Abra,2015-01-20 Atheism this book argues is unbelievable The universe s wonders couldn t have come about by chance Natural selection alone doesn t produce evolution Therefore since evolution resembles the creative process especially in using trial and error God s creative activity is responsible and human creators reveal much about him However that process is goal directed so evolution must be as well But the goal a Picasso or Darwin pursues is vague They don t know exactly where they re going and make mistakes and so therefore must God Thus Abra rejects the perfect God assumed by many religions and Intelligent Design Why bring back God To restore meaning and purpose to existence and faith s many benefits To better explain how the universe scientific laws and life itself came about and living things attractive but useless properties Other discussions clarify both creativity and the creative God Is there one kind of creativity or many A sex difference Are creators neurotic **Design Realities** Stuart Walker,2018-10-16 Design Realities explores a wide range of topics on

**Papers of Bertrand Russell, Volume 26** Bertrand Russell, 2020-12-30 The Collected Papers of Bertrand Russell Volume 26 covers a period of transition in Russell's political life between his orthodox and sometimes pugnacious defence of the West in the early post war and the dissenting advocacy of nuclear disarmament and détente that started in earnest in the mid 1950s. While some of the assembled writings echo harsh prior criticism of Soviet expansionism and dictatorship others register growing qualms about the recklessness of American foreign policy and the baneful effects on civil liberties of anti communist hysteria inside the United States. Whether continuing to push for western rearmament or highlighting in a more placatory vein the folly of the Cold War's divisions and rival fanaticisms Russell's paramount objective was avoiding a war that threatened global catastrophe. Suspended between fear and hope he expounded his evolving political concerns and much else besides including autobiographical reflections and typically common sense guidance for living well in a constant flow of newspaper and magazine articles, letters to editors, radio broadcasts and discussions and of special note a Nobel Prize acceptance speech. Russell also completed two lecture tours of the United States, the last of many as well as a landmark such visit to Australia. All three of these journeys and the textual record they left are examined in depth using manuscript material and unpublished correspondence from the Bertrand Russell Archives at McMaster University which is mined extensively throughout the volume.

**Painted Shadow** Carole Seymour-Jones, 2009-12-23 By the time Vivienne Eliot was committed to an asylum for what would be the final nine years of her life she had been abandoned by her husband T. S. Eliot and shunned by literary London. Yet Vivienne was neither insane nor insignificant. She generously collaborated in her husband's literary efforts, taking dictation, editing his drafts and writing articles for his magazine *Criterion*. Her distinctive voice can be heard in his poetry. And paradoxically it was the unhappiness of the Eliots marriage that inspired some of the poet's most distinguished work from *The Family Reunion* to *The Waste Land*. This first biography ever written about Vivienne draws on hundreds of previously unpublished papers, journals and letters to portray a spontaneous, loving but fragile woman who had an important influence on her husband's work as well as a great poet whose behavior was hampered by psychological and sexual impulses he could not fully acknowledge. Intriguing and provocative *Painted Shadow* gracefully rescues Vivienne Eliot from undeserved obscurity and is indispensable for anyone wishing to understand T. S. Eliot, Vivienne or the world in which they traveled.

*From Ecclesiastes to Simone Weil* Ernest Rubinstein, 2014-08-06 *From Ecclesiastes to Simone Weil* Varieties of Philosophical Spirituality reads major philosophers from the Western philosophical canon and beyond for the spirituality implicit in their metaphysics, epistemology, ethics, aesthetics and logic. Its aim is to revive for the modern reader the spiritual import of philosophy as an area of inquiry and study. Spirituality is understood as a lived orientation towards the sacred. The sacred is characterized as the source of all being and human wellbeing. Philosophy is presented as an avenue of approach to the sacred, alternative to the western religious traditions. Philosophers treated include Plato, Descartes, Spinoza, Kant, Hegel, Kierkegaard, Emerson, William James, Bertrand Russell and Simone Weil.
