School Committee,1907      The Empty Schoolhouse Luther Bryan Clegg,1997 Annotation One and two room schools represent a paradoxical time in Texas history when school played second fiddle to family duties but still served as the focus of community life Luther Bryan Clegg s *The Empty Schoolhouse* provides a direct link to the past through interviews with students who attended these schools and teachers who taught in this area between Fort Worth and Odessa and the Hill Country and Amarillo Former students share stories describing Friday afternoon literary societies dead snakes in desk drawers pranks fires travel to and from school and discipline Drawing on historical and sociological data as well as interviews Clegg presents intriguing accounts of rural life preserving the uniqueness of the olden days      **The Common School Journal** Horace Mann,1846      **Connecticut School Document** Connecticut,Connecticut school document,1904

Stilgoe,2015-02-12 John Stilgoe is just looking around This is more difficult than it sounds particularly in our mediated age when advances in both theory and technology too often seek to replace the visual evidence before our own eyes rather than complement it We are surrounded by landscapes charged with our past and yet from our earliest schooldays we are instructed not to stare out the window Someone who stops to look isn t only a rarity he or she is suspect *Landscape and Images* records a lifetime spent observing America s constructed landscapes Stilgoe s essays follow the eclectic trains of thought that have resulted from his observation from the postcard preference for sunsets over sunrises to the concept of teen geography to the unwillingness of Americans to walk up and down stairs In Stilgoe s hands the subject of jack o lanterns becomes an occasion to explore centuries old concepts of boundaries and trespassing and to examine why this originally pagan symbol has persisted into our own age Even something as mundane as putting the cat out before going to bed is traced back to fears of unwatched animals and an untended frontier fireplace Stilgoe ponders the forgotten connections between politics and painted landscapes and asks why a country whose vast majority lives less than a hundred miles from a coast nonetheless looks to the rural Midwest for the classic image of itself At times breathtaking in their erudition the essays collected here are as meticulously researched as they are elegantly written Stilgoe s observations speak to specialists whether they be artists historians or environmental designers as well as to the common reader Our landscapes constitute a fascinating history of accident and intent The proof says Stilgoe is all around us
