 instanced in the linguistic gaming and performativity of the movement's initial formation and subsequently isolating the
 specific from the general with essays focusing on Ball Tzara Serner Hausmann Dix Heartfield Schwitters Baader Cravan and
 the exemplary Duchamp the political philosophy of the avant garde is brought to bear upon our own contemporary struggle
 through critical theory to comprehend the cultural usefulness relevance validity and effective or otherwise oppositionality of
 Dada's infamous anti stance The volume is presented in sections that progressively point towards the expanding complexity
 of the contemporary engagement with Dada as what is often exhaustive historical data is forced to rethink realign and
 reconfigure itself in response to the analytical rigour and exercise of later twentieth century animal anarchic thought the
 testing and cultural placement of thoughts upon the virtual and the eventual implications for the once blissfully
 unproblematic idea of expression From the opening provocative proposition that historically Dada may have been the falsest
 of all false paths the volume rounds to dispute such condemnation as demarcation continues not only of Dada's
 embeddedness in western culture but more precisely of the location of Dada culture Ten critical essays by Cornelius Partsch
