## **Satyricon The Apocolocyntosis Of The Divine Claudius:**

**The Satyricon: the Apocolocyntosis** Petronius, Seneca, 2005-01-27 Perhaps the strangest and most strikingly modern work to survive from the ancient world The Satyricon relates the hilarious mock epic adventures of the impotent Encolpius and his struggle to regain virility Here Petronius brilliantly brings to life the courtesans legacy hunters pompous professors and dissolute priestesses of the age and above all Trimalchio the archetypal self made millionaire whose pretentious vulgarity on an insanely grand scale makes him one of the great comic characters in literature Seneca s The Apocolocyntosis a malicious skit on the deification of Claudius the Clod was designed by the author to ingratiate himself with Nero who was Claudius successor Together the two provide a powerful insight into a darkly fascinating period of Roman history *Ancient Rome: The Rise and Fall of an Empire* Simon Baker, 2010-09-30 This is the story of the greatest empire the world has ever known Simon Baker charts the rise and fall of the world s first superpower focusing on six momentous turning points that shaped Roman history Welcome to Rome as you ve never seen it before awesome and splendid gritty and squalid From the conquest of the Mediterranean beginning in the third century BC to the destruction of the Roman Empire at the hands of barbarian invaders some seven centuries later we discover the most critical episodes in Roman history the spectacular collapse of the free republic the birth of the age of the Caesars the violent suppression of the strongest rebellion against Roman power and the bloody civil war that launched Christianity as a world religion At the heart of this account are the dynamic complex but flawed characters of some of the most powerful rulers in history men such as Pompey the Great Julius Caesar Augustus Nero and Constantine Putting flesh on the bones of these distant legendary figures Simon Baker looks beyond the dusty toga clad caricatures and explores their real motivations and ambitions intrigues and rivalries The superb narrative full of energy and imagination is a brilliant distillation of the latest scholarship and a wonderfully evocative account of Ancient Rome *The Satyricon and Seneca* Petronius, 1977 *In Defiance of History* Victoria Leonard, 2022-02-16 This volume offers a counterbalance to the dismissal that Orosius s Histories Against the Pagans has suffered in most recent criticism Orosius is traditionally considered to be a mediocre scholar and an essentially worthless historian This book takes his literary endeavour seriously recognizing the unique contribution the Histories made at a crucial moment of debate and uncertainty where the present was shaped by restructuring the past The significance of the Histories is recognised intrinsically rather than only in comparison with other texts and authors principally Augustine of Hippo Orosius s mentor The approach of the book is historiographical exploring the form purpose and meaning of the Histories The themes of divine providence monotheism and imperial authority are examined and the subjects of war and the sack of Rome receive extended analysis The book foregrounds Orosius s significant historiographical innovations that are seldom explored such as the subversion of imperial history within a Christian spectrum in the synchronization of the emperor Augustus and Christ Each chapter contributes to the progression of knowledge about Orosius s Histories and the wider literary and historiographical

culture of disruption that characterised the late fourth and early fifth centuries CE      **Artifacts from Ancient Rome** James B. **The Ethics of Obscene Speech in Early Christianity and Its Environment** Jeremy F. Hultin, 2008-08-31 This book aims to contextualize early Christian rhetoric about foul language by asking such questions as Where was foul language encountered What were the conventional arguments for avoiding or for using obscene words How would the avoidance of such speech have been interpreted by others A careful examination of the ancient uses of and discourse about foul language illuminates the moral logic implicit in various Jewish and Christian texts e g Sirach Colossians Ephesians the Didache and the writings of Clement of Alexandria Although the Christians of the first two centuries were consistently opposed to foul language they had a variety of reasons for their moral stance and they held different views about what role speech should play in forming their identity as a holy people

**Apocolocyntosis** Lucius Seneca, 2015-05-19 The Apocolocyntosis divi Claudii literally The Gourdification of the Divine Claudius is a political satire on the Roman emperor Claudius probably written by Seneca the Younger It is one of only two examples of Menippean satire from the classical era that have survived the other being Petronius Satyricon The title plays upon apotheosis the process by which dead Roman emperors were recognized as gods Apocolocyntosis is in fact Latinized Greek and sometimes transliterated Apokolokyntosis In the manuscripts the anonymous work bears the title Ludus de morte Divi Claudii Play on the death of the Divine Claudius The title Apokolokyntosis Attic Greek Gourdification sometimes also translated as Pumpkinification comes from the Roman historian Dio Cassius who wrote in Greek Dio Cassius attributed authorship of a satirical text on the death of Claudius called Apokolokyntosis to Seneca the Younger Only much later was the work referred to by Dio Cassius identified with some degree of uncertainty with the Ludus text

