**Making Time for Digital Lives** Anne Kaun,Christian Pentzold,Christine Lohmeier,2020-09-09 It is said that the ontology of data resists slowness and also that the digital revolution promised a levelling of the playing field Both theories are examined in this timely collection of chapters looking at time in the digital world Since data has assumed such a paramount place in the modern neoliberal world contemporary concepts of time have undergone radical transformation By critically assessing the emerging initiatives of slowing down in the digital age this book investigates the role of the digital in ultimately reinforcing neo liberal temporalities It shows that both speed up and slow down imperatives often function as a form of biopolitical social control necessary to contemporary global capitalism Problematic paradoxes emerge where a successful slow down and digital detox ultimately are only successful if the individual returns to the world as a more productive labouring neoliberal subject Is there another way The chapters in this collection broken up into three parts ask that question      **I Am Sarah** James Davison,2023-05-16 This is the entertaining and intriguing account of Sarah a woman who has been alive for more than a millennium She fell ill in her nineteenth year of life died and was resurrected by Jesus Christ Pursued by the authorities who view her return to life as an abomination she has been traveling through history with two others resurrected by Jesus Lazarus of Bethany and Elan the son of the widow from Nain After learning that their resurrections conveyed immortality the three set out to discover why While Lazarus is intent on preserving the beginnings of Christianity and Elan is happily exploring new geographies Sarah searches for her life s purpose Having fought alongside Lazarus and Elan in the Crusades she now finds her place as a teacher mentor and gifted healer But her new life is soon tested in a way she wasn t prepared to face      [The Psychoanalytic Vision](#) Frank Summers,2013 This book departs from defining the analytic goal as the resolution of particular content toward viewing analytic process as an open ended inquiry
