Secret Cure:

Cures of Ireland Cecily Gilligan, 2025-03-04 Discover the enduring magic of ancient Irish folk remedies with *Cures of Ireland* a captivating journey into the heart of Ireland's healing traditions It's said that almost everyone in Ireland particularly in rural communities will know of someone with a cure It might be for the mumps a sty in the eye or a sprain Indeed the author of *Cures of Ireland* Cecily Gilligan was herself cured of jaundice and ringworm by a seventh son in her local Sligo during her childhood Cecily Gilligan has been researching the rich world of Irish folk cures for almost forty years and given the tradition has largely been an oral one has been interviewing a broad range of people from around the country who possess these mystical cures and those who have benefited from their gifts One has a cure for eczema that comprises herbal butter balls another buys warts from the sufferer with safety pins There are stories of clay from graves with precious healing properties and pieces of cords from potato bags being sent across the world to treat asthma While the Ireland of the twenty first century continues to develop at lightning speed there is something deeply comforting and reassuring in the fact that these ancient healing traditions while fewer in number do survive to this day *Cures of Ireland* is an exquisite book that will be treasured by many generations to come

The Secrets of specialists Alfred Dale Covey, 1903 [Sanitariums, Hospitals, and the Belladonna Cure](#) Kenneth Anderson, 2022-11-16 This book covers the history of for profit institutions for the treatment of drug and alcohol habits which were established prior to the Repeal of Prohibition as well as a number of miscellaneous entities such as mail order opium cures These include the famous Charles B Towns Hospital and its notorious belladonna cure Although many people know that Alcoholics Anonymous founder Bill Wilson was treated with the belladonna cure at the Charles B Towns Hospital few are aware that Towns was an insurance salesman with an eighth grade education and no medical training who lied about inventing an addiction cure that he got from someone else that Towns had also been a stockbroker who was convicted of grand larceny after embezzling money for his clients and that Towns only decided to make a buck in the addiction cure business after being banned from stock trading Furthermore in the 1910s Towns proposed that state government should force drug addicts to take his cure against their wills and that death camps should be built to exterminate anyone who relapsed after taking his cure This book also tells the story of Harry Hubbell Kane who founded the De Quincey Home for the cure of drug addicts in 1881 After the De Quincey Home failed in 1883 Kane invented and marketed a notorious patent medicine named Scotch Oats Essence Scotch Oats Essence was comprised of one third alcohol and each ounce contained about a half a grain of morphine It seems that Kane had decided that if he couldn't make money by curing drug addicts he could make a lot of money by creating them These are only two of hundreds of addiction treatment facilities which existed prior to the founding of AA some good some bad and some indifferent These stories and many more can be found in this book

Recipes and Everyday Knowledge Elaine Leong, 2018-11-28 Across early modern Europe men and women from all ranks gathered medical culinary and food preservation recipes from family and friends experts and

practitioners and a wide array of printed materials Recipes were tested assessed and modified by teams of householders including masters and servants husbands and wives mothers and daughters and fathers and sons This much sought know how was written into notebooks of various shapes and sizes forming treasuries for health each personalized to suit the whims and needs of individual communities In *Recipes and Everyday Knowledge* Elaine Leong situates recipe knowledge and practices among larger questions of gender and cultural history the history of the printed word and the history of science medicine and technology The production of recipes and recipe books she argues were at the heart of quotidian investigations of the natural world or household science She shows how English homes acted as vibrant spaces for knowledge making and transmission and explores how recipe trials allowed householders to gain deeper understandings of sickness and health of the human body and of natural and human built processes By recovering this story Leong extends the parameters of natural inquiry and productively widens the cast of historical characters participating in and contributing to early modern science

