Socialist Revolution in America Simona Pipko, 2021-09-20. We are at war. This war is aimed at you, your family, your country, and the Western Civilization as a whole. Afghanistan and the Socialist Revolution in America are parts of this long war. As a compilation of articles written during the last thirty years, this book represents the history of ideology that brought the world and America to its current crisis. The pages of this book reveal the faceless and nameless enemies that have been secretly operating under the radar for decades. The book exposes the driving force behind the International Terrorism today, Russia, and her Counterintelligence operations. Being a profound and meaningful work, this book is a rich arsenal of information based on the author's first-hand experiences and factual data. This book will bring to light myriads of compelling and grim secrets behind such names as Joseph Stalin who married the Communist ideology with Islamic Jihad, Yuri Andropov who designed the monumental infiltration into the midst of our society by simultaneous intrusion of our intelligence apparatus and the media, and Vladimir Putin who is successfully implementing their strategy in the 21st century. Exposing the core of today's terrorism, its roots, ideology, and operations, *Socialist Revolution in America* is an eye opener in comprehending the major underlying problems in America and the world. To survive and win this war, awareness and knowledge of the enemy is urgent and crucial.

Has Political Correctness Gone Mad? Tony McKenna, 2024-03-21. Woke social justice warriors lurk around every corner ready to cancel free speakers and police common sense. Muslims love nothing better than abolishing Christmas. FemiNazi's throw false accusations at the pillars of our society. Decried by right-wing pundits and politicians alike, the idea of political correctness is often painted as a form of left-wing totalitarianism. But in this pithy, clear-headed account, Tony McKenna explains how the concept itself is in fact one of the great conspiracy theories of our times. From the fear of cancel culture to the demonization of grassroots social movements, this is a searing dissection of how the exclusionary agendas for so long

played out in our media and party politics have been successfully dressed up as campaigns for freedom and common sense Tackling some of the favourite bogeymen of tabloids and scaremongers McKenna dissects the language rhetoric and ideology that turns refugees into insects social justice into wokery and makes predators out of anyone from dark skinned men to trans women He provides a full analysis of historically important social liberation movements like BLM and MeToo giving the historical and cultural contexts for their emergence As the tried and tested politics of stigmatization and exclusion shift from old targets to new this an explanation of one of society s most insidious narratives and how it allows dominant orthodox culture to cast the subjects of its oppressive tactics as the dreaded global liberal elite **Are Four Isms Killing America?**

Robert A. Taft,2018-04-26 The answer to the question raised in the title of this book is yes This well documented account explores the four culprits progressivism communism Islamism and globalism After presenting the American concept and its key vulnerabilities the book tracks the history of each of these isms comparing their similarities and describing why Americanism runs totally counter to their principles From 1900 to the present this chilling but factual account shows the impact the isms have had on the evolution of America Starting in 1960 the four have combined forces to attack the family religion and education in order to take down this country its Constitution and moral firewall In the end the fallacy of the four isms along with their collective operational formula is exposed and how emerging generations are the unwitting victims of their assault **The Immaculate Mistake**

Rodney Wallace Kennedy,2021-09-23 President Donald Trump originated his political career by claiming that Barack Obama was not born in the USA His birtherism theory was discredited but there s another possibility about birth Evangelicals have given birth to Donald Trump in the immaculate mistake Evangelicals are not a collection of dumb and irrational people they are the creators of the demolition presidency of Trump He is their child the result of almost one hundred years of evangelical angst resentment and hurt This is the story of how Trump has become a secular evangelical preacher and his message of fear hatred division and getting even has captured the hearts and minds of evangelicals Rather than dismissing them this work takes them seriously and literally and offers a frank and disturbing series of portraits of their determination to win at all costs *Killing America*

