing on the sports boycott as a political strategy Jon Gemmell analyses the relationship between sport and politics through a historical analysis of South African cricket He employs case studies to explore the relationship between politics and South African cricket and argues convincingly that cricket assisted the reform process by undermining the legitimacy of the apartheid

The Commonwealth, South Africa and Apartheid Stuart Mole, 2023-05-31 This book explores the role of the modern Commonwealth in the international campaign against apartheid in South Africa Spanning the period of South Africa's apartheid state from its foundation in 1948 until its ending in April 1994 the author demonstrates that after the 1960 Sharpeville massacre and South Africa's subsequent exclusion from the Commonwealth the organisation was able to become both pathfinder and interlocutor on the road to South Africa's freedom As well as South Africa's ejection from the Commonwealth apartheid's increasing isolation was sustained by the Commonwealth's pioneering work in boycotting apartheid sport as well as campaigning to stop arms sales It also played an important role in internationalising economic and financial sanctions credited by some as the final nail in apartheid's coffin and was able to make an important and distinctive contribution to the transition to democracy At the same time critical debates within the Commonwealth about racial and political equality transformed the association from a docile post imperial organisation led by the UK and in its own interests to a modern multiracial North South forum for reconciling global difference and overcoming the legacies of colonialism This comprehensive and authoritative account of the Commonwealth's engagement with apartheid South Africa is intended for all those who study and research the modern Commonwealth its structure and influence and for those with a general interest in contemporary post war history

British Sporting Relations with Apartheid South Africa Matthew P. Llewellyn, Toby C. Rider, 2024-11-25 The transnational anti apartheid sport boycott of South Africa represented the most prominent extended and controversial anti racism campaign in the history of sport Spearheaded by prominent British religious and anti colonial figures and exiled South Africans emboldened by communist and Global South support and legitimised by supranational political bodies such as the United Nations the Organisation of African Unity and the Commonwealth the sport boycott helped propel anti apartheid out of relative obscurity and struck at the very heart of a cultural practice that served an explicitly ideological function in Afrikaner society Britain held a dichotomous even paradoxical role as both prosecutor and defender of white South Africa This book utilises sport as a critical lens for understanding the dynamics and dichotomies of British attitudes towards the apartheid regime Debates over whether to continue or to cut sporting links with apartheid South Africa proved bitterly divisive The considerable weight the subject carried and the degree to which it saturated British political and social discourse for four decades speaks to its impact and importance British Sporting Relations with Apartheid South Africa represents the first archival based historical examination of Britain's sporting relations with South Africa throughout the apartheid era 1948-1994 Situating the analysis within the shifting multiracial and multicultural landscapes of postcolonial Britain and within global political cultural sporting

and ideological debates the authors trace the origins and evolution of the transnational sport boycott and examine what inspired Britons to energise anti apartheid sport campaigns and in contrast what drove many others to vehemently oppose them at every turn *Cricket and Nationhood in the Twenty-First Century* Souvik Naha, 2024-11-30 This book presents a comprehensive exploration of the contemporary global landscape characterized by unsettling dynamics in identity politics state authority capitalism nationalism and nationhood during the twenty first century Using cricket as a lens it argues that the sport plays a profound role in a global society This sport has not only generated the contexts and tools for shaping promoting displaying and legitimizing nationalism and national identity it has also served as a conduit for followers who express national optimism and aspirations Cricket as a political project intricately interweaves territorial and emotional dimensions of belonging attitudes and involvement thus offering a unique perspective for understanding the modern world across South Asia Australia Western Europe Southern Africa and North America The chapters analyse how the audience of cricket about two billion people understand themselves in relation to their involvement in cricket and what interactions among these groups tell us about global identity politics Cricket provides communities with a dynamic space and social capital facilitating the negotiation of gender sexual ethnic and racial identities within their adopted environments It has been a potent medium in shaping ethnic and racial identities surpassing surface level displays of national colours and unified chants This book marks a significant step forward delving into the comprehensive performative emotional and representational significance inherent in these circumstances
