Preludes Opus No28

Carl Schachter

Preludes Opus No28:

The Art of Tonal Analysis Carl Schachter, 2016 Carl Schachter is the world's leading practitioner of Schenkerian theory and analysis. His articles and books have been broadly influential and are seen by many as models of musical insight and lucid prose. Yet perhaps his greatest impact has been felt in the classroom. At the Mannes College of Music, the Juilliard School of Music, Queens College, and the Graduate Center of the City University of New York, and at special pedagogical events around the world, he has taught generations of musical performers, composers, historians, and theorists over the course of his long career. In Fall 2012, Schachter taught a doctoral seminar at the CUNY Graduate Center in which he talked about the music and the musical issues that have concerned him most deeply. The course was in essence a summation of his extensive and renowned teaching. In *The Art of Tonal Analysis*, winner of the Society for Music Theory's 2017 Citation of Special Merit, music theorist Joseph Straus presents edited transcripts of those lectures. Accompanied by abundant music examples, including analytical examples transcribed from the classroom blackboard, Straus's own visualizations of material that Schachter presented aurally at the piano, and Schachter's own extended Schenkerian graphs and sketches, this book offers a vivid account of Schachter's masterful pedagogy and his deep insight into the central works of the tonal canon. In making the lectures of one of the world's most extraordinary musicians and musical thinkers available to a wide audience, *The Art of Tonal Analysis* is an invaluable resource for students and scholars of music.

A Catalogue of Music for The Ampico American Piano Corporation, 1922 *The Universal Library of Music: Instrumental*, 1913 **Etude** Theodore Presser, 1927 Includes music *The Etude*, 1911 A monthly journal for the musician, the music student, and all music lovers *The Performing Style of Alexander Scriabin* Anatole Leikin, 2016-02-24 When Alexander Nikolayevich Scriabin's music was performed during his lifetime, it always elicited ecstatic responses from the listeners. Wilhelm Gericke, conductor of the Vienna Opera, rushed backstage after one of Scriabin's concerts and fell on his knees crying, "It's genius, it's genius." After the composer's death in 1915, however, his music steadily lost the captivating appeal it once held. The main reason for this drastic change in the listener's attitude is an enormous gap existing between the printed scores of Scriabin's music and the way the composer himself played his works. Apparently, what Scriabin's audiences heard at the time was significantly different from, and vastly superior to, modern performances that are based primarily on published scores. Scriabin recorded nineteen of his compositions on the Hupfeld and Welte Mignon reproducing pianos in 1908 and 1910, respectively. Full score transcriptions of the piano rolls, which are included in the book, provide many substantial features of Scriabin's performance: exact pitches and their timing against each other, rhythms, tempo fluctuations, articulation, dynamics, and essential pedal application. Using these transcriptions and other historical documents as the groundwork for his research, Anatole Leikin explores Scriabin's performing style within the broader context of Romantic performance practice.
