The Year's Best Science Fiction and Fantasy for Teens Jane Yolen, Patrick Nielsen Hayden, 2005-05 Award winning anthologists Jane Yolen and Patrick Nielsen Hayden have combed through a year s worth of books and magazines and websites to find the most outstanding fantasy and science fiction stories of 2004 and collected them into a single volume aimed specifically at teens and young adults Many of today s

most popular authors are represented here including Garth Nix author of Sabriel Lirael and Abhorsen who presents an unforgettable tale of two swords two daughters and two endings S M Stirling author of Island in the Sea of Time sends a likeable young barbarian across the Channel to Alba for a confrontation with a wizard from faraway Nantucket that will change his life forever David Gerrold creator of The Trouble with Tribbles who takes you to a remote countryside surrounded by a mysterious darkness whose secret has yet to be revealed **Nuclear Holocausts** Paul Briens,1987 The anxiety caused by the thought of nuclear war causes some people to avoid the topic altogether some to despair and others to place unwarranted confidence in scientific or governmental control However the vivid characters and realistic settings of fiction can bring home the impact of a nuclear war in a way that makes the topic difficult to avoid and allows readers to confront their fears and phobias This bibliography study is the only compilation of its kind to deal exclusively with nuclear war in fiction The first five chapters provide a historical survey of the development of the nuclear war theme and a study of the causes and aftermath of nuclear war as treated in literature In addition Briens considers the significant failure of some works to confront the subject and the success of others as educational tools With a clear focus on the subject of war this work does not deal with such related topics as nuclear accidents reactor disasters or near war situations The bulk of the book is given over to the detailed annotated bibliography which consists of over 800 entries with associated checklists Intended to provide scholars librarians and general readers with ready access to a great variety of information about his body of writing the bibliography lists both hardcover and paper editions of books and the reprinting of each short story and corrects several errors in other standard reference works In his critical analysis and through the annotations in the bibliography Briens attempts to improve our understanding of cultural attitudes toward the dangers posed by the ever present reality of nuclear weaponry Jacket **Critique of Fantasy, Vol. 2** Laurence A.
