Satires Juvenal, 2016 Juvenal's fourth book of Satires consists of three poems which are all concerned with contentment in various forms. These poems use enormous humour and wit to puncture the pretensions of the foolish and the wicked, urging an acceptance of our lives and a more positive stance towards life and death by mockery of the pompous and comic description of the rich and famous. The Introduction places Juvenal in the history of Satire and also explores the style of the poems as well as the degree to which they can be read as in any sense documents of real life. The text is accompanied by a literal English translation and the commentary is keyed to important words in the translation and aims to be accessible to readers with little or no Latin. It seeks to explain both the factual background to the poems and also the literary qualities which make this poetry exciting and moving to a modern audience **The English Catalogue of Books** Sampson

Education Outlook, 1892 **State of Ridicule** Dan Sperrin, 2025-04-29 A history of political satire in English literature from its Roman foundations to the present day. Satire is a funny, aggressive and largely oppositional literature which is typically created by people who refuse to participate in a given regime's perception of itself. Although satire has always been a primary literature of state affairs and although it has always been used to intervene in ongoing discussions about political theory and practice, there has been no attempt to examine this fascinating and unusual literature across the full chronological horizon. In *State of Ridicule* Dan Sperrin provides the first ever long-term history of political satire in British literature. He traces satire's many extended and discontinuous trajectories through time while also chronicling some of the most inflamed and challenging political contexts within which it has been written. Sperrin begins by describing the Roman foundations and substructures of British satire, paying particularly close attention to the core Roman canon: Horace, Persius and Juvenal. He then proceeds chronologically, populating the branches of satire's family tree with such figures as Chaucer, Jonson, Dryden, Swift, Pope and Dickens, as well as a whole series of writers who are now largely forgotten. Satire, Sperrin shows, can be a literature of explicit statements and overt provocation, but it can also be notoriously indirect, oblique, suggestive and covert, complicated by an author's anonymity or pseudonymity. Sperrin meticulously analyses the references to transient political events that may mystify the contemporary reader. He also presents vivid and intriguing pen portraits of the satirists themselves. Along the way, Sperrin argues that if satire is to be contended with and reflected upon in all its provocative complexity and if it is to be seen as anything more than a literature of political vandalism, then we must explore the full depth and intrigue of its past. This book offers a new starting point for our intellectual and imaginative contact with

an important and fascinating kind of literature The Churchman ,1882 *Language, Truth, and Literature* Richard Gaskin,2013-04-18 According to the literary humanist works of imaginative literature have an objective meaning which is fixed at the time of their production and which is the same for all readers then and thereafter not subject to the vagaries of individual readers responses Such works refer to the real world and make statements about that world which are of cognitive as well as aesthetic value the two kinds of value are indeed intimately connected Richard Gaskin offers a defence of literary humanism so understood against assault from two directions On the one hand some analytic aestheticians have argued that works of literature do not bear referentially on the world and do not make true statements about it others hold that such works do not make a contribution to knowledge others again allow that works of literature may have cognitive value but deny that this depends on their having truth or reference On the other hand reception theorists and deconstructionists have rejected the humanist s objectivist conception of literary meaning and typically take a pragmatist and anti realist approach to truth and meaning This latter poststructuralist treatment of literature has often been accompanied by a radical politicization of its study In defending literary humanism against these various forms of attack Gaskin shows that the reading and appreciation of literature is a cognitive activity fully on a par with scientific investigation and that we can and should engage in it disinterestedly for the sake of what can be learnt about the world and our place in it **Classical Civilisation and Ancient History in British Secondary Education** Edith Hall,Arlene Holmes-Henderson,2025-07-08 An Open Access edition will be available on publication on the Liverpool University Press website thanks to funding from the Arts and Humanities Research Council AHRC In the UK A Levels and GCSEs in Classical Civilisation and Ancient History offer exciting avenues through which to access the cultures of people who spoke ancient Greek and Latin and their neighbours across the ancient Mediterranean and Black Sea worlds They are inherently interdisciplinary offering an outstanding opportunity to study a civilisation in the round using diverse sources from literary and philosophical texts to legal documents inscriptions art architecture and archaeology Yet many people are either unaware of the existence of these courses or do not understand their contents This unprecedented study by two Classics Professors at the University of Durham with extensive experience of teaching in schools and HEIs charts the subjects historical development and emergence in their current form since the mid 20th century explaining and illustrating their contents It describes the skills and competencies that they confer which are valued by university admissions offices and employers alike It presents the results of interviews with several significant participants in the story of these classical subjects and of questionnaires filled in by many additional teachers and students It also offers practical advice on how to introduce Classical Civilisation and or Ancient History at secondary level with guides to bibliographical and other resources
