Ceresa, 2017-06-21 This book studies civic organizations in Miami's Cuban community Few places in the United States have been transformed by immigration the way Miami has been transformed by Cuban exiles Cuban civic organizations help to explain why this is the case Civic organizations are the heart of the story of the social and political power and influence of Miami's Cuban community This community is home to a broad tradition of active political participation and many civic organizations The sheer number of organizations suggests they have something to do with the community's considerable vibrancy and civic capacity How do the organizations work How have they managed to be so successful over so many years What can be learned about successful civic organizing from their experience How will changing United States Cuba relations impact Cuban civic organizations and in turn broader Miami These are questions this book helps to answer Party Organization and Activism in the American South Robert P. Steed, John A. Clark, Lewis

Bowman, Charles D. Hadley, 2012-10-29 Maps the ways political parties remain vital components in the American political system especially in the eleven states in the South As Tocqueville noted more than 100 years ago No countries need associations more than those with a democratic social state Although some contemporary observers see a decline in associations especially in the political sphere the contributors in this volume argue not only that political parties remain an essential component of the American political system but also that grassroots political groups have revitalized the political process especially in the South Using data gathered from local party officials in the eleven southern states the authors examine such key issues as Who becomes involved in local party organizations and why How do parties recruit and retain workers What are the ideological and issue orientations of these activists How does intraparty factionalism affect local party organizations What is the connection between the party organization and its external environment The large regional database provides these contributors with the opportunity to extend the study of local party organization and activists thus addressing some of the significant gaps in previous research The additional data enable them to clarify the nature of local party organizations and in a larger sense the role of the parties in the contemporary American political system *Janitors, Street Vendors, and Activists* Christian Zolniski, 2006 This book exposes the underbelly of California's Silicon Valley the most successful high technology region in the world in a vivid ethnographic study of Mexican immigrants employed in Silicon Valley's low wage jobs The author demonstrates how global forces have incorporated these workers as an integral part of the economy through subcontracting and other flexible labor practices and explores how these labor practices have in turn affected working conditions and workers daily lives These immigrants do not emerge merely as victims of a harsh economy despite the obstacles they face they are transforming labor and community politics infusing new blood into labor unions and challenging exclusionary notions of civic and political membership Community Organizing and Community Building for Health and Welfare Meredith Minkler, 2012-07-16 The third edition of *Community Organizing and Community Building for Health and Welfare* provides new and more established ways to approach community building and organizing from collaborating with communities on assessment and issue selection to using the power of coalition building media advocacy and social media to enhance the effectiveness of such work With a strong emphasis on cultural relevance and humility this collection offers a wealth of case studies in areas ranging from childhood obesity to immigrant worker rights to health care reform A tool kit of appendixes includes guidelines for assessing coalition effectiveness exercises for critical reflection on our own power and privilege and training tools such as policy bingo From former organizer and now President Barack Obama to academics and professionals in the fields of public health social work urban planning and community psychology the book offers a comprehensive vision and on the ground examples of the many ways community building and organizing can help us address some of the most intractable health and social problems of our times Dr Minkler's course syllabus Although Dr Minkler has changed the order of some chapters in the syllabus to accommodate guest speakers and help students prep for

the midterm assignment she uses she arranged the actual book layout in a way that should flow quite naturally if instructors wish to use it in the order in which chapters appear
