Political Memoirs Aurel Kolnai, 1999-01-01 Ranked by many scholars as one of the most important moral philosophers of the twentieth century Aurel Kolnai has been inexplicably neglected in this country until quite recently He is best known for his works of political philosophy recently published under the title *The Utopian Mind A Critical Study in Moral and Political Philosophy* Here for the first time ever in English is Kolnai's magnum opus his *Political Memoirs* superbly annotated and edited by Francesca Murphy of the University of Aberdeen Scotland The memoirs recount the author's life from his childhood in the turn of the century Austro Hungarian Empire to his education in Germany and his early professional life in prewar Vienna It was in these formative years that he converted from Judaism to Roman Catholicism and began his career as a writer and philosopher The narrative continues through his years in exile in the United States and Canada where he lived before ultimately settling in Great Britain and being granted citizenship in 1955 *Political Memoir* George W.

Egerton, 1994 Wesley Wark and John Naylor analyse the proliferation of intelligence memoirs and government efforts to protect official secrets from the revelations of the candid memoirist The principal findings reached by the contributors in their study of this problematic but influential genre are set out by the editor in the concluding chapter **Handbook of**

Man of the House Tip O'Neill, William Novak, 1987 Describes the political career of the politician from Massachusetts whose career spanned fifty years and who served as Speaker of the House for a

decade **British Autobiography in the Seventeenth Century** Paul Delany, 2015-08-14 Originally published in 1969 In the seventeenth century neither the literary genre nor the term autobiography existed but we see in seventeenth century literature many kinds of autobiographical writings to which their authors gave such titles as Journal of the Life of Me Confessions etc This work is a study of nearly two hundred of these published and unpublished which together represent a very varied group of writings The book begins with an examination of the rise of autobiography as a genre during the Renaissance It discusses seventeenth century autobiographical writings under two main headings religious where the autobiographies are grouped according to the denomination of their writer and secular where a wide variety of writings is examined including accounts of travel and of military and political life as well as more personal accounts Autobiographies by women are treated separately and the author shows that they in general have a deeper revelation of sentiments and more subtle self analyses than is found in comparable works by men Sources and influences are recorded and also the essential historical details of each work This book gives a critical analysis of the autobiographies as literary works and suggests relationships between them and the culture and society of their time Review of the original publication a contribution to cultural history which is of quite exceptional merit Its subject is of great intrinsic interest and manifest importance and Professor Delany has treated it with exemplary thoroughness lucidity and intelligence Lionel Trilling **The London**
