Political Oppositions In Industrialising Asia:

Political Oppositions in Industrialising Asia Garry Rodan, 2013-04-15 Industrialization has meant sweeping social transformations across Asia. Some political commentators have predicted that the expansion of civil society and the rapid development of liberal democracy will necessarily follow. The contributors to this volume dissect the extent of political opposition in Asia and analyze the nature of new social movements outside institutional party politics which are contesting the exercise of state power. Nine original case studies explore the variety of political oppositions across Asia from non-governmental organizations and the formal opponents of the PAP in Singapore to Chinese dissidents based outside the People's Republic of China. All take up the challenge of looking at political opposition in the light of the new social phenomenon of the rising middle class or new rich of Asia. Garry Rodan's hard hitting analysis of the problems of current political theorizing in relation to Asia sets the case studies firmly in the context of wider debates about democratization. *Political Oppositions in Industrialising Asia* shatters complacent assumptions about the progress of liberal democracy.

Singapore Politics Under the People's Action Party Diane K. Mauzy, Robert Stephen Milne, 2002 A comprehensive overview of politics in Singapore since self governance. The authors examine how this tiny island has developed into a global financial centre and an economic and social success under the leadership of the People's Action Party which has ruled continuously since 1959. The authors explore the nature of the Singaporean government as well as major issues such as ethnicity, human rights and the development of civil society.

New Opposition in the Middle East Dara Conduit, Shahram Akbarzadeh, 2018-09-27 This book uses a Contentious Politics lens to examine patterns of contestation since 2009 and 2011 among the Middle East's most important opposition actors. The volume is comprised of seven chapters that ask questions in relation to the responsiveness of opposition groups to their political environments, the long term legacies of authoritarianism and whether the post 2009-2011 political environment is better or worse for Middle Eastern oppositions. It interrogates the ways in which oppositions have morphed in relation to this changed operating environment, subjectively interpreting the costs and benefits of contestation in order to maximise political opportunities. To some, oppositions changes in the power balance between regime structures and opposition agents led to unprecedented opportunity for political action while for others structures were galvanised to restrict opposition activities. In total, the volume shows that even though the Arab Uprisings and Green Movement achieved few of their overt goals, the events unleashed smaller shifts across the region that have led to a fundamental change in the politics of contestation amongst the region's oppositions. These patterns echo experiences in other parts of the world including the coloured revolutions in post Soviet states and the political environment in Chile after Pinochet.

Developmentalism and Dependency in Southeast Asia Jason P. Abbott, 2003-08-29 This book provides a detailed cross country study of the automotive industry in South East Asia. Abbott argues that contrary to prevailing opinion, the diffusion of manufacturing in the Asia Pacific has been characterized by hierarchical networks of

production linked to Japan for technology *Opposition and Democracy in South Africa* Roger Southall,2014-01-14 This collection examines the nature scope and prospects for political opposition under African National Congress political dominance

Transparency and Authoritarian Rule in Southeast Asia Garry Rodan,2004-08-02 In Transparency and Authoritarian Rule in Southeast Asia Rodan rejects the notion that the 1997 98 Asian economic crisis was further evidence that ultimately capitalism can only develop within liberal social and political institutions and that new technology necessarily undermines authoritarian control Instead Rodan argues that in Singapore and Malaysia external pressures for transparency reform were and are in many respects being met without serious compromise to authoritarian rule or the sanctioning of media freedom

Empire and Neoliberalism in Asia Vedi R. Hadiz,2006-09-27 This book analyzes the overall effect of American primacy on social and political conflicts in Asia discussing how the post Cold War American agenda does not promote democratization in the region in contradiction to one of the major proclaimed aims of the proponents of the Pax Americana This team of renowned scholars argue that the US agenda can strengthen anti democratic impulses in Asian societies exacerbating and complicating existing domestic conflicts and struggles Empire and Neoliberalism in Asia also examines how the requirements of the War on Terror intersect with and reinforce those of transnationalized sections of American capital Drawing on country case studies this multidisciplinary book looks at the ramifications of the American Empire for the Asian region and will appeal to anyone interested in Asian politics international relations political economy development studies and sociology

Democratising Indonesia Mikaela Nyman,2006 The fall of Suharto has drawn much media and academic attention but the focus has been on the elite perspective the role of the regime and military and little has been published on civil society Gender issues are also often by passed Indonesia is at a crossroads and the greater involvement of civil society is being seriously considered for the first time by government representatives and demanded by civil society actors political think tanks and social commentators This study which covers the lead up to and ousting of Suharto up until the 2004 democratic elections analyses the role of civil society in Indonesia s transition towards democracy by applying social movement theory and the framework of political opportunities It

shows the importance of social movements as civil society's primary catalysts for change and the need for a strong civil society to take over where the social movements left off in order to consolidate attitudinal changes in the political economic and social spheres. The actions and limitations of various parts of the Indonesian pro democracy movement are discussed providing case studies of three groups of actors: the student movement, the women's movement and the labour movement focusing on times when they have joined forces to form social movements. The shortcomings and successes of the pro democracy movement are discussed as are the prospects for civil society in the future.

Democratization in Post-Suharto Indonesia Marco Bunte, Andreas Ufen, 2008-08-21

In May 1998 the fall of Suharto marked the beginning of a difficult and multi layered transition process. It was accompanied by intensified conflict in the political arena, a dramatic increase of ethnic and religious violence and the danger of national disintegration. Ten years after the collapse of the New Order, Indonesia has made significant progress; however, the quality of democracy is still low. Theoretically innovative and empirically sound, this book is an in depth analysis of the Indonesian reform process since 1998. Marco Bunte and Andreas Ufen bring together a selection of noted Indonesia experts to provide new insights into the restructuring of core state institutions, the empowerment of Parliament, the slow and difficult evolution of the rule of law and the transfer of power to locally elected regional governments, decentralization. Based on the results of extensive fieldwork, *Democratization in Post Suharto Indonesia* will be an important read for scholars engaged in research on Indonesia and the politics of Southeast Asia.
