Madonnas That Maim Michael P. Carroll, 1992-04 In 1560 a poor woman named Margherita left the Italian city of Piacenza to check on her crop In the field she heard herself being called and turned to see a woman dressed in white It was the blessed Mother of God Queen of Heaven the Virgin Mary Mary was soon joined by a male figure whom she identified as Christ The blasphemies of Piacenza angered Christ said Mary who had intervened before Christ devastated the city with a flood She gave Margherita specific instructions for the people of Piacenza to save themselves from divine punishment And to ensure that Margherita would be believed Mary gave a sign she paralyzed Margherita's legs In **Madonnas That Maim** Michael Carroll looks at the ways in which Italians have revered invoked feared and placated their madonnas and saints Carroll examines a range of devotional practices that have been legitimated by the local Catholic clergy in Italy for centuries including the cult of the patron saint relics miracles processions sanctuaries pilgrimage and the mixing of Catholic ritual and magic He explores the dark side of holiness the willingness of the madonnas and saints of Italy to maim occasionally even to kill in order to maintain their own cults and discusses the psychological origins of such a belief structure He also considers differences between northern and southern Italy both in popular Catholicism and in the social structures that have allowed differences to emerge Including an English language overview of literature on popular Catholicism in Italy and summaries of important studies by its authors **Madonnas That Maim** offers a rich account of the development of beliefs and practices that have characterized popular piety in Italy for the past five hundred years **The Splintered Divine** Spencer L.

Allen, 2015-03-05 This book investigates the issue of the singularity versus the multiplicity of ancient Near Eastern deities who are known by a common first name but differentiated by their last names or geographic epithets It focuses primarily on the I tar divine names in Mesopotamia Baal names in the Levant and Yahweh names in Israel and it is structured around four key questions How did the ancients define what it meant to be a god or more pragmatically what kind of treatment did a personality or object need to receive in order to be considered a god by the ancients Upon what bases and according to which texts do modern scholars determine when a personality or object is a god in an ancient culture In what ways are deities with both first and last names treated the same and differently from deities with only first names Under what circumstances are deities with common first names and different last names recognizable as distinct independent deities and under what circumstances are they merely local manifestations of an overarching deity The conclusions drawn about the singularity of local manifestations versus the multiplicity of independent deities are specific to each individual first name examined in accordance with the data and texts available for each divine first name **The Oxford Handbook of Mary**

Chris Maunder, 2019-08-07 The Oxford Handbook of Mary offers an interdisciplinary guide to Marian Studies including chapters on textual literary and media analysis theology Church history art history studies on devotion in a variety of forms cultural history folk tradition gender analysis apparitions and apocalypticism Featuring contributions from a distinguished

group of international scholars the Handbook looks at both Eastern and Western perspectives and attempts to correct imbalance in previous books on Mary towards the West The volume also considers Mary in Islam and pilgrimages shared by Christian Muslim and Jewish adherents While Mary can be a source of theological disagreement this authoritative collection shows Mary's rich potential for inter faith and inter denominational dialogue and shared experience It covers a diverse number of topics that show how Mary and Mariology are articulated within ecclesiastical contexts but also on their margins in popular devotion Newly commissioned essays describe some of the central ideas of Christian Marian thought while also challenging popularly held notions This invaluable reference for students and scholars illustrates the current state of play in Marian Studies as it is done across the world

The Modern Pilgrim Paul Post, Paulus Gijbertus Johannes Post, Jos Pieper, Marinus van Uden, 1998 This book is the product of a relatively long history of pilgrimage research in a Dutch theological setting It is intended as a report for an international audience on this long running programme Two lines are followed in the book The first is the track of liturgical studies in which an historical European ethnological and anthropological approach has predominated The second is a social science track with specific content coming from psychology of religion The combination of these two lines has been extremely fruitful In addition to results of various surveys of contemporary pilgrimage practice and the expansion of research into ritual and cultural context in which modern pilgrims find themselves special attention is also bestowed on historiographic issues involved in orienting pilgrimage research and its theoretical and methodological aspects The places of pilgrimage examined here are Wittem Dokkum and Amsterdam in The Netherlands Banneux in Belgium Lourdes and La Salette in France and Santiago de Compostela in Spain The central question which informs the whole study is to what extent one can perhaps speak of a new type of pilgrim today the modern pilgrim

Queen of Sorrows Bianca M. Lopez, 2024-09-15 Queen of Sorrows takes an original approach to both late medieval Italian history and the history of Christianity using quantitative and qualitative analyses of a remarkable archive of 1 904 testaments to determine patterns in giving to the Virgin of Loreto shrine in the late fourteenth and early fifteenth centuries Bianca M Lopez argues that in central Italy as elsewhere the cult of the Virgin Mary gained new prominence at this time of unprecedented mortality Individuals gave to Santa Maria di Loreto which houses the structure in which Mary is believed to have lived as an expression of their grief in the hope of strengthening family lineages beyond death and to care for loved ones believed to be languishing in purgatory Lopez establishes statistical correlations between different social groups and their donations to Loreto over time uncovering informative new historical patterns such as the prominence of widow and migrant donors in the notarial record The testaments also provide a social history of Recanati revealing how its denizens venerated Mary as a saint with unrivaled spiritual power and uniquely sympathetic to grief having lost her own son Jesus In the fourteenth century plague survivors transformed their anguish into Marian devotion The devastation of the plague brought the Virgin out of noble courts and monasteries and onto city streets As Queen of Sorrows details however the

popularity and growing wealth of Loreto's Marian shrine attracted the attention of the papacy and peninsular seigniorial lords who eventually brought Santa Maria di Loreto under the control of the Church

