change his life and to the fascinating philosophical debates that engaged him and formed the core of Buddhism Buddha For Beginners compares Buddha's philosophy with those of his contemporaries the later Buddhist schools and Western Philosophy The book includes a survey distinguishing the philosophical differences among later schools of Buddhism such as Theravada Madhyamaika Tantric Zen and others Buddha For Beginners is not a book you read it is a book you experience It makes you stop and close your eyes Through some magical combination of words drawings and intuitive wisdom Buddha For Beginners conveys not only the facts of Buddhism but the peace the silence the feel of it It is historically accurate spiritually challenging and the white spaces mean as much as the words     Dante For Beginners Joe Lee,2011-12-06 Dante For Beginners takes the reader on a trip starting in hell and ending in heaven The reader gets a quick introduction to Dante and his times Next the reader meets a sweet lass named Beatrice and samples a bit of his other literary offerings such as the great feast the Convivio But then it's on to the big one the Commedia and a canto by canto description of the entire work Characters ideas and situations are described as they happen no searching through end notes footnotes or field notes to distinguish Forese Donati Dante's pal from his evil brother Corso The entire plan of the hereafter is simply mapped out Dante For Beginners is a great vacation with history's greatest tourist Dante Alighieri     **Tolkien for Beginners** Louis Markos,2022-09-23 Tolkien For Beginners will introduce the reader to the multilayered depth and breadth of Tolkien's tales of Middle earth what critics following Tolkien's lead refer to collectively as his legendarium J R R Tolkien sweeps us away to a distant time and place that is at the same time our own time and place He takes us to a world where difficult choices must be made and are made where character is defined by those choices and where redemption is possible though not always embraced The Lord of the Rings taps a deep root in the human psyche There is much death destruction and defeat in Tolkien's world but there is even more friendship courage and hope What one remembers when one finishes reading The Lord of the Rings is not the vice of the villains as strong and as well drawn as it is but the virtue that empowers the heroes to resist it even at the cost of their own lives It will be the goal of Tolkien For Beginners to introduce the reader to the multilayered depth and breadth of Tolkien's tales of Middle earth To do justice to the full dimensions of that legendarium author Louis Markos will speak in two voices that of the storyteller who loves the stories he tells and that of the critic who seeks to identify and explicate key themes from those stories In his telling and analysis he will treat the legendarium both as a collection of secondary world myths with their own integrity and as a reflection of Tolkien's Catholic worldview     **Zinn For Beginners** David Cogswell,2009-08-18 Zinn For Beginners describes the life and work of the most vital historian of our time Howard Zinn led a revolution in the writing of history by telling the story not from the standpoint of conquerors and rulers but from the side of the ordinary people who always bear the brunt of the ambitions of tyrants Zinn tells the story of Columbus discovery of America from the standpoint of the native people whose hands Columbus cut off to terrorize them into giving him gold He tells the story of the Civil War not from the point of view of the great generals who directed the slaughter

but from that of the slaves and from the ordinary people who gave up their lives in the struggle It tells of the Spanish American War from the point of view of Mark Twain who wrote When the smoke was over the dead buried and the cost of the war came back to the people it suddenly dawned on us that the cause of the Spanish American war was the price of sugar that the lives blood and money of the American people were used to protect the interest of the American capitalists Howard Zinn s fresh look at history has earned him a devoted following Zinn For Beginners tells the story of where Zinn came from what events shaped his life and walks through the main points of his major works

Structuralism and Poststructuralism For Beginners Donald D. Palmer, 2007-08-21 What is Structuralism How is it possible And once the structures of Structuralism have been discovered how is Poststructuralism possible Thus begins Don Palmer s Structuralism and Poststructuralism For Beginners If Nobel or Pulitzer ever made a prize for making the most difficult philosophers and ideas accessible to the greatest number of people one of the leading candidates would certainly be Professor Don Palmer From his Sartre For Beginners and Kierkegaard For Beginners to his Looking at Philosophy author illustrator Don Palmer has the magic touch when it comes to translating the most brutally difficult ideas into language and images that non specialists can understand In its less dramatic versions writes Palme structuralism is just a method of studying language society and the works of artists and novelists But in its most exuberant form it is a philosophy an overall worldview that provides an account of reality and knowledge Poststructuralism is a loosely knit intellectual movement comprised mainly of ex structuralists who either became dissatisfied with the theory or felt they could improve it Structuralism and Poststructuralism For Beginners is an illustrated tour through the mysterious landscape of Structuralism and Poststructuralism The book s starting point is the linguistic theory of Ferdinand de Saussure The book moves on to the anthropologist and literary critic Claude Lévi Strauss the semiologist and literary critic Roland Barthes the Marxist philosopher Louis Althusser the psychoanalyst Jacques Lacan the deconstructionist Jacques Derrida Learn among other things why structuralists say Reality is composed of not Things but Relationships Every object is both a presence and an absence The total system is present in each of its parts The parts are more real than the whole The book concludes by examining the postmodern obsession with language and with the radical claim of the disappearance of the individual obsessions that unite the work of all these theorists
