Savage Within The Social History Of British Anthropology 1885 1945:

Anthropology's Global Histories Rainer F. Buschmann,2008-10-31 Anthropologists and world historians make strange bedfellows Although the latter frequently employ anthropological methods in their descriptions of cross cultural exchanges the former have raised substantial reservations about global approaches to history Fearing loss of specificity anthropologists object to the effacing qualities of techniques employed by world historians this despite the fact that anthropology itself was a global comparative enterprise in the nineteenth century Rainer Buschmann here seeks to recover some of anthropology s global flavor by viewing its history in Oceania through the notion of the ethnographic frontier the furthestmost limits of the anthropologically known regions of the Pacific The colony of German New Guinea 1884 1914 presents an ideal example of just such a contact zone Colonial administrators there were drawn to approaches partially inspired by anthropology Anthropologists and museum officials exploited this interest by preparing large scale expeditions to German New Guinea

Buschmann explores the resulting interactions between German colonial officials resident ethnographic collectors and indigenous peoples arguing that all were instrumental in the formation of anthropological theory He shows how changes in collecting aims and methods helped shift ethnographic study away from its focus on material artifacts to a broader consideration of indigenous culture He also shows how ethnological collecting often a competitive affair could become politicized and connect to national concerns Finally he places the German experience in the broader context of Euro American anthropology Anthropology s Global Histories will interest students and scholars of anthropology history world history and Pacific studies

Struggles for a past Kevin Myers, 2024-06-04 This book examines the construction of ethnic communities and of multicultural policy in post war England It explores how Irish and Afro Caribbean immigrants responded to their representation as alien races by turning to history In cultural and educational projects immigrants imagined researched wrote and pictured their pasts They did so because they sought in the past dignity a common humanity and an explanation of the hostility that had greeted them in England But the meaning of the past is never fixed Encouraged and conditioned by the burgeoning field of race relations these histories were interpreted as expressions of difference They

asserted it was claimed specific ethnic needs and identities They were the nation s other histories Drawing on a wide range of sources and covering many different debates the book seeks to recover the inclusive historical imagination of radical scholars and activists who saw in the past the resources for a better future The Ashgate Research Companion to Modern Imperial Histories John Marriott,2016-03-23 Written by leading scholars this collection provides a comprehensive and authoritative overview of modern empires Spanning the era of modern imperial history from the early sixteenth century to the present it challenges both the rather insular focuses on specific experiences and gives due attention to imperial formations outside the West including the Russian Japanese Mughal Ottoman and Chinese The companion is divided into three broad sections Part I Times surveys the three main eras of modern imperialism The first was that dominated by the settlement impulse with migrants many voluntarily and many more by force making new lives in the colonies This impulse gave way most especially in the nineteenth century to a period of busy and rapid expansion which was less likely to promote new settlement and in which colonists more frequently saw their sojourn in colonial lands as temporary and related to the business mostly of governance and trade Lastly in the twentieth century in particular empires began to fail and to fall Part II Spaces studies the principal imperial formations of the modern world Each chapter charts the experience of a specific empire while at the same time placing it within the complex patterns of wider imperial constellations The individual chapters thus survey the broad dynamics of change within the empires themselves and their relationships with other imperial formations and reflect critically on the ways in which these topics have been approached in the literature In Part III Themes scholars think critically about some of the key features of imperial expansion and decline These chapters are brief and many are provocative They reflect the current state of the field and suggest new lines of inquiry which may follow from more comparative perspectives on empire The broad range of themes captures the vitality and diversity of contemporary scholarship on questions of empire and colonialism encompassing political economic and cultural processes central to the formation and maintenance of empires as well as institutions ideologies and social categories that shaped the lives both of those implementing and those experiencing the force of empire In these pages the reader will find the slave and the criminal the merchant and the maid the scientist and the artist alongside the structures which sustained their lives and their livelihoods Overall the companion emphasises the diversity of imperial experience and process Comprehensive in its scope it draws attention to the particularities of individual empires rather than over generalising as if all empires at all times and in all places behaved in a similar manner It is this contingent and historical specificity that enables us to explore in expansive ways precisely what constituted the modern empire **Tongnaab** Jean Allman,John Parker,2005-11-18 For many Africanist historians traditional religion is simply a starting point for measuring the historic impact of Christianity and Islam In Tongnaab Jean Allman and John Parker challenge the distinction between tradition and modernity by tracing the movement and mutation of the powerful Talensi god and ancestor shrine Tongnaab from the savanna of northern Ghana through the