Likeness and Presence Hans Belting, 1994 Before the Renaissance and Reformation holy images were treated not as art but as objects of veneration which possessed the tangible presence of the Holy the faithful believed that these images served as relics and were able to work miracles deliver oracles and bring victory to the battlefield In this magisterial book Hans Belting traces the long history of the sacral image and its changing role from surrogate for the represented image to an original work of art in European culture Likeness and Presence looks at the beliefs superstitions hopes and fears that come into play as people handle and respond to sacred images and presents a compelling interpretation of the place of the image in Western history Back cover

Civic Ritual and Drama, 2023-04-12 Late medieval and renaissance cities though powerful communities jealous of their own jurisdiction were constantly negotiating their relationships with other secular and religious authorities The seven essays in this collection treat various aspects of civic display and pageantry during the fifteenth and sixteenth centuries The overwhelming sense one receives is that the solemn pomp was essentially about power how to get it display it share it and retain it Each paper demonstrates how through ceremony and symbol municipalities sought to fashion their own corporate self image in order to establish the limits of their authority in relationship to the countervailing powers surrounding them The essays are concerned with the period before the ever widening impact of the Reformation and the intellectual and political revolutions it spawned had reached the level of civic pageantry In the varied rituals considered here we can see reflected the highly sophisticated minds of their creators using the symbolic landscape of their religious and cultural past in important acts of corporate self fashioning

Christian Pilgrimage in Modern Western Europe Mary Lee Nolan, Sidney Nolan, 2018-06-15 Christian Pilgrimage in Modern Western Europe is a commanding exploration of the importance of religious shrines in modern Roman Catholicism By analyzing more than 6 000 active shrines and contemporary patterns of pilgrimage to them the authors establish the cultural significance of a religious tradition that today touches the lives of millions of people Roman Catholic pilgrimage sites in Western Europe range from obscure chapels and holy wells that draw visitors only from their immediate vicinity to the world famous often thronged shrines at Rome Lourdes and Fatima These shrines generate at least 70 million religiously motivated visits each year with total annual visitation exceeding 100 million Substantial numbers of pilgrims at major shrines come from the Americas and other areas outside Western Europe Mary Lee Nolan and Sidney Nolan describe and interpret the dimensions of Western European pilgrimage in time and space a cultural geographic approach that reveals regional variations in types of shrines and pilgrimages in the sixteen countries of Western Europe They examine numerous legends and historical accounts associated with cult images and shrines showing how these reflect ideas about humanity divinity and environment The Nolans demonstrate that the dynamic fluctuations in Christian pilgrimage activities over the past 2 000 years reflect socioeconomic changes and technological transformations as well as

shifting intellectual orientations Increases and decreases in the number of shrines established coincide with major turning points in European history for pilgrimage no less than wars revolutions and the advent of urban industrial society is an integral part of that history Pilgrimage traditions have been influenced by and have influenced science literature philosophy and the arts Christian Pilgrimage in Modern Western Europe is based on ten years of research The Nolans collected information on 6 150 shrines from published material correspondence with bishops and shrine administrators and interviews They visited 852 Western European shrines in person Their book will be of interest to many general readers and of special value to historians cultural geographers students of comparative religion anthropologists social psychologists and shrine administrators

I santuari cristiani d'Italia André Vauchez, 2007 **Veiled Threats** Michael P. Carroll, 1996 In his acclaimed *Madonnas That Maim* Michael Carroll began his systematic examination of popular Catholicism in Italy Now in *Veiled Threats* Carroll delves more deeply into the distinctive character of Italian popular Catholicism He explores in detail the complex relationship between popular and official Catholicism in Italy from the fifteenth century to the present bringing to light a considerable body of recent Italian scholarship on the Catholic experience in Italy never before translated into English Carroll places special emphasis on miraculous images and the cults that form around them on public performances such as self flagellation during Holy Week processions on devotion to souls in Purgatory on the success of preaching orders in adapting to local beliefs on the role of relics and the incorrupt bodies of saints and on differing responses to the Reformation in northern and southern Italy Throughout *Veiled Threats* Carroll discovers in the beliefs and practices of popular Catholicism and implicit logic and vital creativity that reflect local experiences and needs far removed from those of official Catholicism

Jacobs, 2013-10-07 In the late fifteenth century votive panel paintings or tavolette votive began to accumulate around reliquary shrines and miracle working images throughout Italy Although often dismissed as popular art of little aesthetic consequence more than 1 500 panels from the fifteenth and sixteenth centuries are extant a testimony to their ubiquity and importance in religious practice Humble in both their materiality and style they represent donors in prayer and supplicants petitioning a saint at a dramatic moment of crisis In this book Fredrika H Jacobs traces the origins and development of the use of votive panels in this period She examines the form context and functional value of votive panels and considers how they created meaning for the person who dedicated them as well as how they accrued meaning in relationship to other images and objects within a sacred space activated by practices of cultic culture
