Political Thought Of Andre Gorz

Andrew Dobson

Political Thought Of Andre Gorz:

The Political Thought of Andre Gorz Adrian Little,1996 This is the first book length analysis of Gorz s thought and its enormous contemporary importance giving a critical evaluation of all of his writings from the 1950s to the 1990s **Andre Gorz** Conrad Lodziak,Jeremy Tatman,1997-11-20 Widely regarded as a major contemporary theoretician Andre Gorz s critique of social formations offers both a direction and meaning to the current technological revolution The absence of English texts focussing on Gorz should make this reader an accessible introduction to his work The book traces the development of Gorz s political and philosophical theory over a period of more than four decades His influence on European intellectual and political culture is examined and the work focuses also on Gorz s own formative influences in the development of his perspective in particular his relationship with Satre Gorz s accounts of the failure of the uprising in May 1968 is assessed and the book illustrates how this heralded the transiton towards the search for new movements to engage in emancipatory socialism In particular it addresses Gorz s growing concern with ecological matters which provided the foundation for his comtemporary writing [The Social and Political Thought of Noam Chomsky](#) Alison Edgley,2004-08-02 The Social and Political Thought of Noam Chomsky questions Chomsky s claim not to have a theory about the relationship between human beings and their society other than that which can be written on the back of postage stamp Edgley compares Chomsky s vision of the good society with liberal communitarian perspectives and establishes that it is grounded in a hopeful belief about human nature She argues that sympathy with this vision of the good society is essential for understanding the nature of Chomsky s critique of state capitalism its inherent nationalism and the media The author concludes that Chomsky s analysis is coherent and systematic when one acknowledges that he is not just a critic but a theorist **Encyclopedia of Modern Political Thought (set)** Gregory Claeys,2013-08-20 This groundbreaking new work explores modern and contemporary political thought since 1750 looking at the thinkers concepts debates issues and national traditions that have shaped political thought from the Enlightenment to post modernism and post structuralism Encyclopedia of Modern Political Thought is two volume A to Z reference that provides historical context to the philosophical issues and debates that have shaped attitudes toward democracy citizenship rights property duties justice equality community law power gender race and legitimacy over the last three centuries It profiles major and minor political thinkers and the national traditions both Western and non Western which continue to shape and divide political thought More than 200 scholars from leading international research institutions and organizations have provided signed entries that offer comprehensive coverage of Thought of regions and countries including African political thought American political thought Australasian political thought Australian and New Zealand Chinese political thought Indian political thought Islamic political Thought Japanese political thought and more Thought regarding contemporary issues such as abortion affirmative action animal rights European integration feminism humanitarian intervention international law race and racism and more The ideological spectrum from Marxism to

neoconservatism including anarchism conservatism Darwinism and Social Darwinism Engels fascism the Frankfurt School Lenin and Leninism socialism and more Connections of political thought to key areas of politics and other disciplines such as economics psychology law and religion Notable time periods of political thought since 1750 Concepts including class democratic theory liberalism nationalism natural and human rights and theories of the state Theorists and political intellectuals both Western and non Western including John Adams Edmund Burke Mohandas Gandhi Immanuel Kant Ayatollah Khomeini Ernst Friedrich Schumacher George Washington and Mary Wollstonecraft **The Social and Political Thought of George Orwell** Stephen Ingle, 2006-04-18 Stephen Ingle is Professor at the Politics Department University of Stirling His main academic interests are in the relationship between politics and literature and in adversarial two party politics especially in the UK **The Political Theory of Andre Gorz** Adrian J. Little, 1993 Social and Political Thought

of Mahatma Gandhi Bidyut Chakrabarty, 2006 This book examines the Gandhian precepts of satyagraha or non violent protest and non violence and the evolution of these precepts in the context of anti imperial movements organized by Gandhi

German Political Philosophy Chris Thornhill, 2007-01-24 This book combines philosophical intellectual historical and political theoretical methodologies to provide a new synoptic reading of the history of German political philosophy Incorporating chapters on the political ideas of Luther and Zwingli on the politics of the early Enlightenment on Idealism on Historicism and Lukacs on early Twentieth Century political theology on the Frankfurt School and on Habermas and Luhmann the book sets out both a broad and a detailed discussion of German political reflection from the Reformation to the present In doing so it explains how the development of German political philosophy is marked by a continual concern with certain unresolved and recurrent problems It claims that all the major positions address questions relating to the origin of law that all seek to account for the relation between legal validity and metaphysical and theological superstructures and that all are centred on the attempt to conceptualise and reconstruct the character of the legal subject *Karl Marx's Social and Political Thought* Bob Jessop, Russell Wheatley, 1999 Green Political Thought Andrew Dobson, 2012-10-02 Andrew Dobson's highly acclaimed introduction to green political thought is now available in a new edition It has been fully revised and updated to take into account the areas that have grown in importance since the last edition was published The third edition includes a comparison of ecologism with other principal modern ideologies such as liberalism conservatism fascism socialism feminism and anarchism an assessment of the relationship between green thinking and democracy justice and citizenship an exploration of sustainable development addressing the fundamental question of what to sustain real environmental problems and how green thinking relates to them
