Auditing Theory Ian Dennis, 2015-06-05 Auditing is generally considered to be a particularly practical discipline This hampers theoretical research as does its complex nature The unquestioning acceptance and implementation of rules governing auditing practice could lead to poor outcomes This book provides a theory of auditing that underpins auditing practice Identifying the objectives of auditing in the context of financial reporting this book examines underlying beliefs to provide a deeper understanding of the concepts of auditing In analyzing the field from a theoretical perspective the author encounters important concepts such as materiality verification evidence risk and professional judgement Philosophical ideas about the social construction of reality are employed to explain the role of theory in a building block of the business world This book is vital reading for auditing scholars globally whilst its conclusions offer an interesting case study in the philosophy of professional judgement

Kant and Parfit Husain Sarkar, 2018-09-06 Derek Parfit's *On What Matters* is widely recognized as elegant profound and destined to change the landscape of moral philosophy In Volume One Parfit argues that the distinct indeed powerfully conflicting theories of deontology and contractualism can be woven together in a way so as to yield utilitarian conclusions Husain Sarkar in this book calls this *The Ultimate Derivation* Sarkar argues however that this derivation is untenable To underwrite this conclusion this book traverses considerable Parfitian terrain Sarkar shows why Parfit hasn't quite solved what Sidgwick had called the profoundest problem in ethics he offers a reading of Kant Rawls and Scanlon that reveals Parfit's keen utilitarian bias and he demonstrates why Parfit's Triple Theory does not succeed in its task of unifying conflicting moral theories without making substantial utilitarian assumptions

The final chapter of the book is about meta ethics It shows that Parfit s Convergence Principle is mistaken even though it unveils Parfit s utterly humane concerns Moral philosophers are not as Parfit thinks climbing the same mountain But for all that Sarkar maintains Parfit s book is arguably the greatest consequential tract in the history of moral philosophy

Parents, Help Your Child Say No to Drugs Norman Leibrock, 2002-08-07 Books are like people each one has its own story My book is a story about teenagers with an addiction for drugs and the adverse effects these addictions have on their parents My hope is that this book will present a picture of the many changes that can present themselves in the lives of young people and parents in their battle with mind altering drugs Many parents unfortunately are lost in the complexities of our everyday busy lives and their minds are clouded to the problems that are developing before them Many of us are either oblivious to the problem of drugs or are too afraid to admit to ourselves that we do not know what to do if it happens in our families Parents are sadly convinced that drug addiction can never happen to their children My wife Jane and I had to face that sudden realization that drugs were destroying the life of our son I believe that my book when read in its entirety will give you the guidance and insight to help all parents and their children to fight drug addiction and to render proper guidance to those already in the grip of mind altering drugs This book will help to illuminate those hidden changes that drugs can bring into the lives of our children and teenagers and with it the effects it will have on those around them I hope and pray that the sharing of this valuable information along with my own experiences will be a positive force in the thinking of our teenagers and their loving parents My fellow parents it is of the utmost importance that no matter what happens and how tough it may get remember there is no other way but up Wherever you are and whatever the problem dont ever stop the fight against drug addiction I am aware that in the hard nosed world we live in there are a multitude of self help books and numerous concepts and scientific theories on how to successfully face your problems and bring about changes in your life But I have written my book for this reason that parents can be hopeful in a time of adversity suffering from a family drug addiction problem Let faith and understanding change your life around As parents we often read about drugs and the effects they have upon our children Invariably our many conversations will drift to the topic of drug addiction and whether our children are in fact using drugs and what we can do about it I remember sitting with a group of parents discussing drugs Although we all agreed that the rapid introduction of mind altering substances was a critical problem to our children not everyone was in agreement what we should and could do about this problem if it affects our family Some parents told us our family is very content since all our children are young this problem doesnt pertain to us at this time Some parents sat back and told me that their teenage children have never taken drugs They never had to discuss drugs with their children because they knew they would never touch them A third group of parents were honest enough to admit that their teenage son was a drug addict for years and they didnt know it and when they found out about it they didnt know what to do about it Parents do these statements sound familiar Perhaps something you have heard before but shrugged it off as something you would never have to worry

about I realize that this is a sad scenario but very true Too many parents are not taking the time to talk to their children and establish a drug free family when they are young and vulnerable The result has been too many young people becoming drug addicts Some of them could have been prevented or helped at a young age That initial help must come from us as their parents We must have a constant sense of awareness of this problem facing our children today Remember parents we cannot change the nature of the drug addict or his addiction but we can help Save Your Child's Life! David Hendin,1974 *Full Potential* Linda Fabre,2008-12 Food has always been the cornerstone for love making yet so often ignored Typically before any relationship reaches bedroom ventures dinner dates always come first For example your first date what came first before any pleasures Lunch or Dinner was served Sometimes food is requested after you ve made it to the bedroom love scene Well this book was designed to help enhance your love cooking I ve incorporated 88 ways to cook in any form or fashion to intensify your love life This book is designed for the non cooker as well as the experienced cooker We all could use a little spice in our love life A wise man once told me You never see anyone eating and frowning I truly believe this book will keep you smiling by creating happiness in your kitchen and love life too **The Eternal Mark of a Mom** Linda Weber,2019-04-09 A nurturing mother is vital to the character and future of a child But what is a nurturing mother Linda Weber describes in detail how important it is for moms in all situations to focus on nurturing the hearts and souls of their children and she shows them how to do so By sharing encouraging true stories including her own and new research Weber offers moms a detailed and updated rationale that defends the value of motherhood while urging women to embrace the value and power of their role **"EVERYONE JUST YELL "NO" AT THE "BULLIES!" THAT SHOULD HELP TO STOP THEM!** Molly Murray,2011-08 I think most of us have been bullied at one time in our life or another I believe there were times we may not have realize we were being bullied If we were not being hit or yelled at we were not being bullied Not true Have you ever had something gnaw away at you in the pit of your stomach and you did not know what it was I have Have you ever been left out of a conversation not only when you were young but now as adults It hurts and is so uncomfortable Have you ever been laughed at and to you for no reason at all Have you ever had people just look down at you Have you ever had people make you feel worthless without having to say anything Has anyone ever teased you until it hurt Yes these are all forms of bullying Have you ever yelled at your children and I don t mean just normal mom and dad discipline Have you said things you should not have and did not realize it was emotional abuse to your children The things that I have heard parents say are stupid and shut up That is just a couple things Think about it and then apologize to your children no matter how old or young they are Just love them If any of the above sounds familiar you are a bully That is right Re read the bad feelings above and if you have done that to anyone you know well maybe you need to tell them just how sorry you are This goes for bosses also Being a boss does not give you the right to be a bully If you think you will get a better employee that way you are so wrong **Letters to My Child's Guardian** Virginia C.
