**Revolutions that Made the Earth** Tim Lenton, Andrew Watson, 2013-04-11 The Earth that sustains us today was born out of a few remarkable near catastrophic revolutions started by biological innovations and marked by global environmental consequences The revolutions have certain features in common such as an increase in complexity energy utilization and information processing by life This book describes these revolutions showing the fundamental interdependence of the evolution of life and its non living environment We would not exist unless these upheavals had led eventually to successful outcomes meaning that after each one at length a new stable world emerged The current planet reshaping activities of our species may be the start of another great Earth system revolution but there is no guarantee that this one will be successful The book explains what a successful transition through it might look like if we are wise enough to steer such a course This book places humanity in context as part of the Earth system using a new scientific synthesis to illustrate our debt to the deep past and our potential for the future Plant a Tree for Me Ann Marie

**The Many Faces of God** Walter Prucnel,2007-08 God looked at the earth with despair He knew the future of earth was dismal it was prone to the pollutions created by man Worse yet people in many countries were killing others for their different religious beliefs Gone was the day of the cross and bow when men fought each other face to face Now many countries were making weapons that could travel great distances to kill millions This both saddened and angered Him and He knew something had to be done Should I create another flood Have everyone turned into salt No none of these would work because many souls would be sent to Hell and Satan could not accommodate that many He could perform miracles to improve these conditions but that would take away the Earthlings freewill The only solution was for the Earthlings to improve their own fate with a little help from Him Summoning his Undergods He gave them instructions to choose a few Earthlings approach them through apparitions and give them minor powers which would aid them in their missions Thus The Many Faces of God begins
