RAMAS Risk Calc 4.0 Software Scott Ferson, 2002-07-24 Many analysts use point estimates and ignore their uncertainty But we can never be sure about the exact values of numbers based on data And no practical calculations are without error even though they may have the appearance of precision RAMAS Risk Calc 4 0 Software Risk Assessment with Uncertain Numbers uses traditional methods such as probability theory and interval analysis and the newest techniques such as probability bounds analysis and fuzzy arithmetic to quantify uncertainty in risk assessments It creates a convenient environment for computing in which all uncertainties are carried forward automatically Providing examples in four major application areas Risk Calc brings sophisticated methods of uncertainty analysis into the reach of anyone who can do arithmetic on a calculator

Confidence Intervals for Proportions and Related Measures of Effect Size Robert G. Newcombe, 2012-08-25 Confidence Intervals for Proportions and Related Measures of Effect Size illustrates the use of effect size measures and corresponding confidence intervals as more informative alternatives to the most basic and widely used significance tests The book provides you with a deep understanding of what happens when these statistical methods are applied in situations far removed from the familiar Gaussian case Drawing on his extensive work as a statistician and professor at Cardiff University School of Medicine the author brings together methods

for calculating confidence intervals for proportions and several other important measures including differences ratios and nonparametric effect size measures generalizing Mann Whitney and Wilcoxon tests He also explains three important approaches to obtaining intervals for related measures Many examples illustrate the application of the methods in the health and social sciences Requiring little computational skills the book offers user friendly Excel spreadsheets for download at www.crcpress.com enabling you to easily apply the methods to your own empirical data