*The Emergence of Subjectivity in the Ancient and Medieval World* An Interpretation of Western Civilization represents a combination of different genres cultural history philosophical anthropology and textbook It follows a handful of different but interrelated themes through more than a dozen texts that were written over a period of several millennia and by means of an analysis of these texts presents a theory of the development of Western civilization from antiquity to the Middle Ages The main line of argument traces the various self conceptions of different cultures as they developed historically reflecting different views of what it is to be human The thesis of the volume is that through examination of these changes we can discern the gradual emergence of what we today call inwardness subjectivity and individual freedom As human civilization took its first tenuous steps it had a very limited conception of the individual Instead the dominant principle was that of the wider group the family clan or people Only in the course of history did the idea of what we now know as individuality begin to emerge and it took millennia for this idea to be fully recognized and developed The conception of human beings as having a sphere of inwardness and subjectivity subsequently had a sweeping impact on all aspects of culture including philosophy religion law and art indeed this notion largely constitutes what is today referred to as modernity It is easy to lose sight of the fact that this modern conception of human subjectivity was not simply something given but rather the result of a long process of historical and cultural development

*Prosimetrum* Joseph Harris, Karl Reichl, 1997 In virtually all the literary traditions of the world there are works of verbal art that depend for part of their effect on the juxtaposition of prose and verse This volume takes the first step towards a comparative study of prosimetrum the mixture of prose and verse with essays by leading linguists and literary scholars of a selection of prosimetrical traditions The nature of what constitutes verse or prose is one underlying question addressed An outline of historical developments emerges especially for Europe and the Near East with articles on classical medieval and nineteenth century literatures Oriental prosimetrical literatures discussed include that of Vedic India and the old literary cultures of China and Japan also represented are oral and oral derived folk literatures of recent centuries in Africa the West and Inner Asia This volume takes the first step towards a comparative study of prosimetrum the mixture of prose and verse in a wide range of literary cultures An outline of historical developments emerges especially for Europe and the Near East with articles on classical medieval and nineteenth century literatures Oriental prosimetrical literatures discussed include that of Vedic India and the old literary cultures of China and Japan also represented are oral and oral derived folk literatures of recent centuries in Africa the West and Inner Asia Professor KARL REICHL teaches in the English Department at the University of Bonn Professor JOSEPH HARRIS teaches in the English Department at Harvard University Contributors KRISTIN HANSON PAUL KIPARSKY JAN ZIOLKOWSKI ARDIS BUTTERFIELD PROINSIAS Mac CANA JOSEPH HARRIS JUDITH RYAN W F H NICOLAISEN LEE HARING STEVEN WEITZMAN WOLFHART HEINRICHS DWIGHT REYNOLDS JULIE SCOTT MEISAMI KARL REICHL

WALTHER HEISSIG     *The Empire of the Self* Christopher Star, 2012-12-01 Christopher Star uncovers significant points of contact between Seneca and Petronius two important Roman writers long thought to be antagonists In *The Empire of the Self* Christopher Star studies the question of how political reality affects the concepts of body soul and self Star argues that during the early Roman Empire the establishment of autocracy and the development of a universal ideal of individual autonomy were mutually enhancing phenomena The Stoic ideal of individual empire or complete self command is a major theme of Seneca s philosophical works The problematic consequences of this ideal are explored in Seneca s dramatic and satirical works as well as in the novel of his contemporary Petronius Star examines the rhetorical links between these diverse texts He also demonstrates a significant point of contact between two writers generally thought to be antagonists the idea that imperial speech structures reveal the self

**Strange and Gaudy Fruit** Jeff Nicoll, 2023-05-09 The history of Christianity includes many doctrines adopted and actions taken to meet immediate problems but which had unintended consequences they are bad fruit Matt 7 15 20 The oldest is antisemitism which arose from the competition of the early church with early Judaism It was built into the New Testament and was developed by the church fathers Having learned to dehumanize it was easy to apply the same techniques to other groups the church became complicit with enslavement misogyny and other forms of oppression One response to the bad fruit is to reject religion in the manner of Christopher Hitchens However the dogmas are part of our culture even if in secular form If the roots of marginalization are not understood they cannot be eliminated This work uses a range of critics and defenders of traditional Western Christianity to identify poisonous fruits and detoxify them The critical voices do not create a consensus Nevertheless a core can be perceived what Erasmus called the few truths Grounded in the religious tradition they can be shared with secular people as a basis for an ethical merciful and respectful society Although the history of Christianity is bloody there are ways to go forward
