School Travel Great Britain. Parliament. House of Commons. Transport Committee, 2009 In a report out today HCP 352 session 08 09 ISBN 9780215529206 the House of Commons Transport Select Committee tells education and transport ministers they must do far more to produce a modal shift away from cars towards public transport dedicated school transport including Yellow Buses walking and safer cycling schemes for British school children The Transport Committee Chairman Louise Ellman MP says Young people deserve safe and affordable travel to education leisure and employment The journeys people make when young will influence their preferences and habits in adulthood Also Both the Department for Children Schools and Families and the Department for Transport urgently need to identify how they are going to ensure children and young adults are not denied opportunities because public transport is either inadequate or too costly In particular travel should not present a barrier to accessing the new Diploma courses For similar reasons much more should be done to identify children eligible for free school transport The Committee recognise in their report that no single

model will suit all situations and that car travel to school can be the most suitable method in some circumstances. However, they call on ministers to provide high quality guidance and examples of best practice to illustrate when a dedicated school bus system is appropriate. Top up the Education Maintenance Allowance for students from low income families and extend similar support for young people engaged in the new 14-19 diplomas. Do more to encourage local authorities to identify pupils eligible for free school transport. Consider the viability of a concessionary scheme offering reduced fares to young people. Ensure that the Department for Transport, Department of Health and the Department for Children, Schools and Families work together so that national policy and practical implementation at the local level deliver both value for money and a greater number of joint initiatives that promote walking and cycling. Help local authorities address the inherent tension between school choice and travel impact by raising awareness of sustainable school travel issues amongst parents and young people when they are selecting schools. In rural areas, review whether the maximum travel distance under which free transport may be provided allows for sufficient choice of schools. Monitor the effectiveness of School Travel Plans. The Committee also calls on local authorities to consider new ways to fund and run innovative schemes that integrate transport, health and educational objectives for school travel.

An Everyday Miracle Jennifer Muszik, 2015-12-11. In February 2015, everything changed in an instant for Jennifer Muszik. One moment she had a healthy, loving husband who embraced his role as stay-at-home dad for their three children. The next moment she was dealing with a shocking reality: Paul was on life support, and the doctors did not think he would make it through the night. Much less the night Jennifer soon learned Paul was suffering from toxic shock syndrome and hung precariously between life and death while she helplessly watched. As family arrived for what they believed would be their last moments together with Paul, Jennifer realized she had a choice to make: either focus on the dire prognosis or focus on God and pray for Him to heal her husband. Jennifer fixed her eyes on God and engaged their community to pray with her on their journey. And what happened next was nothing short of an everyday miracle. In this moving story, a wife and mother shares how she prayed God would save her husband from almost certain death and, in the process, illustrated to others that He is always there, no matter how difficult the circumstances.