William Davidson,2016-09-29 There are new ways of waging war being developed every day It appears invisible tactics and weapons are being used especially against the United States This may sound like science fiction or fear mongering to the average person Maybe that is why invisible tactics are working so well The United States of America is under full scale attack with invisible weapons and the average person does not even know Stay with me and I will expose hundreds of attacks that are in full scale right now and how I believe I came to be aware or able to see the invisible war **Political Correctness in the Era of Trump**

Luigi Esposito,Laura Finley,2018-11-15 In recent years debates surrounding political correctness PC have once again intensified in the United States and other Western countries Although PC has a long history the term today is typically associated with a type of leftist progressive puritanism that prevents people from speaking their minds or voicing uncomfortable truths that might offend

members of marginalized groups or communities In many respects the political ascendancy of Donald J Trump and his appeal to millions of people not only in the USA but around the world hinges on the belief that his presidency represents a repudiation of the repressiveness associated with PC Indeed throughout his political campaign Trump declared himself to be an anti PC president who would always speak his mind and tell it like it is However while many celebrated Trump s maverick anti PC stance others saw this as an attack on basic standards of decency and civil discourse Timely and important this collection is authored by scholars from various disciplines and will be of interest to educators undergraduate and graduate students as well as anyone interested in the debates associated with the so called culture wars in the West Each chapter addresses how the PC debate has continued to shape social and political discourse in different areas including race relations gender issues terrorism and national security higher education the media and immigration The point is made that while some of the criticisms directed against PC are worthy of serious consideration and discussion it is also true that PC particularly in the era of Trump has been increasingly employed as a form of ideological scapegoat to delegitimize and roll back language attitudes values behaviors and policies that are vital for promoting objectives associated with gender and racial equality human rights democracy empathy fairness multiculturalism and inclusive curricula

Conservative Political Communication Sharon E. Jarvis,2021-04-14 Conservative Political Communication examines the evolution of appeals media and tactics in right wing media and political communication tracking trends and shifts from the early days of contemporary conservatism in the 1950s to the Trump administration The chapters in this edited volume feature the work of senior and junior scholars from the fields of communication journalism and political science employing content analytic experimental survey historical and rhetorical research methodologies Analyses of the rise of the 24 hour news cycle the range of partisan news sources and the role of social media algorithms in political campaigns yield insights for our media and information ecosystems A key theme across these chapters is how right wing

channels and communications help and hinder partisan fragmentation a condition whereby novice elected officials create personal conservative brands appeal to the base through partisan media and complicate senior leadership's ability to engage in bargaining compromise and deal making This volume interrogates conservative media and messaging to track where these processes came from how they functioned in the 2016 U S presidential campaign and where they may be going in the future This book will interest scholars and upper level students of political communication media and politics and political science as well as readers invested in today's political media landscape in the United States

The Collapse of Freedom of Expression Jordi Pujol, 2023-02-15 This book offers a holistic account of the problems posed by freedom of expression in our current times and offers corrective measures to allow for a more genuine exchange of ideas within the global society The topic of free speech is rarely addressed from a historical philosophical or theological perspective In *The Collapse of Freedom of Expression* Jordi Pujol explores both the modern concept of the freedom of expression based on the European Enlightenment and the deficiencies inherent in this framework Modernity has disregarded the traditional roots of the freedom of expression drawn from Christianity Greek philosophy and Roman law which has left the door open to the various forms of abuse censorship and restrictions seen in contemporary public discourse Pujol proposes that we rebuild the foundations of the freedom of expression by returning to older traditions and incorporating both the field of pragmatics of language and theological and ethical concepts on human intentionality as new complementary disciplines Pujol examines emblematic cases such as Charlie Hebdo free speech on campus and online content moderation to elaborate on the tensions that arise within the modern concept of freedom of expression The book explores the main criticisms of the contemporary liberal tradition by communitarians libertarians feminists and critical race theorists and analyzes the gaps and contradictions within these traditions Pujol ultimately offers a reconstruction project that involves bridging the chasm between the secular and the sacred and recognizing that religion is a font of meaning for millions of people and as such has an inescapable place in the construction of a pluralist public sphere
