Brisbin, 2016-02-15 Although scholars in the disciplines of law psychology philosophy and sociology have published a considerable number of prescriptive normative and theoretical studies of animals in society *Pet Politics* presents the first study of the development of companion animal or pet law and policy in Canada and the United States by political scientists The authors examine how people and governments classify three species of pets or companion animals cats dogs and horses for various degrees of legal protection They then detail how interest groups shape the agenda for companion animal legislation and regulation and the legislative and administrative formulation of anticruelty kennel licensing horse slaughter feral and roaming cat and breed ban policies Finally they examine the enforcement of these laws and policies by agencies and the courts Using an eclectic mix of original empirical data original case studies and interviews and relying on general theories and research about the policy process and the sociopolitical function of legality the authors illustrate that pet policy is a unique field of political struggle a conflict that originates from differing perspectives about whether pets are property or autonomous beings and clashing norms about the care of animals The result of the political struggle the authors argue is difficulty in the enactment of policies and especially in the implementation and enforcement of laws that might improve the welfare of companion animals **Women and Nature** Glenda Riley, 1999-01-01 Long before Rachel Carson's fight against pesticides placed female environmental activists in the national spotlight women were involved in American environmentalism In *Women and Nature Saving the Wild West* Glenda Riley calls for a reappraisal of the roots of the American conservation movement This thoroughly researched study of women conservationists provides a needed corrective to the male dominated historiography of environmental studies The early conservation movement gained much from women's

widespread involvement Florence Merriam Bailey classified the birds of New Mexico and encouraged appreciation of nature and concern for environmental problems Ornithologist Margaret Morse Nice published widely on Oklahoma birds In 1902 Mary Knight Britton established the Wild Flower Preservation Society of America Women also stimulated economic endeavors related to environmental concerns including nature writing and photography health spas and resorts and outdoor clothing and equipment From botanists birders and nature writers to club women and travelers untold numbers of women have contributed to the groundswell of support for environmentalism **Wild Horse Country** David Philipps,2017-10-10 The insightful and even handed Outside story of a heroic animal whose existence is in danger The wild horse popularly known as the mustang is so ingrained in the American imagination that even those who have never seen one know what it stands for freedom independence the bedrock ideals of the nation But in modern times it has become entangled in controversy and bureaucratic mismanagement and now its future is imperiled In Wild Horse Country Pulitzer Prize winning New York Times reporter David Philipps traces the rich history of wild horses in America and investigates the shocking dilemma they pose in our own time Something about the Author Gerard J. Senick,1997-04 A collection of autobiographical essays written by prominent authors and illustrators of books for children and young adults **Among Wild Horses** Lynne Pomeranz,2012-10-30 See the wild horses run The Pryor Mountain Mustangs have roamed the high desert and mountains of the American West for centuries Descended from steeds brought over by the Spanish conquistadores their untamable nature and enduring courage inspire awe in all who have the chance to see them Photographer Lynne Pomeranz spent two years with these magnificent creatures along the Montana Wyoming state line and her startlingly intimate photographs capture the resilience and free spirit that define these mustangs *Wild Horse Annie* Tracey Fern,2019-02-19 Wild Horse Annie was the nickname of Velma Bronn Johnston 1912 77 who loved mustangs all her life When she saw mustangs being rounded up and killed to make room for ranchers livestock she knew she had to speak up In 1950 she began writing letters to local newspapers and politicians defending the horses right to roam free Many people told Annie to hush up but they couldn t stop her She soon became a voice for mustangs throughout the state of Nevada speaking on their behalf at town halls and meetings But Annie was only one person and she wanted to do more So she got children to speak up too by having them write letters to Washington D C officials to ask them to save the mustangs Finally with the help of her young pencil brigade Annie persuaded Congress to pass nationwide laws protecting wild horses and burros on public land nationwide Readers will find inspiration in author Tracey Fern and artist Steven Salerno s portrait of an early animal rights advocate who spoke up for what she believed in and empowered a generation of children to be a voice for the voiceless Summer Bridge Activities® Summer Bridge Activities,2015-01-15 Summer learning 7th to 8th grade workbooks for kids ages 12 13 Build a bridge of learning opportunities for your soon to be eighth grader from school to home and back again in just 15 minutes a day with Summer Bridge Activities Summer Learning 8th Grade Workbooks All Subjects are a great way for your middle
