Political Theory In Modern Germany An Introduction

Chris Thornhill

Political Theory In Modern Germany An Introduction:

Political Theory in Modern Germany Chris Thornhill, 2000-02-21 This book provides an accessible and comprehensive introduction to the major political thinkers of modern Germany It includes chapters on the works of Max Weber Carl Schmitt Franz Neumann Otto Kirchheimer Jurgen Habermas and Niklas Luhmann These works are examined in their social and historical contexts ranging from the period of Bismarck to the present day A clear picture is presented of the connections between individual theoretical positions and the general political conditions of modern Germany Areas of political history covered in particular depth include nineteenth century legal and parliamentary history aspects of German liberalism Weimar social democracy political Catholicism Adenauer and Erhard Brandt's reforms and the Tendenzwende of the late 1970s By closely linking intellectual and political history this work examines how recent German political theory has developed as a set of varying responses to recurring aspects and problems of political life in modern Germany At the same time it addresses the philosophical and political implications of the works which it treats and it critically examines how modern German political theory has contributed to broader attempts to theorize political legitimacy and politics itself This book will be of interest to students of political theory German studies and European political history

Hans J. Morgenthau's Theory of International Relations M. Neacsu, 2009-11-18 This book provides an innovative interpretation of Hans J Morgenthau's contribution to international relations and argues that the concepts of meaning power as meaning imposition disenchantment and re enchantment are central to Morgenthau's theory

Critical Encounters with Habermas's Political and Legal Theory, 2025-10-30 With over a dozen contributions from scholars across a range of disciplines this book revisits Jurgen Habermas's defining text on legal and political theory Between Facts and Norms 1992 The contributors interrogate the prospects for Habermas's optimistic defense of liberal democracy in our current age of straining global capitalism and menacing authoritarian populisms The authors arrive at different conclusions with some contributors engaging directly with his theory while others assessing it through the prisms of political economy the media policing employment discrimination law international relations theory social movements democratic institutions and the historical context of Between Facts and Norms

The Weimar Moment Leonard V. Kaplan, Rudy Koshar, 2012-01-26 The Weimar Moment's evocative assault on closure and political reaction its offering of democracy against the politics of narrow self interest cloaked in nationalist appeals to Volk and community or as would be the case in Nazi Germany race cannot but appeal to us today This appeal its historical grounding and content its complexities and tensions its variegated expressions across the networks of power and thought is the essential context of the present volume whose basic premise is unhappiness with Hegel's remark that we learn no more from history than we cannot learn from it The challenge of the papers in this volume is to provide the material to confront the present effectively drawing from what we can and do understand

The Remnants of the Rechtsstaat Jens Meierhenrich, 2018-02-22 This book is an intellectual history of Ernst Fraenkel's The Dual State 1941 reissued 2017 one of

the most erudite books on the theory of dictatorship ever written Fraenkel's was the first comprehensive analysis of the rise and nature of Nazism and the only such analysis written from within Hitler's Germany His sophisticated not to mention courageous analysis amounted to an ethnography of Nazi law As a result of its clandestine origins The Dual State has been hailed as the ultimate piece of intellectual resistance to the Nazi regime In this book Jens Meierhenrich revives Fraenkel's innovative concept of the dual state restoring it to its rightful place in the annals of public law scholarship Blending insights from legal theory and legal history he tells in an accessible manner the remarkable gestation of Fraenkel's ethnography of law from inside the belly of the behemoth In addition to questioning the conventional wisdom about the law of the Third Reich Meierhenrich explores the legal origins of dictatorship elsewhere then and now The book sets the parameters for a theory of the authoritarian rule of law a cutting edge topic in law and society scholarship with immediate policy implications

