Protestant Political Parties Paul Freston, 2017-03-02 The recent global expansion of Protestant Christianity and the increase in multiparty democracies has led to the multiplication of Protestant political parties One cannot talk of Protestant parties today without mentioning countries as diverse as Norway Latvia New Zealand Indonesia Zambia and Nicaragua Whilst the well established parties of the Netherlands and Scandinavia have long been studied Paul Freston's groundbreaking book is the first global survey of this phenomenon After looking at the traditional Protestant heartlands of Europe and the English speaking world Freston traces the spread of the Protestant party model to post communist countries the Pacific the Muslim world southern Africa and Latin America He examines the circumstances favouring such parties and

the political projects they represent The conclusion analyses the diversity of Protestant parties due to different interpretations of Christian politics and varied contexts This unique book will interest specialists and non specialists across disciplines and in many parts of the world

Political Parties in Post-Uprising Tunisia and Morocco Giulia Cimini, 2023-03-31 This book offers a comparative theory grounded study of Maghrebi political parties since the Arab uprisings specifically focused on Tunisia and Morocco in the first decade after the 2011 watershed elections Based on primary sources including in depth interviews and updated party statutes and bylaws the author introduces four case studies of key Islamist and anti Islamist parties exploring their organisational standing internal working and legitimating assets By dwelling into a topic long neglected the author provides insight into the hybrid nature of political parties in the Maghreb oscillating between juxtaposed traditional and modern discourses and ambivalent sources of political authority As such it is hybridisation that shapes parties organisational choices and development and accounts for differences within parties In the wake of political liberalisation the author argues that political parties have become increasingly distant from society distrusted by a large part of the citizenry Ultimately the Tunisian and Moroccan cases invite reflection on similar phenomena taking place within the Middle East and North Africa region and even outside of it Bridging disparate disciplines including comparative politics area studies and contemporary Middle Eastern history the book will be of interest to a broad range of graduate level students and academics

Political Parties J. Jupp, 2013-04-15 In this book the author proposes that parties are indispensable to modern politics and that the absence of parties suggests that a system is governed by a traditional elite which has yet to come to terms with the modern world Without them it would be impossible to legitimize modern systems to engage the loyalty and support of the citizens The alternative to party rule is either aristocracy or violent repression In all systems the party widens the area from which political leaders are recruited and is thus a democratising if not necessarily a liberalising force

Political Parties in Post-Communist Societies M. Spirova, 2007-06-14 This is a study of party development in the post communist world Based on extensive fieldwork in Bulgaria and Hungary as well as aggregate data from twelve post communist states this study provides an explanation of the behaviour of parties since 1990 and offer new insights into the party behaviour in the future

Political Parties and Democracy Larry Diamond, Richard Gunther, 2001-12-21 Political parties are one of the core institutions of democracy But in democracies around the world rich and poor Western and non Western there is growing evidence of low or declining public confidence in parties In membership organization and popular involvement and commitment political parties are not what they used to be But are they in decline or are they simply changing their forms and functions In contrast to authors of most previous works on political parties which tend to focus exclusively on long established Western democracies the contributors to this volume cover many regions of the world Theoretically they consider the essential functions that political parties perform in democracy and the different types of parties Historically they trace the emergence of parties in Western democracies and the transformation of party cleavage

in recent decades Empirically they analyze the changing character of parties and party systems in postcommunist Europe Latin America and five individual countries that have witnessed significant change Italy Japan Taiwan India and Turkey As the authors show political parties are now only one of many vehicles for the representation of interests but they remain essential for recruiting leaders structuring electoral choice and organizing government To the extent that parties are weak and discredited the health of democracy will be seriously impaired Contributors Larry Diamond and Richard Gunther Hans Daalder Philippe Schmitter Seymour Martin Lipset Giovanni Sartori Bradley Richardson Herbert Kitschelt Michael Coppedge Ergun Ozbudun Yun han Chu Leonardo Morlino Ashutosh Varshney and E Sridharan Stefano Bartolini and Peter Mair
