Scott Freer, 2023-10-19 American Disaster Movies of the 1970s is the first scholarly book dedicated to the disaster cycle that dominated American cinema and television in the 1970s Through examining films such as Airport 1970 The Poseidon Adventure 1972 Two Minute Warning 1976 and The Swarm 1978 alongside their historical contexts and American contemporaneous trends the disaster cycle is treated as a time bound phenomenon This book further contextualises the cycle by drawing on the longer cultural history of modernist reactions to modern anxieties including the widespread dependence on technology and corporate power Each chapter considers cinematic precursors such as the ark movie and contemporaneous trends such as New Hollywood vigilante and blaxploitation films as well as the immediate American context the end of the civil rights and countercultural era the Watergate crisis and the defeat in Vietnam As Scott Freer argues the disaster movie is a modern demotic form of tragedy that satisfies a taste for the macabre It is also an aesthetic means for processing painful truths and many of the dramatized themes anticipate present day monstrosities of modernity
