The Language of the Stars Hermann Beckh, Rudolf Frieling, 2020-11-16

Astrology is a concern of the Church and the work of Michael Hermann Beckh During the brief window between the two World Wars the Rev Prof Hermann Beckh led research at The Christian Community Seminary in Stuttgart In those precious years he published on

music the gospels and the ancient Mysteries By 1930 in his Contributions to the Priests Newsletter he had produced the most far reaching account of the cosmic order ever written The typescript of this great work was destined to gather dust in the Berlin Archiv however until it was discovered in recent years Published here for the first time it is the crowning masterpiece to Beckh s Collected Works The translated and annotated text is accompanied by Rudolf Frieling s in depth application of Beckh s principles of the cosmic starry order to the Creed of The Christian Community and by a number of appreciations and relevant book reviews Through ever deepening meditation guided by Rudolf Steiner and his vast knowledge of Tibetan Sanskrit Pali and Avestan sacred texts scarcely to be equalled in Europe at the time Beckh came to the first hand realization that human and cosmic life was ordered He perceived directly that this cosmic order was good as originating from the World Will true as from World Thinking and beautiful as from World Feeling All three could be personally experienced in disciplined consciousness that could enter dream sleep and pre natal life This then was Beckh s method and inspiration as shown in this extraordinary work The time will come when Beckh s Christened star knowledge which signifies a basic overturning of today s decadent astrology will be appreciated for its significance August Pauli A Tiny Universe'S Companion Joy

Usher,2018-05-31 A Tiny Universe s Companion accompanies A Tiny Universe a textbook on astrology which is based on one version of the Birth Chart of the Universe known as Thema Mundi Companion expands on the first book by exploring a number of techniques which were refined by astrologers several centuries ago but have since lost their significance in modern times Practices such as the division between day and night which creates the accidental dignity of Planetary Sect and the forgotten rule of Contention munakara which warns of the danger of crossing boundaries are both reminders of the impact of Sect on the seven original planets A first century predictive system originating in Persia called Firdaria has been re introduced in the past few years and is once more gaining in popularity Firdaria relies heavily on the principles of Sect to direct the individual s lifespan via different planetary periods along with the sequencing of planets according to the Chaldean Order This method is examined in detail in the final chapters of Companion using modernized interpretations of text from 1st Century astrologer Vettius Valens and Johannes Schoener from the 16th Century C E Planets rulership over the twelve houses is a cornerstone of traditional astrology s chart interpretation and a ruling planet s condition determines its success or failure in managing the affairs of its house Issues such as mediocre quality troublesome relationships poor placement or lack of sight aversion suggest stress for the planet and indicate difficult repercussions in the areas of life for which the ruling planet is responsible Patterns which normally lie unseen or dormant within the chart become animated through rulership and with the reintroduction of lost models the chart and life on Earth once more become reflections of the larger Universe
