major consequences for the course of modern art production and its engagement with the political and the contingent

Pictured Politics Emily Engel, 2020-03-23 The Spanish colonial period in South America saw artists develop the subgenre of official portraiture or portraits of key individuals in the continent's viceregal governments Although these portraits appeared to illustrate a narrative of imperial splendor and absolutist governance they instead became a visual record of the local history that emerged during the colonial occupation Using the official portrait collections accumulated between 1542 and 1830 in Lima Buenos Aires and Bogota as a lens *Pictured Politics* explores how official portraiture originated and evolved to become an essential component in the construction of Ibero American political relationships Through the surviving portraits and archival evidence including political treatises travel accounts and early periodicals Emily Engel demonstrates that these official portraits not only belie a singular interpretation as tools of imperial domination but also visualize the continent's multilayered history of colonial occupation The first standalone analysis of South American portraiture *Pictured Politics* brings to light the historical relevance of political portraits in crafting the history of South American colonialism

Leon Golub Powerplay Jon Bird, 2016-04-15 Leon Golub 1922-2004 is best known for his iconic history paintings of mercenaries interrogations torture scenes and the riots of the 1980s and 90s Published to accompany an exhibition at the National Portrait Gallery in London running from March through November 2016 this collection of nearly all of Golub's political portraits from 1975-1978 almost 100 paintings offers a rich survey of his powerful style with analysis from

curator Jon Bird and professor of art history Gill Perry Bird and Perry examine the ways Golub increasingly explored the effects of power upon the body through facial expressions gestures and poses and how he invested his characters with psychological tension and depth As they show Golub always derived his source material from media representations aiming to capture the way power whether political military or social is mediated through the camera lens This look of power is the dominant characteristic of the portraits included here all painted as part of his Political Portraits series of the 1970s which captured historical figures ranging from Fidel Castro and Henry Kissinger to Pinochet and Mao Tse Tung at various stages of their public office With a narrative of arrogance and venality traced clearly across the face these portraits forcefully show that power is uncompromising The result is a startling collection of faces arrestingly rendered through Golub s signature visceral style
