Saving America's Schools John Harvey,2005 Out of the hills of Kentucky and Southern Indiana comes a teacher s voice crying for a completely new approach to public education A 30 year veteran of public education in 4 states the author marshals some convincing arguments that the worst enemy of public education is itself and that the school administrations in most school systems are very definitely guilty of self perpetuating and extending that failure While hiding behind the fa ade of competent caring administrators all too many superintendents and principals are guilty of placing the almighty dollar first their own reputations second and students a poor third The writer places the blame for all of this failure on the heads of school administrations while not excusing the culpability of teachers and parents for believing those who try to convince them that education is available for everyone if the correct magic curricula programs methods etc are followed carefully and proper testing is done correctly Public education is still only educating those students who come to school properly motivated or who are fortunate enough to find those few teachers who are willing to buck the system and teach the children not the tests the curricula or the currently popular and ever changing programs In answer to the inevitable questions of whether or not the system is worth preserving and what might be done to make a serious attempt at educating every child the author proposes some interesting and thought provoking strategies Radically different than those proposed by the Bush administration these strategies are possible on any level from a single classroom to an entire nation *Saving America s Schools* is a must read for every serious educator every parent and every concerned citizen in this country

Defend the Border and Save Lives Tom Homan,2020-03-31 Former ICE Director Tom Homan has been at the forefront of the conservative fight to secure our borders and offers proof that illegal immigration is not a victimless crime Illegal immigration is the most controversial and emotional issue this country faces today President Trump was elected on his

promise to fix illegal immigration and build a wall on our southern border Because he won on this issue the Democrats refuse to work with him and we experienced a government shutdown as a result of this divide The Democrats have supported funding in the past and in his State of the Union the President said that he wants to unify and work together to resolve this and all the other challenges facing America The Democrats sat on their hands They won't budge Clearly as a party they don't care about the facts only about denying whatever success they can to this president Former ICE Director and Fox News contributor Tom Homan knows the facts He's spent his life on the border and knows that if we don't control illegal immigration now this country will continue to suffer the consequences of crime drugs and financial strain and it will get much much worse In *Defend the Border and Save Lives* Homan shares what illegal immigration is really about Illegal immigration should not be a partisan issue Now is the time to fix this issue that has claimed so many victims and divided this country We need to pull the curtain back and expose what truly happens and separate facts from fiction Illegal immigration is not a victimless crime and the victims are the illegals and their innocent children as well as the Americans who suffer at the hand of the criminals who sneak into this country

He Is Mighty To Save Vardell Taylor, 2019-03-29 Here is the good news of the gospel Not only can our broken hearts be healed but they can be turned to joy My broken heart was turned to joy by Jesus Christ And my desire to share that discovery has been my main motivation for writing this book I had never been taught that my decision to follow Christ would actually lead to feeling worthless and fallen I had never heard that feeling discouraged was normal even beneficial and just another temporary step in my progression I believe there are many Church members who are now inactive simply because they tried and failed and were not forewarned to expect failure mistaking initial failure as a sign of eternal failure To those who have thought I know the gospel is a good thing and great for those who can do it but apparently it's not for me I am just too sinful and weak Those people are exactly who the good news is for
