

Totalitarian Model of Political Participation

- Citizens were involved in politics only when **mobilized** by the party-state to implement policies already made.
- The author of "Political Participation in the USSR" (1979) suggested that his book might as well be subtitled "How and why do Soviet politics **involve** the people?"

Political Participation In The Ussr:

Political Participation in the USSR Theodore H. Friedgut, 2014-07-14 Theodore H Friedgut scrutinizes mass political participation in the Soviet system examining in detail the electoral process the local councils and the neighborhood committees from 1957 to the present Originally published in 1979 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Soviet Grassroots Jeffrey W. Hahn, 2017-03-14 Jeffrey Hahn examines the degree to which citizens who are elected to local government in the USSR can successfully represent the interests of those who elected them More specifically how effectively do the mechanisms available for citizen participation in local government work in practice What can elected deputies do to respond to the expressed needs and preferences of their constituents Basing his conclusions on interviews with local deputies observations of local soviets at work and the analysis of a wide range of primary source material the author finds that Soviet citizens do have some chances to participate meaningfully in local government and that a basis exists for the continued expansion of such participation The elected deputy can and occasionally does play an active role as an ombudsman for those who choose to use opportunities for citizen input Soviet Grassroots not only contributes to our empirical knowledge of political participation in the USSR but also provides a basis for speculation about the nature of political change in the Soviet system If opportunities for effective participation in local government do exist and they can be shown to have grown over time then one precondition for the emergence of a civic culture in Soviet society already exists Originally published in 1988 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Political Participation in the USSR** Matadin Gupta, 1989 **Political Participation in Beijing** Tianjian Shi, 1997 In this first scientific survey of political participation in the People's Republic of China Tianjian Shi identifies twenty eight participatory acts and groups them into seven areas voting campaign activities appeals adversarial activities cronyism resistance and boycotts What he finds will surprise many observers Political participation in a closed society is not necessarily characterized by passive citizens driven by regime mobilization aimed at carrying out predetermined goals Beijing citizens acknowledge that they actively engage in various voluntary participatory acts to articulate their interests In a society where communication channels are controlled by the government Shi discovers

access to information from unofficial means becomes the single most important determinant for people's engaging in participatory acts. Government sponsored channels of appeal are easily accessible to ordinary citizens so socioeconomic resources are unimportant in determining who uses these channels. Instead voter turnout is found to be associated with the type of work unit a person belongs to, subjective evaluations of one's own economic status and party affiliation. Those most likely to engage in campaign activities, adversarial activities, cronyism, resistance and boycotts are the more disadvantaged groups in Beijing. While political participation in the West fosters a sense of identification, the unconventional modes of participation in Beijing undermine the existing political order. *Women in Soviet Society* Gail Warshofsky

Environment John Massey Stewart, 1992-05-07 This book originally published in 1992 describes the Soviet environment at its crisis point in the late 1980s and early 1990s. Belarus and the Ukraine had as a result of the Chernobyl accident been declared ecological disaster zones and across the country as a whole as many as 20 per cent of the population lived in environmental danger areas and another 35-40 per cent in unsatisfactory conditions. According to a Supreme Soviet Environment Committee report of 1989 80% of all illness in the USSR related either directly or indirectly to environmental problems. In this book leading specialists from both the West and the Soviet Union present a comprehensive analysis of these problems. The contributors examine the aftermath of Chernobyl, the catastrophic causes and effects of the Aral Sea's shrinkage, the environmental issues and public unrest. The depth of analysis in this volume together with the breadth of topics addressed will ensure that it is read by students and specialists of the Soviet Union and environmental issues as well as by all government officials, journalists and industrialists with an interest in the Soviet environment **Politics, Work, and Daily**

Life in the USSR James R. Millar, 1987 Politics, work and daily life in the USSR is designed to illustrate how the Soviet social system really works and how the Soviet people cope with it. This study is based on the first comprehensive survey of life in the USSR since the Harvard Project over thirty-three years ago. The essays contained analyze the variations in attitude and behaviour reflected in the findings of the Soviet Interview Project, a five-year investigation of contemporary daily life in the USSR. The survey involved interviewing thousands of recent emigrants from the USSR to the United States as a means of learning about their former day-to-day lives. Some aspects of this survey dealt with areas the Soviets themselves had never investigated so the data were not and indeed still are not available even in unpublished Soviet sources. This study of a large volume of firsthand observations is extremely valuable to anyone interested in the inner workings and behavioural dynamics of the contemporary Soviet social system **Politics and the Soviet System** Thomas F. Remington, 1989-06-18 This

collection of essays focuses on topics pertaining to Soviet propaganda and policy making. Among the essays there is a study of the view of international relations presented by Soviet TV news, a survey of development in comparative communist studies and an analysis of recent changes.
