Political Development In Eastern Europe Special Studies:

Political Development in Eastern Europe Jan F. Triska, Paul Cocks, 1977 *Background To Crisis* Maurice D. Simon, 2019-03-04 The 1970s in Poland were marked by rapid social economic and political change that included the phenomenal expansion of Polish industry the growth of economic ties with the West food shortages and substantial domestic unrest The Polish government was faced with a large number of problems foreign as well as domestic that to date have not been amenable to lasting solutions Efforts to solve one problem often have merely exacerbated difficulties in other areas The authors of this volume examine many of the policy related developments in Poland during Gierek s regime from his accession to power in late 1970 to his dismissal in 1980 The book begins with an overview of Poland s recent political evolution and concludes with an analysis of the nation s status at the end of the 1970s The chapters describe political participation and integration the role of various groups in the Polish political process and major policy issues facing the Polish government

The Dynamics of Soviet Politics Paul Cocks, Robert Vincent Daniels, Nancy Whittier Heer, 1976 The Dynamics of Soviet Politics is the result of reflective and thorough research into the centers of a system whose inner debates are not open to public discussion and review a system which tolerates no public opposition parties no prying congressional committees and no investigative journalists to ferret out secrets The expert authors offer an inside view of the workings of this closed system a view rarely found elsewhere in discussions of Soviet affairs Their work building as it does on the achievements of Soviet studies over the last thirty years is firmly rooted in established knowledge and covers sufficient new ground to enable future studies of Soviet politics and social practices to move ahead unencumbered by stereotypes sensationalism or mystification Among the subjects included are attitudes toward leadership and a general discussion of the uses of political history the dramatic cycles of officially permitted dissent the legitimacy of leadership within a system that has no constitutional provision for succession the gradual adoption of Western inspired administrative procedures and systems management a study of group competition and bureaucratic bargaining Khrushchev s virgin lands experiment and its subsequent retrenchment the apolitical values of adolescents the problems of integrating Central Asia into the Soviet system a history of peaceful coexistence and its current importance in Soviet foreign policy priorities and finally an overview of Soviet government as an extension of prerevolutionary oligarchy with an emphasis on adaptation to political change

Conservatism and Memory Politics in Russia and Eastern Europe Katalin Miklóssy, Markku Kangaspuro, 2021-12-13 This book discusses the diverse practices and discourses of memory politics in Russia and Eastern Europe It argues that currently prevailing conservatism has a long tradition which continued even in Communist times and is different to conservatism in the West which can accommodate other viewpoints within liberal democratic systems It considers how important history is for conservatism and how history is reconstituted according to changing circumstances It goes on to examine in detail values which are key to conservatism such as patriotism Christianity and religious life and the traditional model of the family the

importance of the sovereign national state within globalization and the emphasis on a strong paternal state featuring hierarchy authority and political continuity The book concludes by analysing how far states in the region are experiencing a common trend and whether different countries conservative narratives are reinforcing each other or are colliding

Environmental Security in South-Eastern Europe Massimiliano Montini, Slavko Bogdanovic, 2011-01-07 Authored by international experts from academia international organizations governments and NGOs this book highlights the main environmental security issues in the South East European SEE countries with a particular focus on climate change and water management The common goal of the authors was to provide a reliable evaluation of whether existing legal regimes and correct implementation of applicable international treaties may contribute to reducing environmental security risks in the region In depth analyses and assessment of major challenges in compliance serve as a firm ground which such evaluation is based on This volume is recommended for public officials legal practitioners and consultants Its interest may also extend beyond the SEE countries serving as a case study of a broader and paradigmatic relevance of the analysis and management of environmental and security issues in a trans boundary context

Politics and the Environment in Eastern Europe Eszter Krasznai Kovacs, 2021-07-28 Europe remains divided between east and west with differences caused and worsened by uneven economic and political development Amid these divisions the environment has become a key battleground The condition and sustainability of environmental resources are interlinked with systems of governance and power from local to EU levels Key challenges in the eastern European region today include increasingly authoritarian forms of government that threaten the operations and very existence of civil society groups the importation of locally contested conservation and environmental programmes that were designed elsewhere and a resurgence in cultural nationalism that prescribes and normalises exclusionary nation building myths This volume draws together essays by early career academic researchers from across eastern Europe Engaging with the critical tools of political ecology its contributors provide a hitherto overlooked perspective on the current fate and reception of environmentalism in the region It asks how emergent forms of environmentalism have been received how these movements and perspectives have redefined landscapes and what the subtler effects of new regulatory regimes on communities and environment dependent livelihoods have been Arranged in three sections with case studies from Czechia Hungary Lithuania Poland Romania and Serbia this collection develops anthropological views on the processes and consequences of the politicisation of the environment It is valuable reading for human geographers social and cultural historians political ecologists social movement and government scholars political scientists and specialists on Europe and European Union politics

Labour and Social Transformation in Central and Eastern Europe Violaine Delteil, Vassil Nikolaev Kirov, 2016-07-22 Over a quarter of a century after the fall of the Berlin Wall and 10 years after their accession to the European Union EU Central and Eastern Europe Countries CEECs still show marked differences with the rest of Europe in the fields of labour work and industrial relations This book presents a detailed and original analysis of labour and social

transformations in the CEECs By examining a wide range of countries in Central Europe Labour and Social Transformation in Central and Eastern Europe offers a comprehensive and contrasting view of labour developments in Central and Eastern Europe Chapters explore three related issues The first deals with the understanding of the complex process of Europeanization applied in the sphere of labour employment and industrial relations The second issue refers to the attempt to link the Europeanization approach with an analysis mobilizing the theoretical concept of dependent capitalism s The third issue refers to the cumulative trends of labour weakening and labour awakening that has emerged in particular in the aftermath of the crisis beginning in 2007 2008 This book will be of interest to academics policy makers and stakeholders at European and national level in the EU member states **Politics and world affairs, periodicals, conferences, indexes**

Theodore, D. Dimitrov, 2019-06-04 Keine ausf hrliche Beschreibung f r Politics and world affairs periodicals conferences indexes verf gbar **The New Parliaments of Central and Eastern Europe** Philip Norton, David M. Olson, 2013-11-05

What role have parliaments played in the dramatic changes occurring in Eastern and Central Europe Adopting a common research framework the contributors analyse in detail the role and operations of parliaments in ten of the new democracies They focus on what determines their capacity to have some impact on public policy They identify the significance of parliaments operating in often hybrid systems of government with the relationship between the executive and legislature not well defined and with an absence of constraining influence that typify western political systems **Historical Sociology**

and Eastern European Development Arne Kommisrud, 2009-06-16 An innovator in theoretical approaches in the social sciences Stein Rokkan developed general models developmental models and conceptual maps that specified the main variables and important relationships in European political history In Historical Sociology Arne Kommisrud tests these general hypotheses against specific historical and regional contexts He uses the case of Eastern Europe after the downfall of the Berlin Wall to extend the geography of the model s range and introduces possibilities for theoretical modification through an analysis of sequential interactions Covering a period from the Middle Ages through the 1990s and addressing phenomena overlooked by Rokkan such as statebuilding and nationalism this book demonstrates that Rokkan s models continue to be relevant to modern political science and sociology Kommisrud s study is a valuable contribution to Rokkanian approaches and the understanding of Eastern European development within the historical and geographic context of Europe as a whole
