Shackleford, 2007 Faith Seeking Understanding promotes the idea that one can approach an understanding of God through the study of science Religious faith and scientific inquiry should not be seen as competitors diametrically opposed to each other but as complementary ways to assist the human quest for knowledge and deeper meaning of existence Science is viewed primarily as a gift from God The author with his background in both science and theology provides the reader with an understanding of human participation in God's creation John Shackleford explores the scientific evidence for a personal loving God in a positive dialogue between Christian faith and science that will be thought provoking for college and university students along with those interested in how science and religious faith intersect **BOOK JACKET** God as Symbol John M. Shackleford, 2004 Although this work is written from a Christian viewpoint it also presents the symbolic visions of the non believer The symbolic examination of God helps us to uncover what it means to be human and where we are heading as a species Symbols aid in conveying the abstract ideas that human languages are too limited to express In the broadest sense God symbolizes all the mysteries of existence Any thinking person must ask the question what is the ultimate significance of this frail and vulnerable flesh that clothes the human ego God symbolizes these important mysteries and beckons us to approach him for answers Books in Print Supplement, 2002 Forthcoming Books Rose Army, 1998-06 Dictionary of the Bible: Marriage to Regem William Smith, 1872 **The Modern Eclectic Dictionary of the English Language** Robert Hunter, Charles Morris, 1904 **The Index**, 1872 **The Essential Unity of Science & Religion** John M Shackleford, 1998-06-01 The Index ...