The Journal of Inebriety, 1893 **The American Practitioner**, 1877 **FDA Consumer**, 1992 *The Secrets of Specialists* A. Dale Covey, 1903 **Thought and Knowledge** Diane F. Halpern, 2013-11-07 This best selling textbook written by award winning educator and past president of the American Psychological Association Diane F Halpern applies theory and research from the learning sciences to teach students the thinking skills they need to succeed in today s world This new edition retains features from earlier editions that have helped its readers become better thinkers A rigorous academic grounding based in cognitive psychology is presented in a clear writing style with a humorous tone and supported by numerous practical examples and anecdotes **Thought and Knowledge** Fifth Edition has been revised to help students meet the challenges of a global neighborhood and make meaningful conclusions from the overwhelming quantity of information now available at the click of a mouse The skills learned with this text will help students learn more efficiently research more productively and present logical informed arguments **Thought and Knowledge** Fifth Edition is appropriate for use as a textbook in critical thinking courses offered in departments of psychology philosophy English humanities or as a supplement in any course where critical thinking is emphasized **Trade Secrets** Robert Moore McManigal, 1928 **The Black Cat**, 1902 *Plague Hospitals* Jane L. Stevens Crawshaw, 2016-04-22 Developed throughout early modern Europe lazaretti or plague hospitals took on a central role in early modern responses to epidemic disease in particular the prevention and treatment of plague The lazaretti served as isolation hospitals quarantine centres convalescent homes cemeteries and depots for the disinfection or destruction of infected goods The first permanent example of this institution was established in Venice in 1423 and between the fifteenth and eighteenth centuries tens of thousands of patients passed through the doors Founded on lagoon islands the lazaretti tell us about the relationship between the city and its natural environment The plague hospitals also illustrate the way in which medical structures in Venice intersected with those of piety and poor relief and provided a model for public health which was influential across Europe This is the first detailed study of how these plague

hospitals functioned where they were situated who worked there what it was like to stay there and how many people survived Comparisons are made between the Venetian lazaretti and similar institutions in Padua Verona and other Italian and European cities Centred on the sixteenth and seventeenth centuries during which time there were both serious plague outbreaks in Europe and periods of relative calm the book explores what the lazaretti can tell us about early modern medicine and society and makes a significant contribution to both Venetian history and our understanding of public health in early modern Europe engaging with ideas of infection and isolation charity and cure dirt disease and death

Nostrums and Quackery and Pseudo-medicine American Medical Association,1921 Material for the Health Education of the Public ...: Nostrums and quackery American Medical Association. Bureau of Health and Public Instruction,1922 Air Force and Space Digest ,1959 *Ireland and Medicine in the Seventeenth and Eighteenth Centuries* James Kelly,2016-05-06 The story of early modern medicine with its extremes of scientific brilliance and barbaric practice has long held a fascination for scholars The great discoveries of Harvey and Jenner sit incongruously with the persistence of Galenic theory superstition and blood letting Yet despite continued research into the period as a whole most work has focussed on the metropolitan centres of England Scotland and France ignoring the huge range of national and regional practice This collection aims to go some way to rectifying this situation providing an exploration of the changes and developments in medicine as practised in Ireland and by Irish physicians studying and working abroad during the seventeenth and eighteenth centuries Bringing together research undertaken into the neglected area of Irish medical and social history across a variety of disciplines including history of medicine Colonial Latin American history Irish and French history it builds upon ground breaking work recently published by several of the contributors thereby augmenting our understanding of the role of medicine within early modern Irish society and its broader scientific and intellectual networks By addressing fundamental issues that reach beyond the medical institutions the collection expands our understanding of Irish medicine and throws new light on medical practices and the broader cultural and social issues of early modern Ireland Europe and Latin America Taking a variety of approaches and sources ranging from the use of epistolary exchange to the study of medical receipt books legislative practice to belief in miracles local professionalization to international networks each essay offers a fascinating insight into a still largely neglected area Furthermore the collection argues for the importance of widening current research to consider the importance and impact of early Irish medical traditions networks and practices and their interaction with related issues such as politics gender economic demand and religious belief

Winter Station Jody Shields,2018-01-30 An aristocratic Russian doctor races to contain a deadly plague in an outpost city in Manchuria before it spreads to the rest of the world 1910 people are mysteriously dying at an alarming rate in the Russian ruled city of Kharbin a major railway outpost in Northern China Strangely some of the dead bodies vanish before they can be identified During a dangerously cold winter in a city gripped by fear the Baron a wealthy Russian aristocrat and the city's medical commissioner is determined to stop this mysterious plague

Battling local customs an occupying army and a brutal epidemic with no name the Baron is torn between duty and compassion between Western medical science and respect for Chinese tradition His allies include a French doctor a black marketeer and a charismatic Chinese dwarf His greatest refuge is the intimacy he shares with his young Chinese wife but she has secrets of her own Based on a true story that has been lost to history set during the last days of imperial Russia The Winter Station is a richly textured and brilliant novel about mortality fear and love **Plants of Eden** Louise Frost,Alistair Griffiths,2001 Focusing on plants this book covers plants in each of the three biomes Humid Tropics Warm Temperate and Temperate It also tells the stories of some of the stars in this living theatre of plants and people where the plants come from how they grow and are harvested what people use them for and how and when some of them arrived in Britain **Health Care Fraud** United States. Congress. House. Committee on the Judiciary. Subcommittee on Crime and Criminal Justice,1995
On True and False Spermatorrhoea Percy Pickford,1852
