Prince, 2008 The cultural political and economic influences on

the changing fortunes of Hertfordshire's great parks over the past 500 years are examined in this authoritative history. Fascinating accounts of such parks as Hatfield Moor Park and Knebworth are illustrated by revisiting each historical era and its prevailing fashions such as the enthusiasm for deer hunting in the 16th century and the golden age of landscape gardening in the 18th century. Close analysis of each time period's cartographical sources further supports this fitting record of the county's green spaces which ultimately outlines the ongoing decline in Hertfordshire's parklands now divided piecemeal between golf courses, schools and hotels sold as real estate or precariously maintained as tourist attractions.
