In *The Family Ranch* award winning author Linda Husa offers readers a personal inside view into the lives of six diverse ranching families and the land that shapes their days and nights. Photographer Madeleine Graham Blake provides engaging and often moving images that portray each family at work and at play. With chapters on the critical issues that face each of them from grazing rights and water use to children's education and the emerging rural marketplace, these family profiles are set in a larger context. This is family ranching as it is now, a tracing of how it always was but made far more complex in modern times. By combining their traditions with the tools of modern technology, these people strengthen the ideal of family and give the business of ranching a vibrant and viable future. *The Family Ranch* is rich in remarkable stories of what happens when parents, children, work, and nature come together for a lifetime of commitment. It speaks to urban and rural people in important ways, illuminating the realities of the western ranch and the people who make their living and their lives on it. Essential reading for people who love the West and care about its future, *The Family Ranch* inspires thoughts about tradition, values, and responsibility that are applicable to all communities.