forests and coastal plains of the south Using a wide range of written oral and iconographic sources Allman and Parker uncover the historical dynamics of cross cultural religious belief and practice They reveal how Tongnaab has been intertwined with many themes and events in West African history the slave trade colonial conquest and rule capitalist agriculture and mining labor migration shifting ethnicities the production of ethnographic knowledge and the political projects that brought about the modern nation state This rich and original book shows that indigenous religion has been at the center of dramatic social and economic changes stretching from the slave trade to the tourist trade Breeding Superman Dan Stone,2002-02-01 Before the First World War there existed an intellectual turmoil in Britain as great as any in Germany France or Russia as the debates over Nietzsche and eugenics in the context of early modernism reveal With the rise of fascism after 1918 these debates became more ideologically driven with science and vitalist philosophy being hailed in some quarters as saviours from bourgeois decadence vituperated in others as heralding the onset of barbarism Breeding Superman looks at several of the leading Nietzscheans and eugenicists and challenges the long cherished belief that British intellectuals were fundamentally uninterested in race The result is a study of radical ideas which are conventionally written out of histories of the politics and culture of the period **Mythic Thinking in Twentieth-Century Britain** M. Sterenberg,2016-06-01 A variety of thinkers used the concept of myth to articulate their anxieties about modernity By telling the story of mythic thinking in Britain from its origins in Victorian social anthropology to its postwar cultural mainstreaming this book reveals a yearning for transcendence in an age long assumed to be disenchanted *The Spiritual in the Secular* Patrick Harries,David Maxwell,2012-07-20 David Livingstone's visit to Cambridge in 1857 was seen as much as a scientific event as a religious one But he was by no means alone among missionaries in integrating mission with science and other fields of research Rather many missionaries were remarkable pioneering polymaths This collection of essays explores the ways in which late nineteenth and twentieth century missionaries to Africa contributed to various academic disciplines such as linguistics ethnography social anthropology zoology medicine and many more This volume includes an introductory chapter by the editors and eleven chapters that analyze missionary research and its impact on knowledge about African contexts Several themes emerge including many missionaries positive views of indigenous discourses and the complicated relationship between missionaries and professional anthropologists Contributors John Cinnamon Erika Eichholzer Natasha Erlank Deborah Gaitskell Patrick Harries Walima T Kalusa John Manton David Maxwell John Stuart Dmitri van den Bersselaar Honor Vinck **In Twilight and in Dawn** Barnett Richling,2012 From New Guinea to the Arctic and beyond the life and times of one of Canada's foremost anthropologists *How Colonialism Preempted Modernity in Africa* Olúfémi Táíwò,2010-01-11 Why hasn't Africa been able to respond to the challenges of modernity and globalization Going against the conventional wisdom that colonialism brought modernity to Africa Olúfémi Táíwò claims that Africa was already becoming modern and that colonialism was an unfinished project Africans aspired to liberal democracy and the rule of law but colonial

officials aborted those efforts when they established indirect rule in the service of the European powers. Tw looks closely at modern institutions such as church missionary societies to recognize African agency and the impulse toward progress. He insists that Africa can get back on track and advocates a renewed engagement with modernity. Immigration, capitalism, democracy, and globalization if done right this time can be tools that shape a positive future for Africa. **South Seas**

Encounters Richard Fulton, Peter Hoffenberg, Stephen Hancock, Allison Paynter, 2018-08-06. *South Seas Encounters* examines several key types of encounters between the many faceted worlds of Oceania, Britain, and the United States in the formative nineteenth century. The eleven essays collected in this volume focus not only on the effect of the two powerful industrialized colonial powers on the cultures of the Pacific but the effect of those cultures on the Western cultural perceptions of themselves and the wider world, including understanding encounters and exchanges in ways which do not underemphasize the agency and consequences for all participating parties. The essays also provide insights into the causes, unfolding, and consequences for both sides of a series of significant ethnographic, political, cultural, scientific, educational, and social encounters. This volume makes a significant contribution to increasing scholarly interest in Oceania's place in British and American nineteenth century cultural experiences. *South Seas Encounters* investigates these significant interactions and how they changed the ways that Oceanic, British, and American cultures reflected on themselves and their place in the wider world.

Race, Racism and Psychology Graham Richards, 2003-09-02. Topics with racial implications have been hotly debated in the psychological literature for most of this century and are often in the news. Graham Richards takes a historical look at how the concepts of race and racism emerged within the discipline and charts the underlying premises of some famous studies in their social and political contexts. No one is allowed to be objective in this arena as opponents will always argue that they are not. This account is bound therefore to be controversial and excite interest, whether or not readers agree with Richards' stance.