Habermas Matthew G. Specter, 2010-09-27 This book follows postwar Germany's leading philosopher and social thinker Jürgen Habermas through four decades of political and constitutional struggle over the shape of liberal democracy in Germany Habermas's most influential theories of the public sphere communicative action and modernity were decisively shaped by major West German political events the failure to de-Nazify the judiciary the rise of a powerful Constitutional Court student rebellions in the late 1960s the changing fortunes of the Social Democratic Party NATO's decision to station nuclear weapons and the unexpected collapse of East Germany In turn Habermas's writings on state law and constitution played a critical role in reorienting German political thought and culture to a progressive liberal democratic model Matthew Specter uniquely illuminates the interrelationship between the thinker and his culture *German Ideologies Since 1945* J. Muller, 2003-02-21 The contributors of this volume seek to answer such questions as How did the Germans overcome Germanic Ideology or did they Why is there no libertarianism in Germany What do German conservatives wish to conserve Emphasizing shared patterns of thought the contributors trace the contours of political thought in a divided nation with a difficult past and in the shadow of the culture and political values of the United States **The Future of the State** Artemy Magun, 2020-08-04 The state has been a dominant political form and the preferred model of political unity for at least the last two centuries However many today speak of its crisis which stems from two main factors the state's changing role in the globalizing international system and the state's complex relation to democracy a key normative concept of contemporary politics Authoritarian leaders use the state to successfully reaffirm sovereignty despite international integration democratic movements abound but often serve only to reinforce the regimes they contest Is there an alternative Do we need to reconceive the phenomenon of state with a view to the future These are the questions that an international group of scholars explores and answers in this groundbreaking book drawing on the history of political thought continental philosophy and contemporary political examples They engage the dialectical tradition broadly understood including phenomenological transcendentalism the political philosophy of French public law and German twentieth century political philosophy beyond

Weber The result brings the state into a critical political philosophy providing a realistic model of what a good democratic state could and should be like

Luhmann and Socio-Legal Research Celso Fernandes Campilongo, Lucas Fucci Amato, Marco Antonio Loschiavo Leme de Barros, 2020-12-29 This book discusses the designs and applications of the social systems theory built by Niklas Luhmann 1927 1998 in relation to empirical socio legal studies This is a sociological and legal theory known for its highly complex and abstract conceptual apparatus But how to change its scale in order to study more localised phenomena and to deal with empirical data such as case law statutes constitutions and regulation This is the concern of a wide variety of scholars from many regions engaged in this volume It focuses on methodological discussions and empirical examples concerning the innovations and potentials that functional and systemic approaches can bring to the study of legal phenomena institutions building argumentation and dispute settlement in the interface with economy and regulation and with politics and public policies It also discusses connections and contrasts with other jurisprudential approaches for instance with critical theory law and economics and traditional empirical research in law Two decades after Luhmann s death the 21st century has brought countless transformations in technologies and institutions These changes resulting in a hyper connected ultra interactive world society bring operational and reflective challenges to the functional systems of law politics and economy to social movements and protests and to major organisational systems such as courts and enterprises parliaments and public administration Pursuing an empirical approach this book details the variable forms by which systems construct their own structures and semantics and irritate each other Engaging Luhmann s theoretical apparatus with empirical research in law this book will be of interest to students and researchers in the field of socio legal studies the sociology of law legal history and jurisprudence

Perspectives on International Political Theory in Europe Vassilios Paipais, 2021-08-31 This book offers a timely exploration of the still burgeoning field of International Political Theory IPT IPT is approached in this volume not merely as a subfield at the margins of the discipline of International Relations IR but rather as a key dimension of theorising international relations that challenges disciplinary theoretical methodological and geographical boundaries and inseminalates other theoretical IR traditions Chapters in this volume approach IPT as a theoretical tradition that emphasises and interrogates the philosophical historical ethical normative institutional and aesthetic dimensions of international relations and world politics In so doing they explore IPT as a European theoretical tradition to stress that paradoxically it is only by provincializing Europe and its intellectual traditions that one may finally appreciate what is truly universal in them This is a refreshingly different take on IPT sure to be of interest to students and scholars of IPT IR and political theory

This is likewise one of the factors by obtaining the soft documents of this **Political Theory In Modern Germany An Introduction** by online. You might not require more mature to spend to go to the ebook introduction as competently as search for them.
